SADIE ROBINSON Pretty Girl Suffered From Nervourness and Pelvic Catarrh-Found Quick Relief in a Few Days.

Miss Sadie Robinson, 4 Rand street, Mal-

Anss Sadie Roomson, a Rand Street, and den. Mass., writes: "Peruna was recommended to me about a year ago as an excellent remedy for the troubles peculiar to our sex, and as I found that all that was said of this medicine was trought and the second second second second second second that all that was said of this medicine was true, I am pleased to endorse it.

"I began to use it about seven months ago for weakness and nervousness, caused from overwork and sleeplessness, and found that in a few days I began to grow strong, my appetite increased and I began to sleep better, consequently my nerv-ousness passed away and the weak-ness in the pelvic organs soon dis-appeared and I have been well and strong ever since."

# STRIPES WORN BY CONVICTS.

#### Their Use Based on the Authority of the Scriptures.

"Did you ever stop to think about the origin of stripes we use in our prisons?" said a man with an eye for the curious. "If you have not, it will not take you long to figure the thing out if you happen to know anything about the Bible. The fact is that we get the ideas from the old dispensation. When I say 'we,' I mean the people of our civilization, of our own day and time, and who live under and are guided by our systems and notions. For instance, in the laws and ordinances of Deuteronomy we find the following, which will give us a clew to the origin of stripes as a badge of infamy: 'If there be a controversy between men, and they come unto judgment, that the judges may judge them, then they shall justify the righteous and condemn the wicked. And it shall be, if the wicked man be worthy to be beaten, that the judge shall cause him to lie down and be beaten before his face, according to his fault, by a certain number. Forty stripes he may give him, and not exceed, lest if he should exceed and heat him above these with many stripes, then thy brother should seem vile unto thee. Now, instead of inflicting these physical stripes, we put striped clothes on the men who offend the law, or who may 'come unto judgment, that the judges may judge them,' as it is put in the text. Of course you should gc much further back in history if you cared to trace the origin of marks of infamy, but you would find that physical mutilation of some sort in a majority of instances afforded the means."

# Five Hours in a Well.

"Freddie" McDonald, two and a hall years old, spent five hours in a well at Marlboro, Mass., the other day while several hundred persons scoured the wood on the outskirts of the city and dragged ponds for his body No one had seen him since 10 o'clock in the morning. His parents and the neighbors became alarmed as hour after hour sped by and the miss ing youngster could not be found.

It was near 3 o'clock in the afternoon when Edward Murphy determin ed to examine the well on the Connors estate. He procured a long pole and dropped it into the well. What was his surprise when he heard the cries of the boy. Hastily withdraw ing the pole he made his way slowly down. When about twenty-two feet from the surface he came upon the youngster sitting upon a board which stretched across the well and kept him from falling into the eight feet of water which was beneath. "Fred" appeared none the worse for his five hours' sojourn in the

### He's Seventy-and Hoping.

A Wichita (Kas.) man who has been mining for five years in the wilds of Arizona tells some interesting stories about his partner, who for thirty-five years has been alternating between hope and despair as he searched for gold in the Arizona mountains. The old fellow is more than 70 years old. He thinks that one day he will strike it rich, and then he proposes to have a big time. And here is his idea of a big time. "Jack," he said, "when I strike that million I am going to marry a 16-year-old girl and buy a yacht. Then I am going to take all you duf-

# THE KEYSTONE STATE Latest News of Pennsylvania Told in

# Short Order.

Burgess C. H. Pennypacker, in an interview relative to West Chester's health conditions, said: "By reason of these continued reports of typhoid fever cases here, West Chester has reason to look after its sanitary arrangements, but the town is not so bad in a health point of view as is pictured. Some of these reports are entirely sensational and are calculated to do West Chester considerable harnf. I do not know what the Board of Health is doing, but I see no necessity for their employing a half dozen or so sanitary experts. The health authorities should be competent to investigate our health matters for themselves; that is what the board is constituted for, and they should at-tend to their duties. There is much room for sanitary improvements.'

The course of lectures to educate Pennsylvania Railroad employees in the care of the injured in emergency cases was begun in Altoona by Dr. H. W. Pownell, chief medical examiner for the relief department. Dr. Pownell talked to the heads of departments in the shops on the first aid to the injured, demonstrating the use of the stretcher and the first aid packages. Engineers, conductors, firemen, flagmen and brakemen between Pittsburg and Philadelphia will all be obliged to attend the lecture course at an early date The company is equipping all baggage and cabin cars with stretchers and first aid packages.

Pittsburg is to have a hospital for consumptives. William McConway has offered to give his Herron Hill residence for a term of years free for the establishment of a hospital of this character. The physicians of the city have taken no formal action in reference to establishing an institution of the character, but it is said that all are in favor of it and stand ready to devote their time and energy toward it in any way possible.

Superintendent Addison L. Jones, of the West Chester public schools, has been noticed that the schools are entitled to two gold medals for the exhibit of school work at the St. Louis Exposition. One medal is for the high school and the other for the elementary grade. Twenty medals were awarded to the schools of Pennsylva-

Mrs. Grover Levis, of Doe Run Chester county, died recently from typhoid fever. Her daughter and sonin-law, Mr. and Mrs. Edgar Hoopes are now at the Chester County Hospital suffering from the same discase. The sickness of the trio led to an investigation of the premises, and it was found that the well from which the family obtained drinking water contained several dead rabbits besides considerable fungus growth.

George F. Witmer, aged 44 years, Lancaster, died at the General Hospital from injuries resulting from a kick sustained in the pit of the abdomen, and a warrant has been isfued for the arrest of Jacob Herr or the charge of murder. Conflicting stories as to how the injuries were inficted are afloat, but the resident phytician at the hospital says that sevtral hours before he died Witmer admitted that he had a fight with Herr over some work and that the latter had kicked him and then run away.

# Superstition of Author.

Winston Churchill, novelist, has a superstition regarding the letter C. The titles of all his stories have begun with that letter-Celebrity, Crisis, Caravel, Crossing-and all have been successes. He believes that if he should write a novel with a title beginning with a D or a K or a W the book would be a flat failure.

### Reporter Not Posted.

Col. Lovell H. Jerome of the col lector's office, who boards all the in coming steamers, told the other day of an unpublished incident attending the recent arrival of the Archbishor of Canterbury. A very young reporter on a very yellow newspaper was among those assigned to meet the primate, and he sat up all night to do it. Somehow, however, he missed the Archbishop at the dock.

Nothing daunted, he rushed to a telephone and called up Archbishop Farley, whom he had once interviewed, and asked him what time he could meet his distinguished colleague from England at the archiepiscopal palace. It is said that Archbishop Farley's secretary, who is a very diplomatic ecclesiastic, explained to him

Mrs. Haskell, Worthy Vice Templar, Independent Order Good Templars, of Silver Lake, Mass., tells of her cure by the use of Lydia E. Pinkham's Vegetable Compound.

DEAR MRS. PINEHAM: Four years ago I was nearly dead with inflammation and ulceration. I endured daily untold agony, and life was a burden to me. I had used medicines and washes internally and externally until I made up my mind that there was no relief for me. Calling at the home of a friend, I noticed a bottle of Lydia E. Pinkham's Vegetable Compound, My friend endorsed it highly and I decided to give it a trial to see if it would help me. It took patience and perseverence for I was in bad condition, and I used Lydia E. Pinkham's Vegetable Compound for nearly five months before I was cured, but what a change, from despair to happiness, from misery to the delightful exhilarating feeling health always brings. I would not change back for a thousand dollars, and your Vegetable Compound is a grand medicine

"I wish every sick woman would try it and be convinced." -- MRS. IDA HASKELL, Silver Lake, Mass. Worthy Vice Templar, Independent Order of Good Templars.

When a medicine has been successful in more than a million cases, is it justice to yourself to say, without trying it, "I do not believe it would help me"?

Surely you cannot wish to remain weak, and sick and discouraged, exhausted with each day's work. You have some derangement of the feminine organism, and Lydia E. Pinkham's Vegetable Compound will help you just as surely as it has others.

# Mrs. Tillie Hart, of Larimore, N. D., says:

" DEAR MRS. PINEHAM: I might have been spared many months of suffering and pain if I had known of the efficacy of Lydia E. Pinkham's Vegetable Compound a few months sooner, for I tried many remedies without find-ing anything which helped me before I tried the Vegetable Compound. I dreaded the approach of the menstrual period every month, as it meant much suffering and pain. Some months the flow was very scanty and others it was pro-fuse, but after I had used the Compound for two months I became regular and natural, and so I continued until I felt perfectly well, and the parts were strengthened to perform the work without assistance and pain. I am like a differ-ent woman now, where before I did not care to live, and I am pleased to testify as to the good your Vegetable Compound has done for me. Sincerely yours, MRS. TILLIE HART, Larimore.N.D. Be it, therefore, believed by all women who are ill that Lydia E. Pinkham's Vegetable Compound is the medicine they should take. It has stood the test of time, and it has hundreds of thousands of cures to its credit. Women should consider it unwise to use any other medicine. Mrs. Pinkham, whose address is Lynn, Mass, will answer cheerfully and without cost all letters addressed to her by sick women. Perhaps she has last the knowledge that will help your case - try her to-day - it costs nothing

"I have soffered with piles for thirty-six years. One year ago last April I began taking Cascarets for constipation. In the course of a week I noticed the piles began to disappear and at the end of six weeks they did sot torbie me at all. Cascarets have done wonders for me. I am entirely cured and feel like a new man." George Kryder, Napoleon, O.

# Nest Made of Steel.

A curious gift has been made to the Natural History Museum of Soletta. This gift consists of a bird's nest constructed entirely of steel. There are a great many watchmakers at Soletta and in the vicinity of the workshops there are always the remains of the old springs of watches which have been cast aside. Last summer a watchmaker discovered this curious bird's nest, which had been built in a tree in his courtyard by a pair of water-wagtails. It measures ten centimetres in circumference, and is made solely of watch springs.

# SAFEST FOOD

In Any Time of Trouble is Grape-Nuts. Food to rebuild the strength and that is pre digested must be selected when one is convalescent. At this time there

is nothing so valuable as Grape-Nuts for the reason that this food is all nourishment and is also all digestible nourishment. A woman who used it says:

"Some time ago I was very ill with typhoid fever, so ill everyone thought I would die, even myself. It left me so weak I could not properly digest food of any kind and I also had much bowel trouble which left me a weak, belpless wreck.

"I needed nourishment as badly as anyone could, but none of the tonics heiped me until I finally tried Grape-Nuts food morning and evening. This not only supplied food that I thought delicious as could be but it also made me perfectly well and strong again so I can do all my housework, sleep well, can eat anything without any trace of bowel trouble and for that reason alone Grape-Nuts food is worth its weight in gold." Name given by Postum Co., Battle Creek, Mich.

Typhoid fever like some other diseases attacks the bowels and frequently sets up bleeding and makes them for months incapable of digesting the starches and therefore pre digested Grape-Nuts is invaluable for the well known reason that in Grape-Nuts all the starches have been transformed into grape sugar. This means that the first stage of digestion has been mechanically accomplished in Grape-Nuts food at the factories and therefore anyone, no matter how weak the stomach, can handle it and grow strong, for all the nourishment is still there.

There's a sound reason and 10 days trial proves.

Mary Toiny, aged 3 years, died at he Pottsville Hospital from lockjaw. fue to stepping on a tack.

Council awarded \$8000 thirty-year s per cent, bonds to Dick & Robinson, of Philadelphia, whose bid was 101.05 1-3.

Rubber Plant in Colorado.

they are."

F. E. Marsh, an invalid, went in search of health to a ranch near Buena Vista, Colo., where he found the cowboys chewing the roots of a wea they called rabbit bush. After belz, thoroughly masticated the root left r gummy substance. Mr. Marsh was curious about this and sent samples. of the weed to a botanist, who quic! ly pronounced the rabbit bush to brubber plant and the gummy ms India rubber.

Forty delegates have been sent as many different places throughout the New England States to solicit air for the 26,000 striking cotton m? operatives of Fall River, Mass.

Boy Had Nerve.

Master Henry Hall, the little son of Matthew Hall, who lives near here took heroic measures to prevent disaster from the bite of a big rattle snake which had crawled into his bed and bit him on the finger just after he had retired. The fangs of the reptile were sunk into the boy's index finger of the right hand.

As soon as he realized what had happened the lad jumped from the bed and, grabbing a chop axe, cut the finger off just above the bite. He lost some blood from the crude operation, but has suffered no injury as a result of the snake bite. It is supposed the snake came in through the door in the afternoon while the family were busy in the fields. It crawled under tho top cover of the bed, and was not seen when the family went to retire. Young Hall tumbled into bed in much the same way as all youngsters do, and threw his hand over on the snake, making it mad and causing it to strike at once. The fangs were buried in the flesh of the finger .- Anniston Correspondence of Nashville Banner.

### Ears of Lobsters.

Most curious are the ears of lobsters. Each is a sac or bag, containing fluid and "ear stones," these last being particles of mineral matter, or, in some cases, particles of sand. They increase the vibrations set up by sound waves, which in due season impinge on the delicate cells of the ear, which contain the ends of the nerve of hearing. These last, in turn, convey the impressions to what serves the lobster by way of a brain, and a very

respectable nervous mass it is.
