

**CLEMENTINA GONZALES,
OF CENTRAL AMERICA,
RESTORED TO HEALTH.
PE-RU-NA THE REMEDY**

Miss Clementina Gonzales, Hotel Pro vincia, Guatemala, C. A., in a recent letter from 247 Cleveland Ave., Chicago, Ill., writes:

"I took Peruna for a worn-out condition. I was so run down that I could not sleep at night, had no appetite and felt tired in the morning. I tried many tonics, but Peruna was the only thing which helped me in the least. After I had taken but a half bottle I felt much better. I continued its use for three weeks and I was completely restored to health, and was able to take up my studies which I had been forced to drop. There is nothing better than Peruna to build up the system."—Clementina Gonzales.

Address The Peruna Medicine Co., of Columbus, Ohio, for instructive free literature on catarrh.

The Girl That Got Away.

"I've been married for more than twenty years," Jefferson De Angelis is reported as having said recently, "and to one wife. That's quite a record for this profession."

"I had a near engagement once," he observed. "It was long before I met the present Mrs. De Angelis. The girl was charming and I probably should have hunted up a parson with my own carelessness."

"There was plenty of work to be done those days, and frequently I let weeks go by without so much as seeing my fiancée. Once a whole month passed in this way. At the end of that time my conscience smote me and I called at the house. 'The girl was goodness itself and my conscience smote again. Accordingly, I went out and ordered sent to her a set of Dickens which I had wanted myself for a year and which I could very ill afford. I paid \$2 down on the volumes and agreed to pay twenty-five cents a week all the rest of my life.'

"Two days later I saw in a newspaper that my intended had married another man."

"Years afterward, when she had little children at her knee, I was still paying for those books."

"Ah, the fickleness of woman!"

Absurd Official Blunder.

When the British admiralty built the new and splendid naval barracks at Chatham they fitted up one of the largest rooms in fine style for court-martial and had "Court-Martial" inscribed on a big brass plate on the door. When it was about to be used for the first time the discovery was made that the regulations require all naval courts-martial to be held on the water.

SENATOR SULLIVAN

Says He Has Found Doan's Kidney Pills Invaluable in Treating Sick Kidneys.

Hon. Timothy D. Sullivan, of New York, Member of Congress from the Eighth New York District and one of the Democratic leaders of New York State, strongly recommends Doan's Kidney Pills, having found them of the greatest value in eliminating the distress caused by sick kidneys, and in restoring those organs to a condition of health. My experience with your valuable remedy was equally as gratifying as that of several of my friends. Yours truly, (Signed) TIMOTHY D. SULLIVAN, Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists. Price, 50 cents per box.

Surprise for the Bully.

A West Bromwich magistrate tells a story of a small dog, which, having been defeated by the butcher's ferocious bull terrier, collected half a dozen other dogs, and after feasting them on pieces of meat which it had stored up, led them to the fray, and, with their aid, avenged his disgrace by thoroughly whipping the terrier.—Westminster Budget.

Philadelphia, with one-sixtieth of the population of the United States, furnishes one-twentieth of its manufactures.

THE KEYSTONE STATE

Latest News of Pennsylvania Told in Short Order.

Attracted by the work that Commissioner of Health Samuel G. Dixon has had done by the Academy of Natural Sciences, entomologists in hunting for yellow fever infected mosquito along the wharves and one fruit vessels in the harbor of Philadelphia, Dr. Quitman Kohne, health officer of New Orleans, has been carrying on correspondence with Dr. Dixon regarding the stegomyia. In a letter received by Dr. Dixon from Dr. Kohne the latter states that for the past two summers he has made collections of larvae found in the water barrels placed on the fruit wharves and has found stegomyia mosquitoes to develop from some of the larvae. Dr. Dixon has proposed through the State Quarantine Board to have a similar plan carried out in Philadelphia, and has also suggested that if any vessel is quarantined, it would be well to place a large vessel of water in its hull or on its deck to see whether or not the larvae are produced.

Miss Lizzie Rider prevented her sister, Miss Marguerite Rider, of York, from killing or injuring herself by leaping from a second-story window of her home, in that city. Marguerite, who was suffering from nervous prostration, climbed upon the window ledge and was about to leap when Lizzie entered the room and seized her. Marguerite struggled to free herself and was soon dangling out of the window by her skirts, to which her sister clung. Cornelius Ammon saw the struggle and running under the window caught the girl as her skirts tore and she fell into his arms. The drop was twenty feet, but she was unhurt.

Mrs. Edward Moran, of North Scranton, was hanging out clothes in her garden, when a mine cave-in precipitated her 42 feet into the abandoned workings of the North End Coal Company. Her mysterious disappearance was soon discovered, and the combined efforts of her family and a hose company were required to rescue her, as she weighed nearly 300 pounds. She was conscious, but later lost her senses, and it is feared she is injured internally.

While playing with matches Julia Able, 3 years old, of Lancaster, set fire to her clothing and in an instant was enveloped in flames. Her mother tore the burning clothing from the child's body, but too late to save its life. The body of William Lewis, of Carlisle, the 8-year-old child who was drowned in the Condoguinet Creek Sunday, August 13, was found at Wolf's Bridge, four miles from Carlisle. Mr. and Mrs. David Mellinger, of Limevale, Lancaster county, celebrated their fiftieth wedding anniversary by holding a family reunion. Mr. Mellinger is 74 years old and his wife 67.

Bethlehem Sanitary Dairy Company's stable at Bethlehem was destroyed by fire. Three horses perished in the flames, which also devoured several wagons. The loss is several thousand dollars.

F. A. Hilary, professor of languages at the Bethlehem Preparatory School, has been elected to the chair of assistant professor of German at Pennsylvania State College.

Jonathan Winterbottom, of Norris-town, is under doctor's care from an attack by wasps while he was roofing Daniel Webster's barn in Plymouth township.

Mable Kenney, of York, aged 11 years, whose body was pierced by the tines of a pitchfork upon which she fell from a loaded hay wagon, is still alive and physicians say there is a prospect of her recovery.

Henry Keener, of Strassstown, a carpenter, fell from a wagon shed ten days ago and remained unconscious until he died. During this time he virtually partook of no nourishment.

The Hamburg Vitified Brick Company, of Hamburg, has been awarded a contract to furnish the United States Government 4,000,000 bricks to be used in the construction of the Panama Canal.

City Council, of Scranton, has been petitioned to compel the Laurel Line, with a third-rail system, to abandon grade crossings on the south side of the city. For the present watchmen and gates will be demanded.

Discovering that his pony had been stolen, Dr. Henry Lovett, of Langhorne, gave chase in his auto for the thief. The pursuit was too hot and the pony, which was abandoned, returned to its stable.

Doylstown Council has appointed Philip Farley special policeman, water inspector and poundkeeper at a salary of \$33 a month. An ordinance requiring all dogs to be registered and tagged was passed.

Two heavy engines on the Philadelphia and Reading Railway drawing loaded coal trains met in a head-on collision between Lincoln Colliery and Tremont. The crews of both trains jumped, and saved their lives. The wreck was a costly one.

At the packer 3 colliery, Shenandoah, while the double stationary engines were on full speed hoisting coal, a pinion broke, causing one of the engines to turn upside down. At the same time the cogwheel on the drum broke, the pieces being hurled in all directions. The engineer applied the brakes and then ran for his life. Both engines are a wreck.

A new opera and engine house combined will be built at Kennett Square. The cost will be \$16,000.

Despite the placards "Closed," which are posted at both approaches to the new bridge across the Lehigh River, which was inspected by a committee appointed by Governor Pennypacker, teamsters persist in using the new structure, crossing on the trolley tracks, which have not been closed.

Councilman Anthony Navitsky, a miner at Shenandoah City Colliery, was perhaps fatally burned by an explosion of gas in a mine there.

Prof. George W. Heyler, of Bucks county, has been appointed principal of Kennett High School, vice Prof. Walter E. Dengler, resigned.

COMMERCIAL REVIEW.

R. G. Dun & Co.'s "Weekly Review of Trade" says:

"Assurance of prosperity on the farms generates confidence in all departments of trade and industry. Contracts are placed for distant delivery and commercial payments are more prompt."

"It is also gratifying to note that pending and threatening labor controversies are less numerous, a higher scale was adopted at glass factories and the attractive wages paid to harvest hands have reduced the ranks of the unemployed to a minimum."

"Jobbing trade is brisk, especially in dry goods, and all the large cities report a full attendance of outside buyers. Prices are well sustained by the brisk demand, interior dealers preparing for a vigorous Fall and Winter distribution."

"Mills and factories are well employed, little idle machinery being noted in the prominent industries, although iron and steel despatches are still somewhat irregular."

"Traffic by rail and water is very heavy, railway earnings thus far reported for August exceeding last year's figures by 6.6 per cent."

"Commercial failures this week in the United States are 218 against 222 last week, 232 the preceding week and 226 the corresponding week last year."

"Bradstreet's" says:

"Wheat, including flour, exports for the week ending August 17 are 1,068,519 bushels against 865,002 last week, 1,703,047 this week last year, 3,372,789 in 1903 and 5,054,759 in 1902. Corn exports for the week are 1,177,039 bushels against 1,524,441 last week, 520,362 a year ago, 509,495 in 1903 and 51,649 in 1902."

WHOLESALE MARKETS.

THREAT BY FRANCE

Morocco Must Release Prisoner or Be Invaded.

LIKE THE PERDICARIS CASE.

French Minister at Fez Instructed to Depart in Case of Morocco's Non-compliance with Ultimatum—Military, Instead of Naval Demonstration, Proposed as Less Liable to Provoke International Complications.

Paris (By Cable).—As a result of a special meeting of the Council of Ministers it was announced that a military demonstration will be made against Morocco unless the Sultan promptly yields to the French demands for the release of the French-Algerian citizen, a merchant named Bouzian, who was unjustly arrested at Gharb, a Moroccan town on the Algerian frontier.

Instructions were sent to the French Minister at Fez, Strene Taïander, to make a final demand on the Sultan. The Minister was informed that if this demand should be refused the entire personnel of the legation was to depart from Morocco, and a military movement would simultaneously begin along the Algerian frontier.

It is the intention of military authorities to occupy a Moroccan border town, probably Oudjda, owing to its strategic command of the route to the Moroccan capital. However, the officials are confident that the Sultan will yield before the threat of using military force.

The demonstration as planned is somewhat similar to that which an American squadron made at Tangier to compel the release of Ion Perdicaris, who was captured by the bandit Rasud. The French authorities deemed a naval demonstration inexpedient because of possible international complications resulting from other countries sending warships to observe the demonstration, while a military movement against Morocco would be largely a police measure not involving the general political question of French authority in Morocco. The persistent refusal of the Sultan to yield, however, might compel the French to advance farther than a border town.

Germany has thus far approved the French demands for redress, but fears are expressed in some quarters that the Sultan will refuse to yield in the hope of securing the aid of Germany. Practically all the leading powers have approved the determination of the French Government to adopt a firm course. The proposed course cannot be put into execution before another week, owing to the time necessary to communicate the final demands to the Sultan.

HIGH GRANTED MORE DELAY.

Supreme Court of Illinois Will Review Testimony in Case.

Chicago (Special).—Johann Hoch, the man of many wives, convicted of the murder of one of them and under sentence of death, has escaped the gallows a third time. He was to have been hanged Friday, but a supercedas was issued Thursday on an order of Justice Magruder, of the Supreme Court.

The Justice said that he had carefully examined the record presented by Hoch's attorneys and his study of it satisfied him that there was enough doubt to justify a review of the entire case by the Supreme Court. The case will come up at the October term of the court at Springfield, Ill. Hoch has been confident that the sentence of hanging would not be inflicted. He had very little to say when informed of the action of the Justice. Jailer Whitman asserted it was the first time in his experience that a prisoner has exhibited no concern about his fate the day previous to execution.

Hoch was smoking a cigar when told of the issuance of the writ. "I am not guilty of this horrible murder," he said, "and now I will have an opportunity of proving myself innocent before the highest court in the state. I never have felt that I would go to the gallows. I may be guilty of other crimes, but never of that murder."

Heart on the Right Side.

Los Angeles (Special).—When Malcolm Rose, a landscape gardener, was put on the operating table at the county hospital here to undergo an operation for the removal of a growth from his neck, it was discovered by the surgeons that the patient's heart, instead of being in normal position on the left side of the body, was on the right side, nearly six inches from its proper place. The organ in every way, however, appeared normal. It evidently had been in that position from birth.

A New Train Hotel Aweel.

Chicago, Ill. (Special).—The Pennsylvania Railroad placed on exhibition at the Union Station one of its newly equipped fast trains between Chicago and New York. The train contains all the latest improvements in the way of electric lighting, ventilation, enlarged and wider bathrooms, barber shop and everything to afford comfort to the patrons of the road. All the cars are elegantly furnished.

May Punish Macho.

Madrid, Spain (By Cable).—It is probable that Macho, the official who is said to be responsible for the reports to the effect that physicians who had examined King Alfonso found traces of insanity, will be severely punished. What form his punishment will take is not known, but it is understood it will be commensurate with the gravity of the offense.

Scaffolding Falls.

Buffalo, N. Y. (Special).—A scaffolding about 40 feet high at the American Radiator Works broke and eight workmen fell to the stone floor in the basement. One man died a few minutes after the accident. His name is Anthony Schultz, of Cleveland, O. Others injured were George Jones, Robert McGuire and Edward Warner, August Heinster and Patrick Sheehy, all of Cleveland; James T. Matternson, of Unionville, and Everett McMann, of Buffalo.

CRAZE FOR THINGS ANCIENT.

Druggist Had Neat Scheme for Disposing of Shopworn Goods.

"If you ever get a Jonah on your hands in the shape of etables or drinkables, just tag it 'old-fashioned make' and it will sell before you have time to think about it," said a Columbus avenue druggist. "I found that out by experimenting with some cough drops that I couldn't get rid of. They had been lying around until they had become so stale and sticky that there seemed nothing could be done with them except to throw them away. I didn't want to do that, so as a last resort I tried the old-fashioned dodge I piled the cough drops into a fancy jar and labeled them. 'Recipe of 1850. Cured your grandmother's cold,' and in less than half an hour the bowl had been cleaned out. Yesterday I worked the same scheme with a lot of moth balls I had left over. There is but lit tle call for moth balls this late in the season, but by simply marking that box 'old-fashioned moth preventive' I drew in customers until they lined up three deep trying to get at them."

"This predilection for things that antedate your great-grandmother's time seems to be a reaction from excessive modernity. It is a spirit that ought to be encouraged by all trades men, for when sensible people will make a grand rush for prehistoric moth balls there is no limit to the candy, perfumes and drugs that they can likewise be inveigled into buying."—New York Press.

Court to Decide Knotty Point.

The Maine courts will shortly decide whether a will which was duly signed and witnessed, but from which the signature was afterward cut off is still a will within the meaning of the law. Such was the condition of the will of Miss Ellen Greene when it was offered for probate in York county and its admission was at once contested by interested parties.

STOP, WOMAN!

AND CONSIDER THE ALL-IMPORTANT FACT

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with women's diseases covers a great many years. You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides a man does not understand—simply because he is a man. Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

Mrs. Pinkham's Standing Invitation.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; this has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice.

When a medicine has been successful in restoring to health so many women, you cannot well say, without trying it, "I do not believe it will help me."
