

THE ENCAMPMENT AND FAIR

In Full Sway as the Reporter Goes to Press. The Thirty-second annual Grange Encampment and Fair, Grange Park, Centre Hall, is in full sway as the Reporter goes to press.

There are more than double the number of tents on the ground than last year, and the exhibits in every department are far superior and greater in number than heretofore.

The colossal column, in front of headquarters, built of the products of the farm, garden, orchard and vineyard, is a beautiful piece of art, and was executed by H. G. Strohmeyer.

SUNDAY AT THE CAMP.

A Scholarly Sermon by Rev. James W. Boal, D. D., to a Full House—Perfect order on the grounds.

The Sunday services on Grange Park were largely attended. The auditorium was well filled with attentive listeners to a masterful sermon by Rev. James W. Boal, D. D., on the passage of scripture found in 1 Corinthians, 13th Chapter.

There were many people on the ground during the entire day, yet the best of order was maintained. The shops were closed; tobacco and cigars were not purchasable.

Keller's boarding house did a rushing business. They served a splendid turkey dinner. Everything was neat and clean, and the food was prepared and served in good style.

The drizzling rain that began at about ten o'clock, kept many hundreds from the grounds, but those who were out were not harmed or inconvenienced very little.

There is Money in Growing Ginseng

Prof. W. L. Howard of the Missouri State Agricultural College says: "I advise American farmers to cultivate Ginseng. Big profits may be realized. It is a hardy plant and is easily grown."—A recent bulletin issued by the Pennsylvania State Agricultural College in part says: "The supply of native Ginseng root is continually diminishing and the price per pound is correspondingly increasing, while the constant demand for the drug in China stands as a guarantee of a steady market for Ginseng in the future."

Ginseng is a staple on the market the same as corn, wheat and cotton. The present market price varies from \$5 to \$8 per pound according to quality, while the cost of production does not exceed \$1.50. There is room in an ordinary garden to grow several hundred dollars worth each year.
