Knives for the One-Armed. "What is that thing over there?" asked a man on a high stool at a lunch counter.

The thing he was pointing at was shaped like a sickle, had a handle, and at the very tip of the blade was a pronged fork.

"That?" said the waiter. "Why, that's a one-armed knife. Ever see one before?" And he passed it over the counter for inspection. "Nearly all restaurants keep them in their stock of cutlery nowadays. "You see, the one-armed man can't

cut his meat with the same motion that you or I use. He must bear down on his steak or chop, and to make the work easier for him some wise chap invented this sickle shaped knife with a fork attached. "If you'll notice, it is made on the

principle of the half circular cutter harnessmakers use. To be sure, we have to keep them sharp or their usefulness would be gone."-New York

#### THE AFTER-DINNER ORATOR.

English Innovation. Has Many Good Points to Recommend It.

A London club, the Bartholomew. gave its annual banquet the other day. The postprandial orators were conspicuous by their silence. Not a speech was made. When the banquet had reached the oratorical stage little books were distributed among the guests and in these booklets were printed the speeches of the gentlemen who had accepted invitations to respond to toasts. London Truth says this banquet was an epoch-making affair. It was ceriainly a unique one and not unworthy of imitation on this side of the Atlantic. The Bartholomew club of London has established a precedent which ought not to be ignored in the United States because of its English origin. The banquet is entitled to some consideration and should be protected when the afterdinner orator, like the brook, is inclined to "go on forever." gress a speaker is "given permission to print," and really never delivers his speech. The plan might work well at banquets.

Recalls Days of Intolerance. According to old deeds, the whole tract of land adjacent to the town hall at Watertown, Conn., is saddled with a condition that "no Episcopalians or other sectarians" shall be allowed to build a residence upon it for themselves.

#### THE TRICKS Coffee Plays on Some.

It hardly pays to laugh before you are certain of facts, for it is sometimes humiliating to think of afterwards. When I was a young girl I was a

lover of coffee, but was sick so much the doctor told me to quit and I did, but after my marriage my husband begged me to drink it again as he did not think it was the coffee caused the troubles. 'So I commenced it again and con-

tinued about 6 months until my stomach commenced acting bad and choking as if I had swallowed something the size of an egg. One doctor said it was neuralgia and indigestion.

"One day I took a drive with my husband three miles in the country and 1 drank a cup of coffee for dinner. 1 thought sure I would die before I got back to town to a doctor. I was drawn double in the buggy and when my husband hitched the horse to get me out into the doctor's office, misery came up in my throat and seemed to shut my breath off entirely, then left all in a flash and went to my heart. The doetor pronounced it nervous heart trouble and when I got home I was so weak I could not sit up.

"My husband brought my supper to my bedside with a nice cup of hot coffee, but I said: 'Take that back, dear, I will never drink another cup of coffee if you gave me everything you are worth, for it is just killing me.' He and the others laughed at me and said:

" 'The idea of coffee killing anybody.' "'Well,' I said, 'it is nothing else but coffee that is doing it.'

"In the grocery one day my husband was persuaded to buy a box of Postum which he brought home and I made it for dinner and we both thought how good it was but said nothing to the hired men and they thought they had drank coffee until we saughed and told them. Well, we kept on with Postum and it was not long before the color came back to my cheeks and I got stout and felt as good as I ever did in my life. I have no more stomach trouble and I know I owe it all to Postum in place of coffee.

"My husband has gained good health on Postum, as well as baby and I, and we all think nothing is too good to say about it." Name given by Postum Co., Battle Creek, Mich.

## THE KEYSIONE STATE

Latest News of Pennsylvania Told in Short Order.

At the meeting of the House Approoriations Committee Chairman Plummer presented the three bills introduced by nim calling for appropriations aggregating \$2,400,000. The bill appropriating \$2,000,000 for the maintenance of the indigent insane, Chairman Plummer explained, was an increase over that of two years ago of \$150,000, for the reason that every year there is a deficiency which must be made up by the next legslature. At the instance of the State Board of Charities he had placed the sum at a figure that covers any defi-The two bills appropriating \$200,000 for a consumptive hospital at Mont Ako and \$200,000 for a similar institution at a place to be selected in the western part of the State were explained by Chairman Plummer as an earnest intention of the State to grapple with tuberculosis and try to either stamp it out or check its ravages. He said it was time the State took hold of this great question and made war on the disease direct instead of leaving it to private institutions, and under the bills he had prepared the two hospitals would be directly under the management of the Commissioner of Forestry, although forestry reservation did not enter into the matter at all.

At the annual meeting of the school directors of Delaware county, in the courthouse at Media, it was unanimously agreed to ask Governor Pennypacker to reappoint State Superintendent of Public Instruction Schaeffer. Interesting addresses were made by Prof. Jas. M. Coughlin, of Wilkes-Barre, upon the subject of "Co-operation of Educational Forces," and Prof. George A. Hoadley, of Swarthmore College, who spoke on Training for Citizenship." These officers were elected: President, N. P. West, of Swarthmore; vice-presidents, Isaac P. Garrett, of Lansdowne, and Dr. J. G. Thomas, of Newtown; secretary, J. Milton Lutz, of Upper Darby; treasurer, Willard T. Galbraith, of Upper Chichester.

The citizens of Upper Providence Township are stirred over the sudden disappearance of Robert Walls, white, coachman for Ivan Fox, the wealthy Philadelphian, who has a country seat in the township just over the Media bor-ough line. Walls has not been seen or heard from since February 20, when he left home to go to Philadelphia, with the promise to his young wife that he would return on an early afternoon train. He had about \$70 when he left. Mr. Fox has interested himself in the matter, and all efforts will be made to locate Walls. During the winter Mr. and Mrs. Walls have been living at the home of Mr. Fox, caring for the property. Their cozy home is across the road from the

One of her victims was Isaac Wentfall, a peddler, who says he was robbed of \$250 in jewelry. Wentfall was on his way to one of the mining villages when the girl came out of a clearing about twenty varde in his rear Wentfall was ordere o stop, but paid no attention, when bullet pierced his hat. Thoroughly frightened, he became an easy victim and surrendered all his belongings, consisting of brooches, rings, lockets, etc. John Vallovitch, a workingman, was also persuaded a half hour later by a pistol which the girl pointed at his head to hand over a silver watch. The girl who is about 20 years of age, held up two men a week ago and compelled them to hand over their change, amounting to about \$7.

#### COMMERCIAL REVIEW.

R. G. Dun & Co.'s "Weekly Review of Trade" says:

Better weather has greatly improved trade in many sections of the country. Spring merchandise being distributed freely by jobbers, while retail business and mercantile collections are more normal. Interior buyers are placing liberal orders in the large cities, and preparation for structural work are being hurried. Manufacturing lines have made splendid progress since the opening of the year, especially the various divisions of the steel industry, and textile mills are well engaged. Shoe shops have am ple Spring business, but orders for Fall delivery are delayed by the recent advance in prices that was necessitated by higher cost of production-particularly as to the raw material.

In almost every branch of business there is confidence in active trade with the apearance of settled weather. Winter wheat is in good condition, but cotton planting will average much later than last year. Prices of commodities are still

Progress is most pronounced in the iron and steel industry. A very liberal tonnage of pig iron has been purchased, indicating that confidence is increasing and the business is well distributed, while quotations are firmly held, but not advanced as yet.

An amusing trait of the Chinese character is pointed out in the last report of the British consul at Foochow, says the London Daily Mail. A British company started a match

would be well, however, if they bore in mind that the Chinaman not only counts the number of matches in a bex, but also takes into consideration the number of those that break in striking or fail to ignite, these being the complaints brought against the matches hitherto turned out by the company."

Then comes Bromus Inermis, than which there is no better grass or better permanent hay producer on earth. Grows wherever soil is found. Then the farmer talks about Salzer's Teosinte, which produces 100 stocks from one kernel of seed, 11 ft. high, in 100 days, rich in nutrition and greedily eaten by cattle, hogs, etc., and is good for 80 tons of green food per acre.

Victoria Rape, the luxuriant food for hogs and sheep, which can be grown at 25c a ton, and Speltz at 20c a bu, both great food for sheep, hogs and cattle, also come in for their share in the discussion.
