Wild Animals in Captivity. Captivity changes animals' nature. A lion captured when it is full grown will always be treacherous, but lions, tigers, leopards or other carniverous animals that have been born in captivity can be tamed till they are quite as gentle and affectionate as poodle dogs.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by consti-tutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is in-flamed you have a rumbling sound or imperfeet hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube re-stored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness(caused by entarrh) that can-not be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

Homing Instinct of the Horse. When Dr. Erwin's possessions were in transit between Oklahoma and Morrill, Kan., last March, a fine Arabian horse was lost from the car. The horse turned up last week at its old home in Oklahoma and was all right .--Kansas City Journal.

At the session of the State Millers convention a letter was read from Gov ernor Pennypacker, who was on the program for an address, in which he stated he would be unable to be present. He said he was a miller by inheritance and wished the convention success. T. R. Burgner, of Elliotston read a paper on "Eastern Fields for Eastern Millers and How Best to Keep and Cultivate them." E. S. Wentz, o Reading, spoke against the purchase of Western flour. H. W. White, of Bloomsburg, thought Pensylvania millers ought to produce their own flour or blending. President Asher Miner was of the opinion that there were not mough millers to grind all the wheat in Pennsylvania. John D. Draybill, of Carlisle, said the State organization was of great benefit to all millers. B Eisenberg, of Huntington, said 'an effort should be made to get reduced freight rates. H. S. Kennedy, of Chicago, read a paper on "The Millers' National Federation and how it is Helping the Eastern Millers."

Details of the deal by which the Pittsburg Coal Company will secure control of the Monongahela River Consolidated Coal and Coke Company were made public. George I. Whitney haagreed to deliver to the Pittsburg Coal Company an amount of stock not to exceed 300,000 shares of the common and 50,000 of the preferred stock in the River Company. For the common the price will be \$15 a share and for the preferred \$45. The delivery of the above stock insures full control of the River Company to the Pittsburg Coal Company, both of which properties are | sarries with it a swift passage to an-COW? nnsylvania Railroad. The total conideration involved in the deal is \$6, 750,000, on the payment of which the Pittsburg Coal Company acquires con-trol of a property estimated to be forth \$40,000,000. Pearl Pulaski, a pretty Polish girl. who recently came to this country, was nearly the cause of a tragedy at Shen-Her beauty has attracted andoah. many admirers among her fellow-coun-trymen. Charles Lucko was so fervid in his love-making that it angered Jo-seph Dubowski, who drew a revolver threatened to shoot his rival. ucko fied from the house and caused Dubowski's arrest. At a hearing beore Justice Shoemaker, the accused man said it was a toy pistol he show ed, but Lucko said it was a dangerous weapon. The girl was present at the hearing, but rejused to testify. Dubowski was held for court. The family of Alderman M. H Hartman, of the Sixth Ward, Lan aster, had a narrow escape from death by asphyxiation. Mrs. Hartman was swakened at an early hour by , chok ng sensation, and she found her baby n a serious condition. She managed o drag herself and child to the bath strate was awakened by the noise of is wife's fall and hurried to her assist nce. She and the baby were quickly laced out of danger. The trouble was aused by gas from the kitchen range Eustratios Barelitzi, a Greek of Read g, instituted suit for divorce from his Helen. He charges his wife with desertion, dating from the day of their marriage, on March 13, of last He says the marriage was obvear. ained by fraud, force and coercion The couple were employed in a Greek rigarette factory prior to the marriage and the husband alleges that his emloyers forced him into the marriage inder threat of discharge and arrest and that after the marriage his wife was aken away by one of his employer. nd he has not met or seen her since John Dean Patterson, ex-Mayor o Harrisburg, died at the home of his son-in-law, W. I. Koiler, in York, aged by years, after having been in delicate ealth from a complication of diseases

THE GREAT YOHO VALLEY.

A Striking Reature in the Canadian Rockies.

The Yobo Valley has only begun to be talked about quite recently. Al though its mouth, since the opening of the railway, has been passed and pepassed annually by many thou sands of persons, no one seems to have thought about exploring it and antil five years ago it had not even got a name! In 1897 the late Herr Jean Habel of Berlin went to its head and short as the distance was took seventeen days to get there from Field and back again. But at that time their were no paths or trails of any sort in the Yoho, and trave. was laborious and slow. This was brought out very clearly in the paper that Herr Habel contributed to the publication of the Appalachian Club of Boston. Most of the troubles arose from keeping along the bottom, in wirgin forest. Lesirous to avoid them, we sought for a spot which would enflade the valley from one end to the other and give a coup d'oeil of the whole, and found one about 2,000 feet above the railway, halfway up between Mt. Stephen and the Great Divide.

Our first glimpse of the Yoho Val ley would have delighted the heart of J. M. W. Turner, R. A. Snow-clad mountains in the far distance, partly veiled in mystery; clouds and cloud shadows floating about, letting in light here and causing gloom there leaving play to the imagination; bringing out in a manner that perfect sunlight would not have done the movements and accidents of its forms. There is no way, as yet, made through its mouth, just where it joins the Kicking-Horse River, and to make one will be a matter of considerable trouble and expense .-- Scribner's Magazine.

Merciless Discipline.

"I see," said an army officer the other day, "that the death penalty has been awarded Louis Gallion, a private in the French Legion, for throwing his cap in his captain's face at Oran. This is just an illustration of the merciless severity exercised in that famous corps. Shooting at sight is permitted the officers, who have to deal with dangerous characters from all parts of Europe.

"Nowhere is there such a corps. Its ranks are recruited from outcasts of all social ranks. Disgraced officers of the Russian service, deserters from the German army, broken scions of the Austrian nobility, fraudulent lebtors from Belgium, forgers from Spain, homicides from America, ruined gamblers from Italy, are jound in plenty in the ranks. No exsuse is taken for a fault, and the slightest symptom of insubordination virtually under control of the other world. It is understood that re-

COMMERCIAL REVIEW.

General Trade Conditions. R. G. Dun & Co.'s "Weekly Review

of Trade" says: A striking contrast appears when comparison is made with the corresponding week of last year. Prices were then tending upward in many branches of industry, new business was coming forward more rapidly than it could be handled, and in the security market all records for activity and high prices were being surpassed.

Later events have demonstrated that the situation was unhealthy, and spec-ulative excesses have been followed by reaction and readjustment. Conservatism was then the exception; it is now the rule. Prospects for steady gains and their maintenance are brighter under the present system.

Failures this week in the United States are 181, against 176 last week. 238 the preceding week, and 200 the coresponding week last year, and in Canada 7, against 33 last week, 8 the preceding week and 19 last year.

Playgoing of Yore.

Collectors of old playbills-and there are such-will be interested in an antique document of this order that has been unearthed at Bruns wick, says the Westminster Gazette. The date which it bears is 1742, and the portion of the text that gives it ts distinction runs as follows:

"For the convenience of the specators it is ordered that persons in the front row are to lie down, that those in the second are to kneel, those 'n the third to sit, and those in the ourth to stand upright. In this way every one will be able to see."

"The spectacle being a tragedy, aughter is forbidden."

This unique poster has been added to the treasures of the Brunswick municipal museum.

Maturity of Trees.

Authorities on forestry say that seventy-five years are required for the oak to reach maturity; and about the same length of time for the ash, arch and elm; for the spruce and ir, about eighty years. After this :ime their growth remains stationary 'or some years, and then decay berins. There are, however, exceptions, for oaks are still living which are known to be over a thousand years old.

Washing ...way the World.

An interesting calculation has recently been made public by the French Academy of Sciences. It is to the effect that, taking into consideration the wear and tear on the solid land by the ocean lashing, river erosion, and wind and weather, the vorld will, by the end of the year 1,500,000, be completely washed away, .nd the ocean will roll over the present foundations of our great contients.

Nickel-in-the-slot-machines are in use in Dawson City, Alaska, for sellng water in the winter. One can put in a nickel and get five gallons of water, but not more. It is so cold there that the water supply in the houses is shut off so that the pipes will not freeze every night.

Hot weather is no more dangerous to fat people than to lean.

INDUSTRIAL AND SCIENTIFIC NOTES.

The aborigines of Peru can, in the darkest night and in the thickest woods, distinguish respectively a white man, a negro, and one of their own race by the smell.

South Africa is probably destined in the near future to become a formidable rival to California and Australia as a competitor for the English market in the supply of fruit.

The largest gas engine in the world having 3000 horsepower, will be sent by a Belgian manufacturer to supply part of the motive power of the World's Fair at St. Louis.

The common contagious diseases, the causes of which are still unknown, are scarlet fever, measles, chickenpox, yelow fever, and hydrophobia. One difficulty in experimental research for the organisms which cause scarlet fever, vellow fever and measles is that animals are not susceptible to them.

All the foreign-born population in the United States, 52.9 per cent. are of the English-Teutonic stock, and 20.9 are Celts. Thus, practically three-fourths of the foreign-born in the United States are of English-Teutonic and Celtic

stocks.

Mrs. E. B. Bradshaw, of Guthrie, Okla., cured of a severe case by Lydia E. Pinkham's Vegetable Compound.

A great many women suffer with a form of indigestion or dyspepsia which does not seem to yield to ordinary medical treatment. While the symptoms seem to be similar to those of ordinary indigestion, yet the medicines universally prescribed do not seem to restore the patient's normal

Mrs. Pinkham claims that there is a kind of dyspepsia that is caused by derangement of the female organism, and which, while it causes dissurbance similar to ordinary indigestion, cannot be relieved without a medicine which not only acts as a stomach tonic, but has peculiar uterinetonic effects as well.

Thousands of testimonial letters prove beyond question that nothing will relieve this distressing condition so surely as Lydia E. Pinkham's Vegetable Compound. It always works in harmony with the female system. Mrs. Pinkham advises sick women free. Address Lynn, Mass.
