

COMPLETELY RESTORED.

Mrs. P. Brunzel, wife of P. Brunzel, stock dealer, residence 3111 Grand avenue, Everett, Wash., says: "For fifteen years I suffered with terrible pain in my back. I did not know what it was to enjoy a night's rest and arose in the morning feeling tired and unrefreshed. My suffering sometimes was simply indescribable. When I finished the first box of Doan's Kidney Pills I felt like a different woman. I continued until I had taken five boxes. Doan's Kidney Pills act very effectively, very promptly, relieve the aching pains and all other annoying difficulties."

Wayside Inn for Geese. Years before the war Daniel Scott, the owner of "Scotlands" plantation, in Albemarle county, Virginia, began the custom of feeding flocks of wild geese each spring and summer on their semi-annual migrations. The custom has continued to this day, being kept up by the descendants of Mr. Scott.

He had a special garment which he donned when feeding the hungry birds, and in this they invariably recognized him. The children, grandchildren and great-grandchildren of the first geese had been well instructed in regard to this "wayside inn," for they always carry there to get provisions. United States Senator Thomas S. Martin is the present owner of Scotlands.

Mail Clerks' Good Work. A mail pouch was brought to the Meriden, Conn., postoffice that had been run over and badly mutilated by the wheels of a railroad train. Some of the mail matter was almost destroyed, but by much work and perseverance the bits were put together and practically all of the letters delivered to the persons to whom they were addressed.

Spectacles of Long Ago. An interesting collection of spectacles is that possessed by Mrs. Wesley Williams of Bowdoinham, Me. More than 100 years old, these curios were the one-time property of the women of Ithaca, who were forced by destitute circumstances to seek refuge in the almshouse. Many are of odd pattern, with side lights and extension bows. Another valuable souvenir owned by Mrs. Wesley Williams is the sword of her great uncle, Col. Samuel Coomba, a famous officer of the revolutionary war.

In Bohemia. New Yorker—"Oh, yes, I'm a thorough Bohemian! My artistic nature requires atmosphere. There is so much in that, you know." Cousin-from-out-of-town—"Yes, I suppose so. I never was in but one Bohemian place, and I thought there was a good deal in that atmosphere—it was principally tobacco smoke!"—Detroit Free Press.

A Chronic Case. "Oh, he's never satisfied with a job. He's kicking about the one he's got now." "Why, I understood it was a cinch. He told me he had absolutely nothing to do." "Yes, but he's kicking because he has to do it."—Philadelphia Press.

Bees Used Boiler for Hive. The mechanics, while at work on an unused engine and boiler at the cranberry bog of F. H. Burgess at Sandwich, Mass., lately, found that a swarm of bees had taken possession of the boiler and packed nearly every tube solid full of honeycomb.

THE KEYSTONE STATE Latest News of Pennsylvania Told in Short Order.

An application will be made by Forestry Commissioner R. S. Conklin, to the Legislature, for an appropriation of \$50,000 for the Consumptive Sanitarium, at Mont Alto, Franklin county, to erect additional buildings, so that seventy-five consumptives may be cared for at one time. The \$8000 appropriation made by the last Legislature enabled the Forestry Commission to erect the present buildings, which accommodate thirty patients. Of the eighty patients treated, sixty-six per cent. were cured or recovered sufficiently to leave the camp. The consumptive camp was established on the State Forestry Reservation by Dr. J. T. Rothrock, the former forestry commissioner. An increase of \$40,000 will be asked in the appropriation for the State Forestry School, to permit an increase in the number of scholars from twenty to forty.

Clinton Rogers Woodruff, of Philadelphia, had a conference with Governor Pennypacker on the subject of personal registration, urging the Chief Executive to recommend it in his biennial message to the Legislature and to act favorably upon it if it should pass the Legislature. Mr. Woodruff says that the advocates of personal registration will support a bill to be introduced by Representative Sheetz, of Philadelphia, which will apply only to cities.

Because the Schuylkill Traction Company increased fares, Town Council has instructed its solicitor to have the company vacate the streets on the ground that it violated its franchise. Powell Evans, of Philadelphia, is president of the road.

George Turner, of Quakertown, a fireman on a freight train running between Bridgeport and New York, fell from his engine at Rydal Station, on the New York Branch, and his mutilated body was found an hour and a half later after two trains had run over it. Turner was standing between the engine and the tender, and leaned out while passing Rydal, when the picket fence caught his clothes, causing him to lose his hold. The engineer did not miss him until the train reached Somerton.

Word was received in Lancaster of the arrest at Portsmouth, Va., of a man giving his name as Charles W. Miller, who is believed to be Christian Hartstein, of Lancaster, who is wanted for the murder of William Wagner on May 1. Wagner was killed as the outcome of a fight at a May-day picnic along the Conestoga. Hartstein secured a shotgun with which he blew off the top of Wagner's head. Hartstein disappeared going South.

The Lackawanna, Wyoming Valley & Western Railroad Company made a proposition to the State Department to build twenty miles of double track from Wilkes-Barre to West Pittston by way of Nanticoke. The proposed line will be a continuation of the road of the third-rail electric system from Carbon dale to Wilkes-Barre, by way of Scranton. The road will be built on private right of way. The company will eventually extend its line to Washington, D. C., by way of Sunbury and Harrisburg, in which cities large powerhouses will be built. The proposed road would be about 230 miles long. The charter application was filed by S. B. Ketchum, of Philadelphia, secretary and treasurer of the Transit Finance Committee, and Senator B. K. Focht, of Lewisburg, one of the promoters of the railroad.

Dr. Charles E. Woodward, secretary of the Board of Health, says no definite action has yet been taken by the board in the matter of the disposal of the sewage of West Chester, though several propositions are under consideration and will be submitted to Borough Council. Numerous sanitary engineers and agents of various firms have been consulted relative to the sewage question, the bids for the preparation of suitable plans and the making of a preliminary survey varying from \$500 to \$2500. The cost of digging the necessary trenches and laying the pipes, with the building of a proper purification plant, is estimated at \$100,000 to \$200,000.

Governor Pennypacker issued a death warrant for the hanging of Walter Obey, Charles Jackson and Charles Miles in Pittsburgh on February 2, 1905.

Justice of the Peace Bond caused the arrest of Edward Allen, of Woodmont, whose son, Luther, is now in jail at Norristown, accused of aiding in the escape of Frank Saylor, the negro who killed the Hendersons, near Bethayres. The elder Allen was also accused of aiding Saylor. Allen came to Norristown unaccompanied, and after Chief of Police W. H. Rosenbaugh, and District Attorney A. H. Hendrix, had put him through the "sweating" process the two were convinced that there was not sufficient evidence to hold him, and he was permitted to go. Allen told the authorities that Saylor, who was a friend of his, came to his home on the Saturday after the murder, while his wife and two other women were alone. His wife was alarmed, and drove to Hatboro, where Allen was working, to tell him. He went home, lit a lantern, and found Saylor sitting on a wood pile in his cellar, with a revolver in his hand. Allen told Saylor he would have to leave the house. Saylor departed, saying he was going to Huntingdon Valley. When asked why he did not play the part of a good citizen and effect Saylor's arrest, Allen said he was afraid to have the capture of Saylor take place in his house for fear that he might be connected with the crime. He said he has since realized that he made a mistake.

The Brethren in Christ of Lancaster have a fire insurance company of their own that is not chartered, but is regularly organized like any other company dealing in mutual insurance. Henry B. Musser, of Florida, is the treasurer. The company has about \$200,000 worth of property insured. The method is to insure property for three-fourths of its actual value. The Equity Manufacturing Company of Chicago, a concern operated by about 200 members of the Church of the Brethren (Dunkers), has bought a property at Lancaster.

COMMERCIAL REVIEW.

R. G. Dun & Company's "Weekly Review of Trade" says: "Holiday goods are moving freely, and in staple lines there is more activity, even the products that are between seasons finding a fair market. Packing and shipping departments are increasing forces, and traffic congestion at several points indicates that the growth of business has overtaken railway facilities. Earnings of all roads excepting for November show an average gain of 7.1 per cent. over last year.

"Weather conditions have forced jobbing and retail distribution of heavy wearing apparel, and also accelerated the marketing of new corn, but there is not sufficient moisture for winter wheat or coke production. A record-breaking yield of cotton is bringing the price nearer the point at which normal consumption may be resumed, although there is still much idle machinery at Fall River.

"Other manufacturing news is most gratifying, especially regarding the leading lines. Structural work increases and car shops are crowded with orders, while many idle steel mills have resumed.

"Relations between supply and demand in the iron and steel industry must be largely in favor of the producer when quotations advance steadily without checking distribution.

"Commercial failures this week in the United States are 245, against 205 last week, 217 the preceding week, and 331 the corresponding week last year. Failures in Canada number 29, against 39 last week, 27 the preceding week and 23 the corresponding week last year.

Bradstreet's says: "Wheat, including flour, exports for the week aggregate 2,101,773 bushels, against 1,312,306 last week, 4,201,504 this week last year, 5,704,440 in 1902 and 4,604,846 in 1901. Corn exports for the week aggregate 364,841 bushels, against 29,692 last week, 1,008,951 a year ago, 1,151,563 in 1902, and 362,844 in 1901."

WORLD OF LABOR.

Waterloo County (Canada) farmers are to build a telephone system. There are over half a million teamsters and draymen in the United States. A section of the Mexican press is combating the immigration of Chinese to that country. Mineowners in Wales have appealed to the miners to concede a reduction of 5 per cent. in wages. The Ontario Government has decided to abolish the manufacture of brooms at the Central Prison, Toronto. All members of the famous Boston Symphony Orchestra have quit the Musicians' Union. The orchestra thus becomes definitely and absolutely a non-union organization.

THE OLD FOLKS AT HOME Are Never Without Pe-ru-na in the Home for Catarrhal Diseases.

Under date of January 10, 1897, Dr. Hartman received the following letter: "My wife has been a sufferer from a complication of diseases for the past twenty-five years. Her case has baffled the skill of some of the most noted physicians. One of her worst troubles was chronic constipation of several years' standing. She was also passing through that most critical period in the life of a woman—change of life. "In June, 1895, I wrote to you about her case. You advised a course of Peruna and Manalin, which we at once commenced, and have to say it completely cured her. "About the same time I wrote you about my own case of catarrh, which had been of twenty-five years' standing. At times I was almost past going. I commenced to use Peruna according to your instructions and continued its use for about a year, and it has completely cured me. Your remedies do all that you claim for them, and even more."—John O. Atkinson. In a letter dated January 1, 1900, Mr. Atkinson says, after five years' experience with Peruna: "I will ever continue to speak a good word for Peruna. I am still cured of catarrh."—John O. Atkinson, Independence, Mo., Box 272.

Angles in Water Pipes. It is calculated that one right angle bend in a pipe through which water flows will make necessary 9 per cent more pressure for a given flow than it required for a straight pipe of like size and structure. With three sharp bends at right angles, the pressure needed is 13 per cent more than that which is used in a straight pipe.

Mrs. Anderson, a prominent society woman of Jacksonville, Fla., daughter of Recorder of Deeds, West, who witnessed her signature to the following letter, praises Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—There are but few wives and mothers who have not at times endured agonies and such pain as only women know. I wish such women knew the value of Lydia E. Pinkham's Vegetable Compound. It is a remarkable medicine, different in action from any I ever knew and thoroughly reliable. "I have seen cases where women doctored for years without permanent benefit, who were cured in less than three months after taking your Vegetable Compound, while others who were chronic and incurable came out cured, happy, and in perfect health after a thorough treatment with this medicine. I have never used it myself without gaining great benefit. A few doses restores my strength and appetite, and tones up the entire system. Your medicine has been tried and found true, hence I fully endorse it."—Mrs. R. A. ANDERSON, 225 Washington St., Jacksonville, Fla.

Mrs. Reed, 2425 E. Cumberland St., Philadelphia, Pa., says: "DEAR MRS. PINKHAM:—I feel it my duty to write and tell you the good I have received from Lydia E. Pinkham's Vegetable Compound.

"I have been a great sufferer with female trouble, trying different doctors and medicines with no benefit. Two years ago I went under an operation, and it left me in a very weak condition. I had stomach trouble, backache, headache, palpitation of the heart, and was very nervous; in fact, I ached all over. I find yours is the only medicine that reaches such troubles, and would cheerfully recommend Lydia E. Pinkham's Vegetable Compound to all suffering women."

When women are troubled with irregular or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, flatulence, general debility, indigestion, and nervous prostration, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

The experience and testimony of some of the most noted women of America go to prove, beyond a question, that Lydia E. Pinkham's Vegetable Compound will correct all such trouble at once by removing the cause and restoring the organs to a healthy and normal condition. If in doubt, write Mrs. Pinkham at Lynn, Mass., as thousands do. Her advice is free and helpful.

No other medicine for women in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles. Refuse to buy any substitute.
