On Jordan's stormy banks I stand; "Is my name written there;" "God be with you till we meet again;" "Lead me Saviour lest I stray," and "Leaning on the everlasting arm," were used which would call to the minds of the aged fathers and mothers the days when they were young and went from house to house to attend the Wednesday evening prayer meeting with the then aged people, who have passed to the other shore. When the roll was called the following responded.

The "Aqua-Phone" in Use. The borough authorities are testing the pipe lines to discover a supposed leak. A large quantity of water flows into the reservoir, and yet the large basin is drained dangerously low. A number of leaks were discovered on side lines during the summer, and now the mains will be closely examined. The testing is being done by the aid of an "aqua-phone," an instrument very similar to the receiver of a telephone, which is attached to an ordinary steel rod previously inserted in the earth to the depth of the pipe line. When the point of the rod penetrates water, it may easily be detected by placing the ear to the instrument.
