The success of other people is purely a matter of luck.

OLD ENGLISH HOMES.

The Hall Was the Principal Apart-

ment In the Middle Ages. Amid all the luxury of a modern home it is hard to realize how our Anglo-Saxon ancestors lived in what now would seem a condition of utter discomfort. Comfort was, however, gradually evolved, and the present article deals with the time when a refined condition of domestic life was first beginning to assert itself.

In this connection it must be remem-England there was a general revolu- ister of England when he was twentytion in society. A new class had late- four. ly sprung into existence. Feudalism had been destroyed and the middle and

With their social betterment came an improvement both in house construction and interior arrangement. Narrow sadly out of keeping with our modern Ideas of sanitary requirements, while the houses were chiefly of the "half timber" kind, some of which had the to contact with all the great men of lower story of stone and those above, each projecting over the one below, consisted of a timber framework filled in with bricks. It was a picturesque fashion, but it did not provide sun-

shine and air. The rooms were usually small and Calvin Horner's sale was well at- dark. The hall was the principal pub- formed on the politics of the day and growing taste for domestic privacy. The general arrangement of this very important part of the house is made

Cross, near Winchester. As the hall was the usual scene of to have been almost without a flaw. domestic festivities it was considered necessary to have a gallery for musicians. Sometimes this gallery occupied two sides, though usually it was placed at one end, opposite the dais. In large halls the fireplace was of his youth, took a high place among still in the middle, where there was constructed a low platform of stone of of learning. a kind that may be seen in an old cut representing the fireplace in the great hall at Penshurst, Kent. Large iron dogs, or andirons, supported the logs. In some parts of England they were called "cob irons." A group of ornamental fire irons of the sixteenth century is most interesting. Often an implement placed beneath the firedog was

used for moving logs. The walls of the hall were usually furnished with tapestry, and in the middle was a table with a bench on each side. There were also a cupboard. or "hutch," with side tables, one or two chairs and perhaps a "settle." Chairs were still comparatively rare. Buffet stools were generally provided, and these commonly had a hole through the middle for lifting them .- Home Beauti-

His Reputation.

Upgardson-On the strength of your recommendation I lent Bilcombe \$5 the other day, and now I find he's a con firmed deadbeat that never pays his debts. You told me he was a man of established reputation.

Atom-So he is. That's the reputation he has established.

Maintaining the Proportion. Mrs. Nagston-Why, my dear, the last time I heard you tell that story it was

only \$12 instead of \$25 that you lost. Mr. Nagston-Well, this crowd I'm telling it to is twice as big as that one

A REAL BOY WONDER

THE PHENOMENAL EARLY CAREER OF WILLIAM PITT.

Although Siekly and Delicate, This English Lad Was Intellectually One of the Most Remarkable Youths the

World Has Ever Known. One of the most remarkable boys the world ever saw was William Pitt. He astonished folk with his learning at the bered that during the middle ages in age of seven. He became prime min-

He was a sickly boy, but he took all the out of door exercise his delicate lower elements of the population were frame could bear and was as eager to study as most boys are to play. He would not let his weak body stop his work, and he was reading ancient history at an age when most children are streets were still the order of the day, reading stories written in words of one syllable.

His father was the great Earl of Chatham, and the boy was brought inthe time in England. When he was thirteen years old he wrote a tragedy which he called "Laurentine, King of Clarinium."

At this age, too, he was able to read Greek and Latin almost as well as he could English. He also was well inon a variety of subjects about which know anything.

At fourteen he was able to take the works of Thucydides, written in Greek, apparent to us in such pictures as that and read page after page, turning it of the "Hundred Men's Hall" at St. into excellent English as he read, and this off hand translation of his is said

His father spoke of him as "eager Mr. William, the counselor, the philospher." At the age of fourteen he entered the great University of Camorldge in England and at once, in spite he students at that celebrated place

When he went to Cambridge, the boy vas in such feeble health that he had be necompanied by a nurse, and all brough his course there he was in so oor a condition, physically, that it was oubted if he ever would be able to nish the course.

But hard study seemed to agree with im, and when he was graduated, at he age of seventeen, he was much tronger than when he entered the uni-

ersity. At an age when most boys are preparing to enter college, or, if they are ery clever, have just become freshnen, young Pitt won the degree of naster of arts from one of the greatst universities in the world and began

he study of law. At twenty-one he was admitted to he bar, and the same year was elected member of parliament, to become orime minister three years later.

While he was yet a law student and only eighteen years old he attracted n of prominent men by his ear views on the questions of government, which then were perplexing the rulers of England. The boy was invited everywhere, and men holding the nost important offices listened to his

dvice and asked his opinions. His friends wanted bim to go into parliament when he was twenty and il predicted for him a brilliant career. t was curious to see this delicate striping, a boy in looks and years, meeting he great and wise men of the country is an equal and conversing on even erms with the most learned scholars

Young Pitt used to like to listen to he debutes in the British parliament, nd Alr. Fox. the great statesman. needing him once after a debate, was stonished at the manner in which the ex criticised the eminent men who ad spoken and pointed out where they ould have made their argument

One of the hardest works to understood that ever were written is a book alled "Cassandra," written by a man named Lycophronis. It is written in Mr. and Mrs. Aaron Lutz visited the Greek. A learned man placed the book a the bands of young Pitt when the or was sixteen years old, and he read it at first sight, translating into English as he read and explaining it in a manner which made the learned man declare that had he not seen it be "would have believed it to be beyond

he power of human intellect." When Pitt was sixteen, his father declared that he would be a great statesran and was the hope of the country. Other folks soon became of his father's way of thinking, and that is why they put blm into parliament when he was so young and made him prime minister so soon after.

He fulfilled all that was expected of him and ruled England during thirteen John Stover, of Hou serville, visited of the most eventful years of her his-
