Mr. Foster represents the element in time at the Exposition. the Republican party that, when it won, either in its own party circle or at the general election, did so on a Houtz. cash basis, and while that kind of polities has counted in the past, Mr. Foster and his followers in November will find themselves exhausted and chased to Harbin, there awaiting supplies from McKean county, to come two years later-when a new congressman is to be elected.

It is a query among both Republicaus and Democrats whether or not His Honor, Judge John G. Love, had a hand in the closing of the Potters Mills postoffice. Milton is the defendant in a ten thousand dollar damage suit instigated by Thomas D. Strahan, who has been incapacitated for work since falling on the side walk in 1901. The cost of this suit, no matter how it terminates, will be much more than the cost and effort of enforcing the side walk ordinance. This experience ought to be a warning in every borough where side walks are poorly constructed.

That the Republicans have been driven to desperation is plainly seen by reading the "resolutions of respect" passed by the Republican county committee. It is just a question whether his credentials when St. Peter is approached.
