M. C. Gephart's Exhibit.

The exhibit of pianos by M. C. Gephart, of Bellefonte, attracted many people to what is familiarly known as the Philadelphia house on the exhibition grounds of the Patrons of Husbandry, because of the almost continuous performance on the piano by one of Mr. Gephart's attendants.

Mr. Gephart has a well established reputation in Pennsylvania as a dealer in musical instruments. This has been gained largely by him because of his handling only first-class instruments. A dealer may be ever so honest, and yet not have the most desirable goods for sale, simply because of his lack of knowledge of the business in which he is engaged.

About forty members of Rebekah lodge of the Independent Order of Odd Fellows, surprised Mrs. W. H. Runkle, of the Motter House, Friday evening and tendered her a party, says the York Gazette. Mrs. Runkle had just returned from a six weeks' visit through Centre county and to make her return home a welcome one, the Rebekahs visited her in a body. The evening was pleasantly enjoyed. The supper was a good one and was served in the dining hall of the hotel.

Mr. and Mrs. Runkle expect to attend the I. O. O. F. Grand Lodge at Baltimore, this week.

Decency Overrides Fashion.

President Lucy Baker, of the National Dressmakers' Association, said before its convention at Chicago that high heels, peek-a-boo waists and peroxide hair were no longer to be the fashion. She declared that high heels ruined the feet and figure, and that the persons who wear them are disgusted. Close-fitting waists with sloping shoulders and straight fronts "are to do away with the lounge pouch fronts which set off the kangaroo walk and square Gibson shoulders of the military girl."

For an instant Dr. Lee was frightened as it looked as though the team and wagon would run him down.

Gable & Co's booth was the most inviting booth on the camp grounds. The representatives of this great Altoona department store exhibited great skill and taste in arranging their goods. They had a continuous flood of customers Wednesday, Thursday and Friday, and they are well satisfied with the business they did, which was larger than last year. It may be said further, and truthfully, that not only were the Gables satisfied, but their customers as well.

Talking Township High School.

The citizens of Haines township are discussing the Township High School question, and a short time ago held a public meeting to hear the sentiment of the people concerned. The township had a millage for school purposes last year of .00275, which netted the township \$1852.32. The district received an appropriation of \$1624.00, or almost half the actual cost of its public school system. The establishment of a township high school of the third class would add \$400 to Haines township's appropriation. With this addition, the proposed township high school could be maintained with scarcely a perceptible increase of taxation.

A township possessing the wealth the one in question does can ill afford not to take advantage of the establishment of advanced schools under the state law. There are many other districts that are not so favorably situated that are permitting a great opportunity to pass by in not inviting higher education at the state's expense.

Why Pay High Prices

Fall and Winter Goods

When you can get the same articles, or better, at

for less money? We make a profit. We are not in the business for our health, but we do not believe in taking both the penny and the cake.

We are not cutting prices merely to be "cutters," but we sell for CASH OR PRODUCE ONLY, so can afford to sell goods for less profit than our competitors who do a CREDIT business.

Our Prices

have been, and will continue to be, the talk of both town and country. When a customer can buy \$1.25 worth of goods for ONE DOLLAR, that is the place he will patronize. He finds profits in his own business small, and is therefore not able nor willing to pay large profits to other people.

Keller's Business College, Lewisburg, Pa.

Dear Mr. K. H. Keller:—

The students that you have referred to us have been so uniformly successful in passing our examination and in holding their positions which we secured for them, that we would be glad to have you refer to us as many more of your graduates as you possibly can at this time.

Since January 1st, Seven Hundred and Ninety-Seven (797) desirable stenographic and bookkeeping positions have been filled through our Employment Department. The calls received to date are over 50 per cent. greater than they were at this time last month. We are simply overwhelmed with orders for stenographers and wish all students could be made to fully realize the necessity of attending a good school and remaining until they have completed their course. There is a position for every one who will thoroughly prepare themselves for the stenographic profession.

Awaiting your reply we remain, Very respectfully yours,

THE SMITH PREIMER TYPEWRITER CO., B., Manager Employment Department.

The above proves at once the great demand for stenographers and bookkeepers also that our students are properly trained. Young people desiring a start in life leading to a bright future should not hesitate to enroll with the Keller Business College, Lewisburg, Pa. Write at once for a handsome catalog.
