

MISS GENEVIVE MAY. CATARRH OF STOMACH CURED BY PE-RU-NA.

Miss Genevive May, 1317 S. Meridian St., Indianapolis, Ind., Member Second High School Alumni Ass'n, writes: "Peruna is the finest regulator of a disordered stomach I have ever found. It certainly deserves high praise, for it is skillfully prepared."

"I was in a terrible condition from a neglected case of catarrh of the stomach. My food had long ceased to be of any good and only distressed me after eating. I was nauseated, had heartburn and headaches, and felt run down completely. But in two weeks after I took Peruna I was a changed person. A few bottles of the medicine made a great change, and in three months my stomach was cleared of catarrh, and my entire system in a better condition."—Genevive May.

Asking Advice. The sheriff of Santa Cruz county, Ariz., has received the following letter from one of his constituents: "Mr. Charles Fowler—Dear Sir: I thought I would write you a few lines to ask you a few words, and I don't want to do anything until I hear from you. My stepfather is chussing (probably chusing or cussing) my mother all the time, and she don't want him around here any more and she wants him to leave but he won't go. He is just chussing her all the time and once he was going to hit her with a rock but I made him lay it down. She is washing all the time and trying to do right with him and I am going to stop this. I am asking you what I will do and be sure and tell me what I would shut (shoot) him. I think I would be in the right because I don't care for him and if I do kill him I will show you that I was right. Well, I will close for this time. Be sure and write and tell me what to do. So good-by. Yours truly,

"TOM PARKER."—Arizona Republican.

Ever Tried Coffee This Way? It is a well-known fact that even the best of housekeepers cannot make really good coffee without having the proper materials.

They will NEVER make it with coffee of doubtful origin, adulterated, queerly blended, and possibly dirty coffee that has, perhaps, been mixed up with all kinds of other things on the counter. But let them take a package of LION COFFEE—the purest and cleanest—and the brand universally used throughout the United States for over twenty-five years. Millions drink it daily, and get the best results if it is made in the following way: Try it once and you will never want to try any other brand of coffee.

HOW TO MAKE GOOD COFFEE. Use LION COFFEE, because to get best results you must use the best coffee. "Grind you LION COFFEE rather fine. Use a 'tablespoonful to each cup, and one extra for the pot." First mix it with a little cold water, enough to make a thick paste, and add while of an egg (if egg is to be used as a settler), then follow one of the following rules:

1.—With boiling water—Add boiling water, and let it boil three minutes only. Add a little cold water and set aside five minutes to settle. Serve promptly.

2.—With cold water—Add your cold water to the paste and bring it to a boil. Then set aside, add a little cold water, and in five minutes it is ready to serve.

THREE DON'TS. Don't boil too long. Don't let it stand more than ten minutes before serving. Don't use water that has been boiled before.

TWO WAYS TO SETTLE COFFEE. 1.—With eggs—Use part of the white of an egg, mixing with the ground LION COFFEE before boiling.

2.—With cold water instead of eggs. After boiling add a dash of cold water and set aside for eight or ten minutes, then serve through a strainer.

Latest News of Pennsylvania Told in Short Order.

Because he is alleged to have jilted her, Miss Martha B. Boose, of Lancaster, has sued Rev. H. Jerome Leinbach, pastor of Olivet Reformed Church, Reading, to recover \$10,000 damages for alleged breach of promise. Rev. Mr. Leinbach was married on May 4 to Miss M. Mary Swavely, of Pine Iron Works. Miss Boose lives with her parents in Lancaster. She became acquainted with Mr. Leinbach in 1899, while the latter was a student at Franklin and Marshall College, Lancaster, and from that time he paid her addresses of a most marked character, says the plaintiff's bill of complaint. This, she says, in her affidavit, resulted in a solemn engagement of marriage on January 19, 1901. In June, 1901, she says he gave her an engagement ring, which she wore and he continued paying her attentions until April, 1905, and he had agreed that the wedding should take place on January 19, 1906. Miss Boose alleges that in pursuance of the promise she began to prepare for the wedding and purchased her wedding outfit and also kitchen utensils. Rev. Mr. Leinbach became pastor of Olivet Church a year ago, immediately after his ordination. He is 25 years old, and is a native of Oley Township, Berks county. He entered jail and declines to talk about the suit.

Mrs. Ida May Ziegler, of Altoona, sent a comic valentine representing a long-tongued woman to her next-door neighbor, Mrs. Lulu Shellenberger. The court refused to accept the plea of the license of St. Valentine, and directed Mrs. Ziegler to pay \$20 fine and costs.

The vestry of All Saints' Episcopal Church, Norristown, has accepted the gift of another cloister bay for Washington Memorial Chapel, at Valley Forge, to be erected to the honor of the Pennsylvania soldiers of the Revolution. It is the gift of T. Broom Belfield, of Philadelphia, and is given in memory of his parents, his wife and children. The Pennsylvania bay will correspond to the New Jersey bay, dedicated on Monday. It is expected that the new bay will be ready for dedication next year. The new bay will be adorned with richly carved tracing in Indiana limestone set in massive masonry of Holmsburg granite. The ceiling will be of carved oak, adorned with the arms of the State and the Colonial seals will be set in the floor.

Theophila Kemyck, 26 years old, now lies at rest in St. Peter's Churchyard, Brownsville, after three burials. About two weeks ago she leaped into the Monongahela River and was drowned. Her body was buried in a field nearby. Negroes said they heard her calling from the grave and the body was removed. She was proved dead and buried again. Hearing the girl was a Catholic, Father Glynn, of Brownsville, next had the body removed to the church cemetery in that city.

Burgess Pennypacker, West Chester, has fined Jesse Darlington, owner of a creamery, \$25 and costs because he had his creamery connected with the town's sewers in violation of the borough ordinance. Darlington has appealed from the decision of the Burgess and will ask the court to decide the legality of the fine.

The Witch, a special combination engine and car on the Reading Railway, while running at a high speed, bearing officials to their homes in Schuylkill county from Shamokin, collided with a shifting engine in the Locust Summit yards. The car was wrecked and the passengers were thrown into the debris and badly hurt.

Scared by an automobile, a pair of horses attached to a carriage containing Frank Fox, his wife and two children and Andrew Grater, wife and child, of Skippack, dashed down a steep hill. At the bottom the carriage upset and all were severely injured.

Lillie Resh, also known as Mrs. Geo. Weibush, died at St. Joseph's Hospital, Lancaster, from morphine poisoning, the drug being self-administered. One story is that the woman had been drinking beer in a hotel, where she swallowed the drug, but the hotel people deny she was there. Another story is that she swallowed the dose while sitting on the stoop of the hotel.

The directors of the York County Agricultural Society have decided to enlarge the grand stand, build an annex to the poultry house and make other improvements to the exposition grounds.

Bishop Talbot laid the cornerstone of the new \$6000 Trinity Episcopal parish house at Pottsville. Addresses were made by the bishop, Rev. Dr. James F. Powers, Rev. H. W. Diller and Rev. Dr. J. H. Eastman.

Charles Wolfe, of Lewisburg, who about a month ago fired on robbers attempting to gain entrance to the chair factory office, was attacked and sandwiched while attending to his duties as night watchman of the plant. His cries for help brought aid and his assailants escaped.

Andrew Yoder, 27 years old, died at his home, near Longfellow. He was married in Vanwert, Ohio, a few days ago and became sick while on his wedding tour.

Samuel Greason, the negro who was acquitted of the murder of John Edwards, last week, after having been under sentence of death for over two years, will not place himself on exhibition, as he had agreed to do. A storm of protests was aroused by Greason's signing a contract with a carnival company immediately after he was set free, and a committee of citizens had asked the city authorities to prohibit the exhibition.

Within a few days the Pennsylvania Railroad Company will begin the construction of the system of pipe lines from the Indian Creek district and other mountain streams, from which they hope to get an abundant supply of pure water for use in the engines. The American Pipe Line Company, of Philadelphia, which has received the contract for the greater part of the work, will put over a thousand men on the construction of the reservoir at Hawkeye. Other gangs will be started at places where reservoirs are to be erected.

COMMERCIAL REVIEW.

Bradstreet's says: "Distributive trade and crop developments, while still of an irregular character, hold and have perhaps added to the improvement manifested last week for which warmer weather is responsible. Sales of summer goods are more active and business for fall delivery appears well from all sections save Texas, where impaired wheat-crop returns have a deterrent effect. Confidence in the future still continues. Export trade is good, railway earnings are large, building is active and steel mills engaged on the heavier forms of finished material will not close down this summer. The labor situation, though disturbed here and there, is, on the whole, a pleasant one. Crop prospects in general continue favorable, although corn conditions are spotted and the plant is very much behind. Prices of all products still seem to favor the agricultural interests. On the other hand, new business in industrial lines is less active. Pig iron prices are receding, stocks tend to increase and it is a buyers' and consumers' market rather than one favoring the seller. Flour mills are inactive, awaiting receipts of new-crop wheat. For many scattered wholesale lines it is a period of quiet and unsettlement in some prices, as business is now of a midsummer character. Firmness in cotton goods is a feature calling for note. Buyers are insistent for quick deliveries. Reorder business with fobbers has been fairly good, especially at the West. In woolen goods trade is reasonable, and clothing men report a good business. Southern trade centers report trade rather quiet, as is usual at this season.

Wheat, including flour, exports for the week ended June 15 are 688,017 bushels, 18 against 1,476,840 last week, 2,044,251 this week last year, 3,617,215 in 1903 and 1,860,434 in 1902. Corn exports for the week are 505,099 bushels, against 1,108,146 last week, 298,998 a year ago, 1,089,153 in 1903 and 1,100,979 in 1902.

ADDS TO SPLENDOR.

MEN OF BUSINESS RECOGNIZE ADVANTAGES OF ACETYLENE.

Famous Summer Hotel, the Grand Union of Saratoga, Has Installed This Best of All Artificial Lights—Means Increased Comfort and Health.

Saratoga, June 27.—The very name, "Saratoga," brings to every mind health-giving springs, unsurpassed hotels and beautiful drives. It has been for many years the Mecca for all who admire nature, enjoy good living, and are searching for health, or are simply taking a vacation.

The Grand Union, the largest summer hotel in the United States, set among green trees with its long wings enclosing a court with fountains and flowers, grass and trees, music and light, is throughout the season thronged with guests. With the progressive spirit always shown by its management, the Grand Union has again added to its attractiveness by introducing acetylene gas to make still more brilliant the evening hours. The general proprietors believe in furnishing their guests with the best of everything, and now, after investigating and finding that Artificial Sunlight can be had, they have installed a complete acetylene gas plant to produce it, and have connected upwards of six thousand Acetylene burners in and about the plant.

Like many discoveries of recent years, which are coming into popular favor, acetylene, one of the most recent, is very simply produced. It is adapted for use wherever artificial light is needed and the necessary apparatus can be understood and operated by any one.

The generator in which Acetylene is produced by the automatic control of carbide and water might be termed a gas plant, as it performs all of the functions of a city gas plant. The acetylene generator can be purchased for a few dollars and in any size, from one adapted to furnish acetylene to ten or a dozen burners for a cottage, up to the large but still simple machine such as is now furnishing Acetylene for six thousand burners in the Grand Union.

Outside of large cities the use of Acetylene is quite common. The owner of the country home now demands running water, gas and other conveniences which a few years ago were considered as luxuries, and acetylene gas has met his requirements, and gives him a better and cheaper light than is ordinarily furnished in cities.

It is well known that rooms lighted with Acetylene are more comfortable, because cooler, and more healthful because the air is not vitiated.

It Pays to Advertise. When James Gordon Bennett the elder was editor of the Herald, Robert Bonner, publisher of the New York Ledger, was struggling to build up its circulation, and decided to try a little advertising. He wrote an announcement consisting of eight words: "Read Mrs. Southworth's New Story in the Ledger," and sent it to the Herald marked for "one line." Mr. Bonner's handwriting was so bad that the words were read in the Herald office as "one page." Accordingly the line was set up and repeated so as to occupy one entire page. Mr. Bonner was thunderstruck the next morning. He had not to his name money enough in the bank to pay the bill. He rushed excitedly over to the Herald office, but was too late to do any good.

In a short time the results of the page announcement began to be felt. Orders for the Ledger poured in until the entire edition was exhausted and another one was printed. The success of the Ledger was then established. Ever after that time Mr. Bonner was an ardent believer in advertising and a liberal purchaser of space.

FOR SCIENTISTS TO SOLVE

Lake in Patagonia Where Water Rises and Falls in Odd Way.

Capt. H. C. Crosthwait directs attention in an English science journal to the magnetic and meteorological observatory established by the Argentine government on New Year Island, a small island about five miles off the coast of Staten Island, Patagonia, says the Baltimore American. The observatory which is complete in every respect, is superintended by four Argentine naval officers. It was opened in February, 1902. The magnetic observatory is kept at an almost constant temperature of 64 degrees F. Many interesting facts about Tierra del Fuego are given by Capt. Crosthwait in his paper. He directs attention to the astonishing number and variety of the glaciers, and to the fact that most of the larger ones show signs of shrinkage. He says that San Martin lake undoubtedly occupies what was once a strait joining the Atlantic and Pacific oceans. The level of the water of the lake rises and falls in a peculiar manner. Exact measurements of these "seiches" show that the movements are irregular, but on an average they amount to about five inches, having a period of about four minutes between two successive high waters. The surface of the water to the eye is perfectly smooth.

For the first ten months of this fiscal year 100 railroads of America showed a gain of 7.15 per cent.

Truths that Strike Home

Your grocer is honest and—if he cares to do so—can tell you that he knows very little about the bulk coffee he sells you. How can he know, where it originally came from, how it was blended—or with what—or when roasted? If you buy your coffee loose by the pound, how can you expect purity and uniform quality?

LION COFFEE, the LEADER OF ALL PACKAGE COFFEES, is of necessity uniform in quality, strength and flavor. For OVER A QUARTER OF A CENTURY, LION COFFEE has been the standard coffee in millions of homes.

LION COFFEE is carefully packed at our factories, and until opened in your home, has no chance of being adulterated, or of coming in contact with dust, dirt, germs, or unclean hands.

In each package of LION COFFEE you get one full pound of Pure Coffee. Insist upon getting the genuine. (Lion head on every package.)

(Save the Lion-heads for valuable premiums.)
