

FIRE NEAR REBERSBURG.

Farm House of Wallace Walker Totally Destroyed—Insurance in Annapolis Co.
The farm house of Wallace Walker, one and one-half miles west of Rebersburg, was totally destroyed by fire Monday noon. The fire was first discovered by neighbors, but not until the flames had reached such a headway that all effort to extinguish the elements was deemed useless. The family was seated at the dinner table when the news was broken to them that their home was burning over their heads, the fire having either originated on the attic or roof. The members of the household had heard snapping and cracking sounds, but attributed them to the wind that was blowing a heavy gale at the time.
A bit of clothing was saved from the second story. Much of the furniture on the first floor was removed to a place of safety. The house was a log structure, weatherboarded, and in fairly good condition. The summer house and wood shed were also burned. There was an insurance of \$800 on the house.
Mr. and Mrs. Walker have been singularly unfortunate. They began housekeeping about a year ago, and last summer the barn on this same farm was struck by lightning and burned. The barn was rebuilt, and now, within less than one year, the house is in ruins.
While the roof of the house was burning there was danger that the barn would also be set on fire. The heavy wind from the west afforded ample protection, however. Embers repeatedly were carried to the barn of Lowell Bierly, and it was only by constant watching that the structure was saved from destruction.

From Ohio.

A note from D. Olive Stover, of Berea, Ohio, states that the snowstorms have reached that locality as well as here. The snow fall Saturday night, he says, was heavy.

There is no scarcity of work in this place. The firm I work for has been very busy, and this spring shipped over two thousand rollers. I work in the paint room and am also assistant shipping clerk, and have not lost a day since I began work, last July. Living is very high, but wages are accordingly as good. A new railroad is being built through Berea, which will give employment to an additional number of men.

REPUBLICAN COUNTY CONVENTION.

Convention Ignores Penns Valley—Commissioners Bailey and Miller Re-nominated.
The Republicans in Centre county must expect to do business in the next campaign without the support of the Penns Valley Republicans, having refused to nominate the only candidate presented on the South Side of Centre county. Mr. Allison was turned down to please the Bellefonte Trust Company, who, the Reporter is assured, is the main support of Mr. Swartz, of Walker. It is but natural that a moneyed concern should be deeply interested in the candidate for county treasurer, but to turn down half the county for the benefit of a Bellefonte institution is not relished by Republicans on this side Muncy Mountain.
The convention was presided over by ex-Judge John G. Love, and after the preliminary speeches, balloting was commenced for the various nominations. The ticket named is as follows:
Sheriff—Henry Kline, Spring.
Co. Commissioners—J. G. Bailey, Ferguson.
A. V. Miller, Spring.
Recorder—Cyrus E. Hall, Phillipsburg.
Register—Earl C. Tuten, Bellefonte.
Coroner—Dr. S. M. Huff, Milesburg.
Auditors—E. D. Musser, Gregg.
H. E. Pontius, Bellefonte.
Delegates to State Convention—
Harry Keller, Bellefonte.
George M. Esel, Centre Hall.
William Hurley, Phillipsburg.
The ballot for commissioner resulted thus: Bailey, 97; Miller, 72; Zimmerman, 57; Woodring, 46.
Recorder—Hall, 71; Hewett, 64.

Some evil disposed person threw a stone through the Finkle memorial window in the Georges Valley Lutheran church, striking the central figure and greatly damaging the window. The deed was committed some time Saturday night. The perpetrator of the act is unknown.

The State's Cash.

The average monthly balance of cash in the State Treasury for 1904 and for the first quarter of 1905 was over \$10,000,000. During that time there may have been unnecessary redtape delay in paying authorized expenditures, but there could be no possible reason for default. It is a safe prediction that the monthly balances will remain about as they are for the next two years in spite of heavy disbursements for school, charities and jobs. Instead of levying new taxes the rate of State taxation should be reduced. The heavy surplus is a continuing source of partisan debauchery and a temptation to extravagant administration.

2 Inch Snow Sunday Morning.

During Saturday night and Sunday morning fully two inches of snow fell. During the whole of Sunday the air was raw and snow storms repeatedly swept over the valley.

Sunday night snow fell to the depth of about one-half of an inch. During both nights mercury stood at twenty-eight.

Monday and Tuesday the weather conditions were anything but agreeable, snow storms and sunshine alternating. The air was raw and cold. Tuesday night mercury stood at twenty-two, the coldest during the April blizzard.

Wednesday the sun shone brightly, and temperature rose to the demand of a pleasant April day.

Doing Things Well

Just a few plain words—no idle talk, but

a plain business proposition

Are you going to buy a buggy, surrey or vehicle of any kind? If not, pass this. If you are, here is something for you. We own and directly manage our vehicle plant. We sell direct to users and have for 33 years. We add a small profit to the actual cost of material and labor. Our way cuts out travelers' salaries and expenses, the jobber's and the dealer's profits, and gives you for your money what you pay for. Wheels, gear, body, top, etc., in the shape of a good, strong, well made and nicely finished rig. Next. We do not claim to be the only people who can build good vehicles. No. Others could if they would. Certain it is that many don't. Like a vehicle manufacturer once said: "I lay awake at night to see how cheap I can make them, not how good." The desire to make money quick is so strong that they do not hesitate to bring their work; actually down to the danger line. I can put on our rigs the same grade of wheels that is used by many other houses and save \$10,000 this year. Here is your question. What am I going to get for my money? Send for our Catalogue at once. It is the best we have ever issued—it will interest you.

When we started our factory it was not to build an average buggy. We determined to make ideal work and to give the people that bought from us the strongest, most reliable and best finished vehicle for the money ever sold. Candidly, that is just exactly what we are doing. That is what your money will get for you here. This explains why our vehicle trade increased 20 per cent in 1904; why others fell behind 30. We build our work to last. We are looking forward to the triumph of coming years. We mean that a reputation for good vehicles at the lowest prices shall outlive the temptations to cheapness.

WE ARE NOW PRINTING a very elaborate and complete catalogue and would like to send a copy to all persons interested in honestly made guaranteed vehicles, who want the very best at the lowest possible prices. This catalogue tells about our factory, shows how we build our vehicles, describes the materials, shows the difference between an honestly built rig and a fraud, illustrates and prices our full line, and contains much other interesting vehicle information. Let us send you this catalogue for you to look over at your leisure in your home. You will find it very interesting and instructive. Kindly cut out the accompanying coupon, fill in your name and address and send to us. The catalogue will be sent by return mail, postage paid.
