new indictments involve General Jas. N. Tyner, at one time Postmaster General and until recently Assistant Attorney General for the Post Office Department ; Harrison J. Barrett, assistant to General Tyner ; James T. Metcalf, superintendent of the money order system ; Norman Metcalf, son of James T. ; Harry C. Hallenbeck, president and general manager of the Wynkoop, Hallenbeck & Crawford Company, of New York, which for several years supplied the Department with money order blanks, and William D. Doremus, who is connected with a house which has been supplying a stamp canceling machine to the De-

partment. There were additional indictments against August W. Machen, former Superintendent of Free Delivery ; Geo. W. Beavers, former Chief of the Salary and Allowance division ; W. Scott Towers, who was in charge of a substation of the Washington city post office, and State Senator George A. Green, of New York.

The new charge against Machen is that of accepting a bribe in connection with the delivery of badges worn by rural free delivery carriers, which were made by Charles J. Heller, of Philadelphia.

In the indictments General Tyner and his son-in-law, Barrett, are charged with conspiracy, and two additional indictments charge Barrett with agreeing, while still in office, to receive fees for services rendered or to be rendered in cases pending before him as an officer. All the indictments are founded upon their treatment of the business of

so-called bond investment companies. It was the duty of the Assistant At-

torney General and Assistant Secretary for the Post Office Department to investigate concerns charged with improper use of the mails. It is charged that in about eighty cases they found bond investment companies doing business involving fraud, but that, instead of recommending the issue of a fraud order, they conspired to give them unobstructed use of the mails in order that Barrett might profit thereby.

1000 Coal Miners Strike,

Orders have gone out from United Mine Workers of America, District 2, headquarters in Clearfield, that all men at work in the mines of the Lehigh Coal Company at Penfield, Coal Glen and Snowshoe, in all 1000 men, shall quit work and remain idle until the company agrees to pay the district price-66 cents per ton.

The company, in defense of its action, says that its contracts were made at such prices that it cannot pay the district price-66 cents. It offers 59 cents.

already leads those in the same class in neatness and general good appearance, but there is much room for improvement. Centre Hall is already neat and clean, but with a village improvement society it would become the neatest, the cleanest borough in

Central Pennsylvania. It would not necessarily devolve on money for the improvement of the road side, lawns, etc., but the expenditure of a little cash, the creating and dispersing of a good, healthy sentiment, would do much toward beautifying every nook and corner that is

today neglected. There is a general disposition on the part of the citizens to have their

properties and surroundings look neat and tidy, and by effecting an organization with functions such as are credited to a village improvement society, a work could and would be done in Centre Hall that would have a de-

cided effect for the better. The time is ripe for organization.
