Ayer's
Hair Vigor
cannot keep from growing. And gradually all the dark, rich color of early life comes back to gray hair.

Why is it that Ayer's Hair Vigor does so many remarkable things? Because it is a hair food. It feeds the hair, puts new life into it. The hair cannot keep from growing. And gradually all the dark, rich color of early life comes back to gray hair.

When I first used Ayer's Hair Vigor my hair was about all gray. But now it is a deep rich black, and as thick as I could want it.—Miss Susan Alder, Ferrisburgh, Vermont, U.S.A.

THE SHARPLESS TUBULAR CREAM SEPARATOR is a short, out-saving half the dairy work. It is a low-down machine. There is no drooping in washing the stimpie three piece dairy tubular separator bowl. Avoid bucket bowls. They're all full of troublesome parts. Twenty-six sizes—take the one that will accommodate your herd. Considering the durability of the machine, the price is the lowest of any separator on the market. For further particulars write or apply in person to

LEALFA will grow anywhere if the conditions are made right, and give from 40 to 50 dollars worth of Protein to the acre. Absence of the proper soil bacteria is the most common difficulty and is easily overcome by using 300 to 400 lbs. of Impregated soil to the acre, at or after seeding. I can furnish soil from a fifteen year old field that gave over 4 tons of hay to the acre last year, and whose bacteria is very abundant. Send for prices.
