NEW HAMPSHIRE GRANGES.

Much Interest In Rural Free Mail

Delivery and Fire Insurance. We glean the following facts from the annual address before the New Hampshire state grange of Governor N. J. Bachelder, late master:

The grange has experienced a prosperous year in New Hampshire, and the present membership of 25,109 shows a net gain over all losses of 962. The 6,000 meetings held have been well attended. For fourteen years the Grange Mutual Fire Insurance company has been maintained. The business has annually increased, and the property upon which policies are now in force amounts to about \$6,000,000. teracting the destructive tendencies All losses and expenses have been which also show themselves when | promptly paid, making a saving of over men seek to advance. This comes out \$100,000 over the cost of insurance upon the same property in stock companies. The establishment of rural free mail delivery is one of the grandest achievements of the Order. In New Hampshire ninety-five routes have been established, exceeded only by 113 in Maine and 134 in Connecticut. New Hampshire stands second in the num-For the Centre County Fair, to be ber of pieces of mail handled on its rural routes during the year, reaching 4,017,612. The life insurance branch of the order is reported as successful, the present number of members being about 600.

The Grange as an Educator. Worthy Master W. F. Hill of the Pennsylvania state grange, referring to the educational work of the grange in his annual address, said it affords the very best opportunity for the farmer to develop into a man of culture and of broad mind. The exchange of ideas, the social intercourse it provides for Peter Smith had a new corn house the farmer and his family, the valuable factors in building a better, stronger Elmer, you must hurry and get your rural citizenship. Who is it that has membership in the grange that is not conscious of its having made him a stronger man, with more love for our beloved country and all her grand and noble institutions? Who is there among Unless appearances are very mislead- the intelligent citizens of our commonmerrily at the bridge south-east of in her development but honors and respects the grange for achievements and possibilities in the education and eleva-

tion of our rural population?

Unbiased Testimony. Mr. E. P. Powell, the well known agricultural writer, has this to say of the grapge in the Tribune Farmer: "I am not a member of a grange, but I believe in them with all my heart. They are Mrs. Adam Grenoble, of Spring and it is of a very wholesome sort. The doing an immense amount of work, social influence is as good as the educative. It has the advantage of bringing together husbands and wives, as far as I have watched it, has been invariably for sound legislation, for honest elections, for progressive farm neighborhoods."

The Future of Agriculture.

As I view the future of agriculture in America the organization of farmers is a necessity for their success. Study, investigation, the taking, reading, writing for the agricultural press become a matter of necessity and duty which we cannot ignore or escape if the American farmer hopes to hold his of their parents, Mr. and Mrs. J.
