

Thousands Have Kidney Trouble and Don't Know It.

How To Find Out.
Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also a convincing proof that the kidneys and bladder are out of order.

What to Do.
There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes. You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail.

Address Dr. Kilmer & Co., Home of Swamp-Root, P.O. Box 589, Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root. Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

THE "SANKERO."

Unhappy Lot of a Peculiar Figure of the Irrigation Country.

An eastern farmer coming to an irrigated valley finds everything as different from his accustomed life as he can well imagine. He must learn an entirely new language of farming and a new set of farming rules. His neighbor greets him, not with the remark, "It looks like rain," but "Have you heard when the water is coming in?" or "The ditches are low today." He learns to speak of miners' inches and acre feet of water, and he can soon tell at a glance whether a ditch is carrying 50 or 100 miners' inches of water. He hears wise discussions of headgates, weirs, laterals and canals. He finds that he is "under" a certain canal, which by and by will come to seem to him like an inexorable fate.

He will very promptly make the acquaintance of the king of the irrigated land, the zanjero, in Arizona called "sankero," in California sometimes shortened to "sanky," the water master or ditch rider, a bronzed man in overalls and sombrero, who drives about in a two wheeled cart, with a shovel and a long crooked tined fork by his side and precious keys in his pockets. He is the eye and nay of the arid land, the arbiter of fate, the dispenser of good and evil, to be blessed by turns and cursed by turns and to receive both with the utter unconcern of a small god, for it is the zanjero who distributes the water. He opens the headgate of each farmer's canal, and when the water has run the necessary time he shuts it down again and again looks it securely. If the water is short, he sees that it is divided properly between Smith and Jones and Brown, usually with Smith and Jones and Brown watching him like cats. It is a hard place, that of zanjero in the valleys, subject to accusations, temptations, heartburnings; but, be it said to the credit of the American, there is many a zanjero who is universally respected in his community as an honest man—Ray Stannard Baker in Century.
