

LIFE AT WEST POINT.

An Example of How the Cadets Are Made to Economize.

The cadets at the Military Academy at West Point are not favored as are often the students in colleges and universities who have wealthy parents—that is, they are not furnished with an unlimited amount of cash to buy "extras" for rooms, clothes and luxuries.

The army cadet who goes to the Military Academy with spendthrift habits soon receives a decided and severe check. As an instance, a cadet some time ago went to the superintendent for an order for four shirts, but the superintendent peremptorily refused to give his approval.

MORE POSTAL EMPLOYEES.

Baggagemen to Become Postal Employees in Order to Handle Open Mail.

Postmaster General Payne has decided to make the experiment of employing baggagemen on the trains which are not provided with mail clerks to take charge of and deliver open newspaper mail.

Second Assistant Postmaster General Shallenberger suggested the expedient of employing the baggagemen to take charge of the mail along the lines from trains which carry only closed pouches. There are a large number of such trains.

The plan contemplates that the baggage masters shall be sworn in as Post Office Department employees and that they shall be paid for their services.

It is intended that they shall deliver the papers to those to whom they are addressed at points along the line from the car doors, thus saving time which would be lost in case the papers were enclosed in the pouches, as this would necessitate their being taken to the local post office before they could be delivered to agents.
