CABINET THE LATEST NEWS IN SHORT ORDER. **RESIGNS FROM** Domestic.

Lord Balfour and Financial Secretary Elliott.

MILNER TO SUCCEED CHAMBERLAIN.

The Latter Not a Member of the Cabinet, but the Former Secretary from Scotland-Now Four Vacant British Cabinet Offices to Be Filled-The Duke of Devonshire Will Likely Remain.

London (By Cable) .- Lord Balfour of Burleigh, Secretary for Scotland, and Arthur Ralph Douglas Elliot, Financial Secretary to the Treasury, have resigned and their resignations have been accepted b. the King. Mr. Elliot was not in the Cabinet.

These two resignations make a total secretaryship at Premier Balfour's disposition.

With the latest resignations, both men being strong free-traders, it is understood that the ministerial resignations are completed, and apparently the Duke of Devonshire has decided to remain in the Cabinet. It is practically certain that Austin Chamberlain, ed to hold next year's convention in St. Louis. Lord Milner and Mr. Broderick will take the Exchequer, Colonies and India portfolios, respectively, and the only surprise in the new appointments is likely to be the nomination of a strong man to the War Office to determine how far the recommendations of the South African War Commission can be carried out. Home Secretary Akers-Douglas started for Balmoral tonight and he will probably be involved in the Cabinent reconstruction.

The Premier has been at Balmoral Cabinet changes. At the parish church, Crathie, three-quarters of a mile from Balmoral, which was attended by Queen Victoria, King Edward in the presence of the Prince and Princess of Wales, Prince and Princess Charles of Lansdowne, other Ministers and a dist tinguished congregation, unveiled to-day a memorial bust of the late Queen by the sculptor, Emil Fuchs, and two the Mineral Railroad and Mining Commural tablets in memory of the late Duke of Edinburgh and Empress Frederick of Germany. The three memorials were erected at the expense of the King

Lord Balfour of Burleigh is not a relative of the British Prime Minister. but belongs to the Bruce family.

He is the sixth Baron of his line and is 54 years of age. Lord Balfour is a Scottish representative peer and by family associations, having married a daughter of the fifth Earl of Aberdeen, closely connected with the Scottish peers of Liberal party tendencies.

He has been chairman of several royal commissions and enjoys a good reputation for administrative abilities. Though he has not been prominent in active politics, he has held Cabinet rank since 1895. His opposition to Mr. Chamberlain's fiscal revision was expected from the first. As Secretary for Scotland he carried out much legislation affecting the northern kingdom, especially in regard to education.

Hon. Arthur Elliot, when taken into

U. S. Marshal Exonerated. Mixed With Millenite Its Activity is The Department of Justice has received preliminary reports form its examiners

who went to Alaska to investigate charge against Melvin Grigsby, the nited States attorney, and Frank H. Richards, the United States marshal, of the Cape Nome district. Marshal Richards was charged with attempting to influence the Grand Jury and with irregularities in receiving benefits from the renting of the jail at Nome. District Attorney Grigsby is charged with a number of irregularities in the conduct of his office. Marshal Richards is completely exonerated of all the charges made against him. In the case of District At-North Carolina, believe they have made during the Spanish war, the Department of Justice declines to make public the contents of the report. Final reports are expected to be made in both of these

cases within the next few weeks. Interest in the Canal.

Interest in the Panama canal situation now centers in the communication which Dr. Herran, from the Colombian charge, recently submitted to the state department from his government.

Just what the nature of this is Dr. Herran and the state department officials decline to say on the ground that it is of will tell whether one will nullify the a confidential character, but it is understood that it is in the nature of a proposition which will keep alive the canal negotiations with the Colombian govern-It is possible also that there is in wille- ment after the expiration of September mite a substance which is as yet un- 22, at which time the existing treaty exrecognized as a distinct element, but pires by limitation.

THOUSANDS ARE SLAIN

Turks Are Said to Have Destroyed Town of Kastoria. THE POPULATION WAS OVER 10,000.

While Bulgaria is Proceeding With Mobilization She Cannot Hope, Under Present Conditions, for Aid From the Other Powers of Europe-Murder in a Monastery by Turks.

Sofia, Bulgaria (By Cable) .- The Foreign Office here has received reliable information that the Turks have destroyed the town of Kastoria, 36 miles south of Monastir, and have massacred the population.

The report comes from sources admitting of little doubt, though the details are lacking. It was received with the gravest concern by the officials here. The population of Kastoria numbered about 10,000 persons, and the massacre of such a number in anything which has yet occurred in Macedonia.

At the present critical moment, when popular feeling is intense, the effect of the report of such stupendous slaughter may be most serious.

The press is assuming a bellicose tone. The Dnevnik complains that the Government's partial mobilization of three divisions is utterly inadequate. and urges the immediate mobilization of the whole Bulgarian army, pointing out that the experience of other nations-France, Austria and the United States-has proved that it is always necessary to display strength when dealing with Turkey.

The paper advises the Government to act now "at a favorable moment, when the people of Europe are evidencing encouragement to Bulgaria.

The Government, while steadily proceeding with the partial mobilization plans, is trying to avoid unnecessarily exciting the people, and, consequently has resolved not to mobilize any part of the Sofia garrison.

The War Office has recalled the Bulgarian officers who were studying in the military schools of Russia, France, Austria and Italy.

The German representative here has addressed a note to the Bulgarian Government in accord with the declarations of Russia and Austria, saying that Bulgaria cannot expect assistance from any power in the event of war with Turkey, and that the Austro-Russian reform plan will be applied.

The Austrian representative, in insisting on the necessity for Bulgaria remaining calm, declared that if the principality was powerless to prevent the passage of insurgent bands into Macedonia, Austria and Russia would take note of her powerlessness and charge Turkey to exercise her rights. defend her territory against foreign incursions and maintain order in the interior.

Dispatches from Uskub announce that since the calling out of the Turksh reserves the situation in the vilayet has grown worse. The Austrian and Russian consuls are reported to have asked their Ambassadors at Constantinople to demand that the Porte disband the reserves or maintain disci-pline among them. Since the reserves were mustered pillaging and murders escaped destruction during the big fire have been reported daily. The consuls are powerless. The Turkish authorities receive their complaints and appoint investigating commissions, which never convict.

STORM CAUSES ENORMOUS LOSSES.

Apartment Houses Are Unroofed by the Fury of the Storm.

Atlantic City, N. J. (Special) .--- A cyclonic gale of wind and rain beat down over the resort for four hours, rocking the big buildings to their foundations and creating apprehension for the safety of some of the hotels and apartment houses.

Frightened visitors at the resort were fearful of a catastrophe, as the wind reached the tremendous velocity of overseventy miles an hour.

The crash of breaking windows along the ocean front, which caught the fulls force of the hurricane, was constant,. while the intensity of the gale lasted.

A half dozen hotels were unroofed' and 500 tenants in two of the big apartment houses were driven panic-stricken from their rooms at 7 o'clock through the havoc wrought to the buildings by the fury of the gale.

The boardwalk is littered and blockone place, if report be true, exceeds ed with the debris of wrecked pavilions, and few hotels or stores escaped without the loss of plate "lass windows or other damage.

The telegraph and telephone lines eading out of the city are down, and the fact that the city was cut off from connection with the outside world started wild rumors that the great resort had been entirely swept away. The first train in from Philadelphia and ther points brought down excited relatives and friends who were anxiour after the welfare of their loved ones and who found them well and happy and telling stories about the freaks o the storm

The damage is surprisingly small onsidering the record the cyclone made of being more violent than the great storm of 1889, when hundreds of thousands of dollars were lost. The aggregate loss will exceed \$50,000, but will not be over \$75,000. In view of the anger accompanying the unroofing of buildings, falling signs and flying timbers, the injuries to persons were limited to half a dozen, none of whom was seriously hurt.

The hurricane came from the northeast and veered before it stopped to the southwest. It began before daybreak and woke the city with its wild So great was the velocity of the fury. wind that the government measuring apparatus proved inadequate. When it had registered a velocity of sixty-two miles an hour the cups, which form a part of the apparatus, were carried away

Sailors and old residents who are accustomed to measure the force of the winter gales which sometimes sweep the coast, declare that the velocity was not less than seventy miles an hour when it was blowing the hardest, and not during the three hours that the storm raged did the velocity fall below sixty miles.

Not one of the big beach front hotels escaped the fury of the storm. When the storm first broke a portion of the cornice of the Hotel Dunlor was torn off and fell to the Boardwalk, breaking nearly every glass on the sea ward side of the hotel in its fall. The big plate glass in the exchange of the hotel was also demolished completely, letting the torrents of rain sweep ough the front po ortion of the house. ruining carpets, pictures and furniture valued at \$5000. The Hotel Windsor, which narrowly of last year, was badly damaged by the falling of several chimneys which crashed through the roof to sleeping rooms below. Fortunately, all who have been in that portion of the house had gone to lower stories and no one was injured. Considerable damage was done by rain, which soaked the furniture.

he Government, was one of the most brilliant members of the Liberal Unionist party.

OUTLAWRY IN CUBA.

Fighting Among the Insurgents in the Vicinity at a large profit to the publishers, of of Santiago.

Santiago, Cuba (Special) .-- The provincial officers have received corroborative reports of the fighting which has occurred among the Cuban insurgents in this vicinity, which continued until the arrival on the scene of Colonel Guerra, commander of the Rural

Guards, who is now on his way back to Santiago. It is not known positively whether the insurgents who were killed or wounded sustained their wounds while fighting among themselves or when engaged with the Rural Guards. General Lara and Colonel Guerra ar-

rived here and reported direct to President Palma. The President afterwards informed

feeling in Morocco against foreigners, and it is rumored that all foreigners are our correspondent that none of the insurgents was shot in the skirmishes with the Rural Guards and that they were all wounded in the fighting among themselves.

The wounded and other prisoners were brought to El Cristo and are held for trial.

President Palma reiterated his statement during the day that outlawry will be rigidly suppressed.

A large force of Rural Guards is pursuing the insurgents who are still at large.

The Santiago Nationalists, who are said to comprise 80 per cent. of the voters of the city, made a demonstration, including a grand parade, in hon-or of President Palma.

The insurgent leader Castillo was brought to the Santiago Hospital. He will say little regarding the insurrection, but claims that it was justifiable because of the non-payment of the revolutionary army.

Employee Arrested.

New York (Special) .- Alfred Hausbeck, an employee at the general appraisers' stores, was arrested here, charged with the theft of imported jewels, which were being held for appraisal for duty. William Bray and George H. Plant, New York jewelers, who were arrested while offering the stolen goods for sale, declared that they had purchased them from Hausbeck, and he was arrested. Hausbeck had been employed at the ap praisers' stores for seventeen years. The stolen goods included pearls and opals, and were valued at \$2800.

Chamberlain Leaves Cabinet.

London (By Cable) .- The official announcement of the resignations of Mr. Chamberlain and two other members of the Cabinet was made at Downing street in the following communication: "The following ministers have tendered their resignations, which have been accepted by the King: Right Hon. Joseph Chamberlain, secretary of the colonies; Right Hon. C. T. Ritchie, Bell Telen George Hamilton, secretary for India. crease \$750.000. that filled the entire room, though in a faint manner.
