

THE KEYSTONE STATE

Latest News of Pennsylvania Told in Short Order.

The Lombardo brothers, Peter and Santo, who were convicted of killing Luigi Giannone in Easton during a fight and who were granted a new trial, have been set free by order of the Court, as the four principal witnesses have left town.

Andrew Carnegie has offered the Big Spring Presbyterian Church \$750 for its organ fund.

Lyman Wagner, of White Haven, was fined \$100 and costs in court at Mauch Chunk for shooting a deer after the season closed.

The Philadelphia & Reading Coal & Iron Company has started one of the largest coal washeries in Schuylkill County. It will wash the big culm banks at the abandoned Thomaston Colliery, in the Hecksherville Valley. These banks were made during the early years of mining and will yield 80 per cent. of coal.

The first application for State aid for the repair of township roads in Schuylkill County under the provisions of the road act of 1903 has been filed with the County Commissioners by the supervisors of Hegins Township.

At a meeting of Donegal Chapter Daughters of the American Revolution, the candidacy of Mrs. Henry C. Pennypacker, of Phoenixville, for State regent, was unanimously endorsed.

The Pennsylvania Railroad Company has purchased two farms at Denholm, in the Lewistown Narrows. This property will be utilized in the erection of a large cooling station and cinder pits.

A jury awarded Martin J. Cox \$2,500 damages in court at Norristown in his suit against the Schuylkill Valley Traction Company for the loss of his right foot. The foot was cut off by a car without a headlight, which ran over him on the night of July 14 last.

At a joint session of Altoona Councils George W. Knebler, Andrew Kipple, Sr., and James C. Hughes were elected commissioners of the newly created public works department. Thomas C. Hare was chosen City Solicitor, S. M. Griffith Water Commissioner, Harvey Linton city engineer and Frank S. Musser assessor-at-large. Mr. Hughes is the only Democrat on the list.

The Rush Township authorities have decided to replace the screech-owl whistle over the Schuylkill River Water Works, for use as a fire alarm. The whistle was removed last year after several citizens complained that they had been blown into nervous prostration.

At the annual meeting and banquet of the Lehigh Valley Alumni Association of Ursinus College at Bethlehem, it was reported that great success is attending the efforts to endow an additional professorship in the Reformed Theological Seminary in West Philadelphia. The president, Rev. William H. Erb, of Bethlehem, and all the old officers were re-elected.

Burgess C. H. Pennypacker, of West Chester, has submitted to Borough Council a message in which he advocates an ordinance providing for a subway or conduit, in which all electric light, telephone and telegraph wires may be placed. He also advises a revision, compilation and publication of the borough ordinances in book form.

The Merchants' Protective Association of Hazleton wired the Federal Court officials that it is ready to testify against the Beef Trust. The merchants assert that they have frequently been obliged to take whatever meat the trust desired to sell them, regardless of cost.

County Detective Bentley, of Carlisle arrested Harry Foltz, at his home near Boiling Springs, Cumberland County, charged with shooting Jacob Shenk and his son, David, who were wounded by burglars near New Kingston. Foltz is supposed to be the man who was shot by the younger Shenk. He has several bullet wounds in the left arm and breast. Foltz refused to discuss the robbery.

The foreign and negro laborers employed by the Pennsylvania Railroad contractors at Quarryville, who went on a strike and caused riots on Monday, have nearly all left the place, as the contractors refused to advance wages.

Mrs. Harry Resh, of Lancaster, soaked her clothing with kerosene and then applied a match. She was ablaze from head to foot in an instant, but her children roused the neighborhood and the frenzied woman was subdued and the flames extinguished. Though badly burned it is believed she will recover.

Mayor Simon H. Walker, of Altoona, has issued orders that the uniforms of the police must always be carefully brushed, the brass buttons kept bright, the shoes shined and the linen of the officers spliced; the faces of the men must be cleanly shaven and the hair kept trimmed.

A threatened strike of masons, bricklayers and plasterers was averted in Pottsville by a compromise between them and the contractors. The contractors granted an increase of 15 cents a day and conceded a Saturday half-holiday. Under the new scale for a nine-hour day the wages will be as follows: Bricklayers, \$1.75; plasterers and masons, \$1.30.

Condy O'Donnell, Janitor of the Eckley B. Cox Mechanical School, Freeland, fell down a flight of steps in the building. His skull was fractured and he died.

For catching one trout near McAdoo, Walter Dawson was arrested and had to pay \$14.86 fine and costs.

Heavy winds blew over the schoolhouse at Duncott, but no one was in it at the time.

While crossing a log used as a foot bridge over Brandywine Creek, near Emburyville, Miss Florence Oates, of Brandywine Summit, a nurse at the Chester County Almshouse, fell from the log into the stream and was drowned. Her body was recovered some time later about a quarter of a mile below where the accident occurred.

Hazleton capitalists are planning to build an electric railway between that city and Nescopeck. At Nescopeck the road would connect with the Columbia and Montour Electric Railroad.

COMMERCIAL REVIEW.

New York, (Special).—R. G. Dun & Co.'s "Weekly Review of Trade" says: Recent gains in the volumes of business are fully maintained, but further improvement is somewhat retarded by unfavorable weather in some sections. Buyers are still arriving at the leading cities, placing additional Spring orders, and most Fall lines that have been opened are meeting with an encouraging reception. Despite occasional requests for extensions, collections are more prompt on the whole. Manufacturing returns are all that could be desired, building operations expand as the season advances, and agricultural prospects are better than normal.

There is little friction between capital and labor, most new wage scales being arranged on the old basis, and in some cases advances are granted, while the number of unemployed is steadily decreasing. Freight traffic is very heavy, some congestion occurring, and railway earnings in March were 9.2 per cent. larger than last year.

Commercial failures this week in the United States are 232, against 244 last week, 255 the preceding week and 235 the corresponding week last year. Failures in Canada number 28, against 33 last week, 16 the preceding week and 29 last year.

Bradstreet's says: Wheat, including flour, exports for the week ending April 6 are 886,071, against 888,630 last week, 1,854,000 this week last year, 2,833,285 in 1903 and 3,842,012 in 1902.

Corn exports for this week are 3,366,347 bushels, against 2,430,652 last week, 1,028,907 a year ago, 2,654,732 in 1903 and 1,583,565 in 1902.

MUCH IN LITTLE.

The use of automobiles by commercial drummers is increasing rapidly. Liverpool's municipal tramways carried 116,042,663 passengers last year, ran 12,166,419 miles and earned \$2,704,250.

The Lewis and Clark Expedition grounds embrace 406 acres of land and three automobiles when answering alarms.

San Francisco's fire chiefs now use water.

Shasta county, California, offers a bounty for the killing of blue jays, because they destroy quail eggs.

To the native population of India Lord Curzon is sending a message in the form of a gramophone record, with a translation of his words into the provincial dialects.

ALL BROKEN DOWN.

No Sleep—No Appetite—Just a Continual Backache.

Joseph McCauley, of 144 Sholto street, Chicago, Sachem of Tecumseh Lodge, says: "Two years ago my health was completely broken down. My back ached and was so lame that at times I was hardly able to dress myself. I lost my appetite and was unable to sleep. There seemed to be no relief until I took Doan's Kidney Pills. Four boxes of this remedy effected a complete and permanent cure. If suffering humanity knew the value of Doan's Kidney Pills they would use nothing else, as it is the only positive cure I know."

A Nickle's Worth of Jumps.

"A small boy came into my store the other day," remarked the druggist, "and asked for five cents' worth of 'jumps.' Now what do you suppose he wanted?"

When everybody gave it up the druggist told them what the boy had been sent for was hops.—New York Press.

Yield Skin to Save Child.

Sixty-one young men in Kansas City are voluntarily furnishing skin that the life of Clarence Crawford, 3 years old, may be saved. They are members of the freshman class of the University Medical college, and the child is the son of B. H. Crawford, who lives sixty miles from Beaver, in Oklahoma. The child recently fell into a kettle of boiling soap and one arm was badly burned. The boy was brought to Kansas City, where the doctor declared skin-grafting necessary. Already sixteen members of the class have surrendered eighty-six pieces of cuticle, and grafting is now one-third done. Every day a fresh man is placed on the operating table and his body relieved of from two to three pieces of skin.

For Systematic Scientific Research.

Prof. Pearson, the English scientist, has been considering the suggestion of Prof. Simon Newcomb looking to the systematization of scientific research by organizing investigators into what might be termed battalions. Dr. Pearson says that what science needs at present is to get rid of most of its data and investigators with brains enough to interpret what is left. "At least 50 per cent of the observations made and the data collected," says Prof. Pearson, "is worthless, and no man, however able, could deduce any result from them at all. In engineer's language, we need to 'scrap-heap' about 50 per cent of the products of nineteenth century science."

HONEST CONFESION.

A Doctor's Talk on Food.

There are no fairer set of men on earth than the doctors, and when they find they have been in error they are usually apt to make honest and manly confession of the fact.

A case in point is that of an eminent practitioner, one of the good old school, who lives in Texas. His plain, unvarnished tale needs no dressing up:

"I had always had an intense prejudice, which I can now see was unwarrantable and unreasonable, against all much advertised foods. Hence, I never read a line of the many 'ads.' of Grape-Nuts, nor tested the food till last winter.

"While in Corpus Christi for my health, and visiting my youngest son, who has four of the roughest, healthiest little boys I ever saw, I ate my first dish of Grape-Nuts food for supper with my little grandsons. I became exceedingly fond of it and have eaten a package of it every week since, and find it a delicious, refreshing and strengthening food, leaving no ill effects whatever, causing no eructations (with which I was formerly much troubled), no sense of fullness, nausea, nor distress of stomach in any way.

"There is no other food that agrees with me so well, or sits as lightly or pleasantly upon my stomach as this does. I am stronger and more active since I began the use of Grape-Nuts than I have been for ten years, and am no longer troubled with nausea and indigestion." Name given by Postum Co., Battle Creek, Mich.

President's Greeting to Old Friend.

When the Washington's birthday exercises at the Philadelphia Academy of Music had closed President Roosevelt was leaving the stage at the side of Provost Harrison, followed by the other distinguished guests with stately mien and solemn air, each profoundly impressed with the dignity of the occasion. The president suddenly espied Prof. Samuel McCune Lindsay of the university, modestly ensconced behind one of the wings. Breaking away from the astonished provost the president rushed up to the professor with the exclamation: "Hello, old boy. By Jove, I'm glad to see you!" and gave him a handgrasp which made him wince with pain. He then returned to the side of the provost and the procession proceeded.

Settling the War on Crutches.

In an article in the World's Work on the betterment work of the Colorado Fuel and Iron Co. is a funny story of the hatred between the Japanese and the Russians in the company's hospital at Minnequa. The writer says: The Russians and Japanese are as hostile individually in Colorado as in Manchuria. Even on the hospital lawn, convalescent Russian and Japanese patients have hurled crutches and canes at one another; and on the school grounds, children have fought with fists and stones. The management had to make the wards in the hospital small, so that subjects of the Mikado and of the Czar could not glare at one another from beds on opposite sides of the same room, and to arrange the camps so that each race or nationality could live by itself.

Justice to Theater Owners.

Dr. Darlington, commissioner of the New York board of health, makes the interesting suggestion that if the owners of the ten theaters in that city which Chief Croker says ought to be rebuilt were driven to that trifling expense the city would in justice have to reimburse them for the \$15,000 or \$20,000 each which they have spent since that time last year on improvements and alterations ordered by the board of health for the ostensible purpose of making the houses safe. There are no quasi public buildings in New York upon which so much money has been spent as on the theaters.

QUEEN OF ACTRESSES PRAISES PE-RU-NA.

MISS JULIA MARLOWE
Heartily Approves of Peruna for the Nerves.

In a recent letter to The Peruna Medicine Co., Miss Julia Marlowe, of New York City, writes the following:

"I am glad to write my endorsement of the great remedy, Peruna, as a nerve tonic. I do not most heartily."—Julia Marlowe.

Nervousness is very common among women. This condition is due to anemic nerve centres. The nerve centres are the reservoirs of nervous vitality. These centres become bloodless for want of proper nutrition.

This is especially true in the spring season. Every spring a host of invalids

are produced as the direct result of weak nerves.

This can be easily obviated by using Peruna. Peruna strikes at the root of the difficulty by correcting the digestion.

Digestion furnishes nutrition for the nerve centres. Properly digested food furnishes these reservoirs of life with vitality which leads to strong, steady nerves and thus nourishes life.

Peruna is in great favor among women, especially those who have vocations that are trying to the nerves.

Buy a bottle of Peruna to-day. If you do not receive all the benefits from Peruna that you expect, write to Dr. S. B. Hartman, Columbus, Ohio.
