REASONS FOR NEW TRIAL.

Attorney Furst Gives Twenty-three Reasons Why Dillen and Green Should Have Second Trial.

Attorney A. O. Furst, in behalf of his clients William Dillen and Ira Green, Monday filed twenty-three reasons why a new trial should be granted. The substance of the reasons is as follows:

That the verdict was in violation of the evidence and the law of the land; that no intent to take life was shown but simply an intent to escape from jail; that the court erred in not instructing the jury clearly on this subject, and of previous good character of defendants; that when summoning up to the jury, he rushed upon the prisoners and with his fist drawn in a passionate and vindictive manner, calling them cowards and repeating the words with vehemence and anger; that the court erred in refusing the application for a continuance because of the very great excitement in the community at the time and the prejudice against the prisoners; that several of the jurors empaneled and sworn were biased and prejudiced against the prisoners; that they had formed and expressed an opinion of their guilt prior to the trial and upon their voir dire they denied any bias or prejudice against the prisoners; that one of the jurors, a few minutes before he was called in the court house, expressed an emphatic opinion that the necks of the prisoners should be stretched; that the same juror was violent in the jury room; that another juror said the defendants should be hung and that hanging was too good for them—they should be burned at the stake like the niggers in the south; that the coroner had no authority, in law, to call talesmen, and that he was not sworn in such performance; that he called persons not in the Court house and names that were suggested to him by others; that the verdict was not the free and voluntary conclusion and agreement of the entire jury; that one or more of the jurors did coerce fellow jurors to agree upon a verdict of guilty of the first degree; that one of the jurors who favored second degree took very ill in the jury room and could not remain there longer, fearing for his health; that the defendants did not have a fair and impartial trial; that their case was pre-judged.
