AIRSHIP FELL INTO BAY THE LATEST NEWS IN SHORT ORDER.

Dr. Gerth, However, Had Sailed Above Frisco Two Hours.

ENGINE OF ONLY SIX-HORSE POWER.

Sails Over San Francisco Raising and Lowering Himself at Will and Changing His Course With Ease-All Dr. Greth's Small Savings Spent in the Construction of His Machine.

San Francisco, Cal. (Special) .- Dr. August Greth, a poor inventor, working alone and practically without funds, has achieved the most pronounced success in airship building yet been recorded in the United States.

Without any advertising of the event, Dr. Greth surprised the people by sailing over San Francisco, raising and lowering himself at will, changing his course with ease and altogether demonstrating that he had his aerial courser under complete control.

more remarkable for the reason that cost \$40,000,000. his apparatus was of the crudest kind, the airship being equipped with a cheap by an explosion at a natural gas well gasoline engine able to generate only near Worthington, Pa., one probably six horsepower.

Dr. Greth had previously tested his airship by making ascensions with the R. Reeves, who was trying to break balloon held captive by a long rope, into his home at Woodhaven, L. I. but Sunday was the first time that he had gone skyward free. The ascension fatally wounded in Chicago by Richwas made from a lot almost in the ard Breen, a former suitor. heart of the city and Dr. Greth attempted to encircle a towering newspaper building about a mile eastward, but found the high currents too strong for his power and then turned in an opposite direction. The winds carried burg, Pa., adjourned, after electing of-him oceanward, and for a time he hov- ficers and deciding to meet next year ered in the vicinity of the Golden Gate. making various successful trials of his steerin- gear. The currents landing on the parade grounds of the Presidio military reservation, but made the mistake of letting out too much gas and landed in the bay, about 200 on the charge of embezzlement. feet from shore. The crew of the lifesaving station rescued the aeronaut and the flying machine, which was little damaged by the unfortunate termination of the voyage

with a lifting capacity of 1800 to 2000 wound pounds. The car is similar in construction to Santo-Dumont's and weighs about Soo pounds.

The engine is a 12-horsepower gasoline motor, and the total weight carplicable reason the motor would not develop more than six horsepower, and Dr. Greth found considerable difficulty in making headway against the cur-

He expects to make another ascension in a few days, when he will have repaired the minor damage caused by the salt-water bath and remedied the defects brought out by his two-hour cruise in cloudland.

Army Officers Investigate Situation in

Venezuela. Washington, D. C. (Special) .- In the opinion of officers of the army and of

the State Department, the situation in Venezuela is again becoming critical. Contentions of the United States Except | Important information of a political That in Relation to the Portland Cana', and military nature was brought to the Which Canada Wins-This Concession Was War Department by Capt. C. B. Humphrey, of the Twenty-second Infantry, and Lieut. E. Van D. Murphy, of the Twenty-seventh Infantry, who tions to make a careful and conservative examination of the military status of

The principal mission of these offifeeling of the Castro government against the United States of Colombia and the possibilities of war between Venezuela and Colombia. Captain Humphrey and Lieutenant Murphy spent part of their time in Caracas and became very well acquainted with President Castro. They were regularly accredited to the Venezuela Government

by the State Department as the military attaches of the United States. On their way back to the United States the offi-War Department, to consult with Lieut-Col. William Black, Corps of Engineers, United States Army, who is still on the Isthmus investigating the work being done on the canal by the Panama Canal Company.

It is not the intention of either the War or the State Department to make any announcement regarding the mission of Captain Humphrey and Lieutenant Murphy, but it is believed that their report has thrown considerable light on the present situation in Venezuela and on the Isthmus of Panama. It is known that President Castro is not keeping his pledges with the European powers and setting aside each month 30 per cent. of the customs dues of Puerto Cabello and La Guayra and that the official papers of Caracas have been making it as disagreeable as posible for the foreign commissioners adudicating the claims against Venezuela n accordance with the protocols negotiated by United States Minister Herbert W. Bowen and the diplomatic representatives of the foreign powers.

Just what the result of this policy of President Castro will be it is impossible to state, but the General Staff of the army intends that in the event of any violation of the Monroe doctrine the army of the United States shall be in readiness to cope with the emergency. Extensive preparations are now be-ing made by the General Staff of the army for the gathering of information of military value from the countries of end in view officers of the General Staff a few days.

CRAZED MAN'S TERRIBLE CRIME.

Drives His Wife Out of the House and Then Kills His Three Children.

Asheville, N. C. (Special) ..- One of the most terrible crimes ever committed in North Carolina occurred when Dr. Buncombe county, living at Barrardsville, 20 miles north of Asheville, killed with a claw hammer his three children, aged two, four and six years. It is said Jay had been drinking heavily for nearly two weeks, and at night forced his wife to leave home. Mrs. Jay returned in the morning, and was preparing breakfast when her husband attacked her again and ran her out of the house She started for a neighbor's to get help, and left her children crying on the porch. While the mother was gone Jay killed all three of the children with a hammer. Mrs. Jay soon returned with assistance, but arrived too late to save the children, whose lifeless bodies were found lying on the porch. After committing the deed Jay went into the house and attempted to set it on fire, but the men who returned with Mrs. Jay rushed in and overpowered him and extinguished the flames. Jay was then bound hand and foot and Sheriff Reed notified.

IT PUZZLES THE DOCTORS.

No Such Case in the Books as Calvin Snyder Presents.

Clyde, N. Y. (Special) .- The strange case of Calvin Snyder is attracting the attention of the medical fraternity throughout the country. Snyder is 72. His body is covered with 50 or more bonelike protuberances, varying from one-half inch to five inches in diameter.

The like of these knobs has never been seen on a human body. They are as hard as stone and the color of the skin. The first appeared four years ago on the right side. Then others came. was only recently that Snyder revealed his condition to his wife. She, in alarm, called in a doctor.

The physician was unable to give diagnosis. Other doctors were called. and all agreed that the disease is not recorded in medical books. At a ses sion of the Wayne County Medical As sociation Snyder was examined. Hi case was declared unprecedented. Doc tors predicted his death would occur soon, but he still lives and suffers.

Wireless Telegraphy Station Opened.

Port Townsend, Wash. (Special). The plant of the Pacific Wireless Telegraph Company was thrown open to the public here. The apparatus worked satisfactorily on the initial message, which advised President Roosevelt of the completion of connections at Fort Casey, on Whidby Island, with the land lines of the big telegraph companies. Following this, a large number of congratulatory messages were passed between For Casey and this city.
