Spring Mills.

A party of young people taking advantage of the fine sleighing, attended services at Tusseyville last Sunday evening.

W. S. Musser was accompanied by his wife on Monday afternoon when he returned to Lykens. Mr. Musser had sale of some of his personal property last Saturday and is making arrangements to move to Lykens in the spring.

C. A. Krape and wife and W. O Gramley and wile spent Sunday in Madisonburg visiting the sick.

Mr. and Mrs. Archey Allison and daughter Catherine, of Bellefonte, spent a few days at the home of Hon. Wm. M. Allison.

Last Wednesday forenoon an infant son of Mr. and Mrs. John Brown was buried in the Farmers Mills cemetery.

The Iceland weather we have been enjoying (?) the past week has moderated considerably, and in consequence sleighing and sledding are having full sway. That venerable patriarch, the oldest inhabitant in this community thinks he never . xperienced such frigid zone weather like we had on Tuesday of last week. When the mercury falls to twenty-eight and thirty degrees below the cipher. We are certainly having zero weather with a vengeance.

Commercial travelers stopping off here report business on the road unusually good, as generally immediately after the holidays, business drags heavily, but this year seems to be an exception.

The fire part of last week the creamery here received an order for twentysix dressed hogs to be forwarded at home on Fhursday. once. Hands being scarce the employof the creamery were called into requisition, even the President of the company was forced to relinquish his easy chair in the office and display his skill in butchering, of course he would rather have been excused, but the shipment could not be delayed, so there was no other alternative, and to use common expression he "pirched in." The bogs were forwarded in time. Folks are already talking about moving in the spring. The fact is we are short of dwellings, and some families will be mightily puzzled where to move, unless like Aladdin's pslace, a dozen or more buildings spring up by magic. Why is not the long hill above the residence of J. W. Evans in Georges Valley, put in better repair? Why is it left to lop sided that it is difficult to drive without upsetting? The supervisor could level the road easily and with very little labor. At present the road is worse than usual, the snow making one side so much higher that it is simply dangerous to travel. The letter carrier on this route should enter a complaint, this would compel the supervisor to properly discharge his duties. From bursted water pipes and frozen pumps Magnus Duck, plumber and roofer, is kept very busy. His shop work is he obliged to postpone until night.

Nittany Mountain, Mrs. A. G. Noll, who was unfortu-

pate enough to fall and break her wrist on Christmas morning, is getting along all right, the bone is healing nicely. O. M. Lonberger and Wash Smith

are busy hauling lime on the Lonberger farm.

Samuel Gingerich is hauling chemical wood to Gregg's siding for Charley Bilger.

Perry Krise and wife visited at the home of Wm. Parker on Sunday and took Miss Bertha Parker home with them to spend the winter and attend school.

Wm. Brooks and son are busy haul ing posts to the top of the mountain, but four trips a day is too much for a eam Billy.

George Glace sold fine home ; have not learned the name of the purchaser but do know that the people of this community will be sorry to have Mr. Glace move away.

J. B. S. row and wife visited at the home of Samuel Bruss one day last veek.

George Dubbs, who is running a stave mill at what is called the sand spring, for McNitt Brothers & Compacold weather.

A. W. Garver, who has been working near Pittsburg for a year, is ex-

pected home this month. Oscar Gaines and wife, of Keating, Clinton county, visited his sister, Miss Effie Gaines, who keeps house for George Glace.

Miss Ann Smith, of Johnstown, is visiting her mother, Mrs. Hannah Smith, and brother Robert.

Harris Township.

Services appropriate for the opening

of the New Year were held in the different churches.

A revival is being conducted in the Evangelical church. The ladies of the Lutheran Mission-

ary Society met at the home of Mrs. D. C. Thomas on Thursday.

A meeting was held on Tuesday evening in the school house at Boalsburg to make arrangements for a reading room.

The members of the fire company were entertained by Mr. and Mrs. life, and it is proper that the grange Boal at their home near Boalsburg on should be a conspicuous feature of ru-Friday evening.

J. Fortney and wife, Mrs. Miller, Mrs. Hess, Mrs. Charles Segner and her children spent Sunday at Pine Grove Mills.

A sledding party from Oak Hall and Boalsburg were guests at the Felty

Mrs. Irvin, Mrs. Gilliland and

ORGANIZING A GRANGE.

Look Well to the Charter Membership Roll.

Hon. Aaron Jones, master of the national grange, speaks wisely when he says:

Care should be used in getting good charter members. They are the founda-tion on which the future usefulness of the grange will rest. With good charter members the grange will grow in num bers, in usefulness and influence and be of great benefit to the Order at large and of great advantage to its own members. Un-less you can organize a grange of the best men and women in the location where the grange is to be organized do not organize a grange at all.

Every grange deputy should commit to memory the last sentence above quoted. This rule carefully observed would save trouble later on. Lay well your foundations in establishing a grange. Your best citizens are none too good. Organize well or not at all Objectionable men and women can be kept out after the organization is formed, but it is often a difficult matter to prevent their joining as charter memny, is running full time despite the bers. Use tact at this point. The deputy's responsibility just here is great, but he should meet it unflinchingly.

EMPIRE STATE PATRONS.

The Grange a Growing Power In New York.

The yearly session of the New York state grange in Syracuse made a very pleasant and impressive revelation of the growth of the Patrons of Husbaudry in the Empire State. The reports generally showed the Order to be a growing power in the state. It is not easy to understand why farmers in all the states do not realize the value of the grange as the promoter and protector of the interests of farmers, but it is reassuring to note that intelligent farmers are coming into the Order in greater numbers than ever before. The community that has a live grange is always a community in which intelligence predominates, in which refined society rules, in which education is valued, in which scientific agriculture is the rule and in which the rural folk are seen at their best. New York leads most of the states in advanced country

ral life in the state. Members of the Order everywhere will be pleased to note the growth of the grange in New York .- New York Farmer.

New Jersey State Grange.

The New Jersey state grange was reported at its last annual session to be in a flourishing condition. Total assets were \$33,444.28. G. F. W. Gaunt of Gloucester was re-elected master for the ensuing year. Granges are doing a considerable business in co-operative buying, the banner grange reporting a business of \$33,000. These resolutions were adopted: Favoring the appoint ment of a committee for the purchase of fertilizing material for all the granges of the state, with a formula for the different crops and instructions for mixing the same; asking the legislature to make it a misdemeanor to kill calves for food under fourteen days old: to allow trolley lines to carry freight; asking for a law which will class all game on one's premises as domestic animals and subject to the same laws.

Aaronsburg. Curt. Carner and Miss Regina Huble, of Hublersburg, were guests of Mrs. Charles on Sunday returning to their home on Monday. Miss Mary Stahl has returned after

naving spent a few months with riends at Milton. Wm. Guisewite entertained a sled

load of young people, from Millheim, one evening last week. Mr. and Mrs. Richard Brooks, of

Centre Hall, and Miss Lida Brooks, of Pleasant Gap, were the guests of Thos. Hulla few days, returning home on Sunday.

Prof. E. Stover hired Warren Bower to take his scholars to Rebersburg, Friday afternoon, in a two-horse sled. The pupils were delighted with the trip.

Harry Wyle is visiting his parents at Mifflinburg this week. Mrs. Emma Edmunds Keister, who

has been confined to her bed for the past few months, is not improving. The week of prayer was observed by the Reformed congregation. Rev. Lauffer conducted the meetings in a very interesting manner.

Mrs. Mary Burd is spending a few weeks with friends near Woodward. Teachers' local institute will meet at this place 15th and 16th of this month.

Possibilities of the Grange.

Mrs. Sarah G. Baird, worthy master of the Minnesota state grange, says: The possibilities of grange work when conducted in conservative channels are limitless for the development of the rural sections of our state, but impatient, ill advised action will wreck it. With great earnestness we ask you to appreciate the value of this organization as a permanent educational force in our state and to consider with care the risk that would be taken in any action promoting any personal scheme or to gratify any vindictive disposition. for so long as there is need of raising men and women to a higher moral Mrs. Ida Bair, who was confined to plane, so long as there is need of nobler bed for three months, is able to be up and purer social life, so long as there is need of better economic and political conditions, so long will there be need of the grange.

Farm Bookkeeping.

No business man can get along successfully without striking a balance S. E. Sharer and wife and the for- now and then to see where he stands. mer's sister Bertha, spent several days Bookkeeping is a necessary element in commercial success. It is just as necessary for the farmer to examine his assets and liabilities from time to time to ascertain if he is making a profit or a loss as it is for any other business man. Farmers have not been doing business ou business principles and only one result could follow.

The Subordinate Grange.

The subordinate grange is a link in the great chain now stretching from ocean to ocean, binding hundreds of thousands of the men and women of the farm in a fraternal body and by sacred obligation to put forth every effort to raise the standard of intelligence among the tillers of the soil and secure a just distribution of the burdens of society, as well as of the fruits of our labor .-- O. Gardner.

Co-operation in New Jersey.
