

KIDNEY TROUBLE DUE TO CATARRH.

The Curative Power of PE-RU-NA in Kidney Disease the Talk of the Continent.

Nicholas J. Hertz, Member of Ancient Order of Workmen, Capitol Lodge, No. 140, Pearl Street Hotel, Albany, N. Y., writes:

"A few months ago I contracted a heavy cold which settled in my kidneys, and each time I was exposed to inclement weather the trouble was aggravated until finally I was unable to work.

"After trying many of the advertised remedies for kidney trouble, I finally took Peruna.

"In a week the intense pains in my back were much relieved and in four weeks I was able to take up my work again.

"I still continued to use Peruna for another month and at the end of that time I was perfectly well.

"I now take a dose or two when I have been exposed and find that it is splendid to keep me well."

Hundreds of Cures.

Dr. Hartman is constantly in receipt of testimonials from people who have been cured of chronic and complicated kidney disease by Peruna. For free medical advice, address: Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

Meat is Unpopular.

"I never knew meat to be so unpopular as it has been this summer," said a prosperous butcher. "Of course I always expect the meat sales to fall off in the warm weather, but this year I have sold only one-half as much as I did last summer. One customer—a landlady, who has twenty-five boarders—tells me that she can hardly get her boarders to touch the meat dishes, and she is rejoicing. Even ham, the old standby, which is generally in good demand even in the most scorching weather, is frowned upon, and the beef trust would soon go to pieces if its produce were no more popular the year round than it has been this summer.

Why, indeed?

"Well," said the passenger to the drummer in the smoking compartment, "I'm disappointed in you."

"How so?" queried the drummer.

"There's a perfect dream of a girl back in the car and here you are sitting in here and not even trying to get up a flirtation. Have you seen her?"

"Yes, she got on when I did."

"And you don't feel any inclination to make love to her?"

"Not a bit."

"Why not?"

"Why should I; she's my wife?"

What is a Backache?

IT IS NATURE'S WARNING TO WOMEN

Diseases of Woman's Organism Cured and Consequent Pain Stopped by Lydia E. Pinkham's Vegetable Compound

"It seems as though my back would break." Women utter these words over and over again, but continue to drag along and suffer with aches in the small of the back, pain low down in the side, "bearing down" pains, nervousness and no ambition for any task.

They do not realize that the back is the mainspring of woman's organism, and quickly indicates by aching a diseased condition of the womb or kidneys, and that the aches and pains will continue until the cause is removed.

Lydia E. Pinkham's Vegetable Compound for twenty years has been the one and only effective remedy in such cases. It speedily cures all womb and kidney disorders and restores the female organs to a healthy condition.

Here is one case among thousands: "I consider Lydia E. Pinkham's Vegetable Compound the most wonderful remedy in the world for sick women. For a long time I suffered with a severe backache and bearing-down pains; in fact, I had womb trouble. Reading of the remarkable cures your Compound had made I decided to try it, and I am happy to say that it not only cured me entirely of all my troubles but made me a strong, well woman."—Mrs. Elizabeth H. Thompson, Lily Dale, N. Y.

No other medicine holds such a record of cures of female ills as does Lydia E. Pinkham's Vegetable Compound.

No other person can give such helpful advice to women who are sick as can Mrs. Pinkham, for none have had such a great experience. Her address is Lynn, Mass., and her advice free.

HORSE SENSE.

How Jo Fixed the Pump and Charged \$5 for It.

The question of remuneration for labor, always a mooted one, is susceptible of being viewed from various standpoints.

In a small community in Texas, where water is hard to find, Mr. Henderson, the owner of a well, fitted out with a patent pump, was a person of consequence. It was, also, matter of public concern when the pump got out of gear and refused to perform its proper functions.

All the men in the locality spent the day in Henderson's back yard, consulting and "tinkering" jointly and severally, at the pump; but all to no avail.

Finally along came a young fellow, Jo Brady by name, from a neighboring ranch. He looked the pump over, rapped it on the head with a hammer, thought a couple of minutes, and inside of two minutes more had it in working order again. Approbation was general.

"Just name your price, Jo, my boy," said the owner of the pump heartily.

Jo considered a bit and then said that he guessed five dollars would be about right.

There was a change at this, and remarks of a different nature from approbation were freely indulged in.

"Now, see here, Jo," said the aggrieved Henderson, "I thought you was a square kind of a chap! That ain't no white man's charge. Why, you don't do nothin' at all—any one of us could a done what you done—and you want more'n five minutes' doin' it, neither. Fifty cents 'ud be a big price for that work you done!"

Jo considered again.

"All right," he said, "I'll make another charge. I'll send you my bill," he added, turning on his heel.

When the bill came it read thus: For working on one pump five minutes \$0.50

For horse-sense that no other mother's son of you could scratch up \$4.50

Total \$5.00

GRATIFYING PRAISE.

Letter From Marcus Mayer, the Great Patron of Music and Drama.

Marcus R. Mayer, who brought to America Mme. Patti, Duse, Salvini, Coquelin and other famous singers and actors, writes:

Gentlemen: I wish as many suffering men and women as I can reach to know the excellence of Doan's Kidney Pills. I was greatly benefited by this remedy and know it cured several who had kidney trouble so badly they were agonized with pain in the back, head and loins, rheumatic attacks and urinary disorders. I am glad to recommend such a deserving remedy.

(Signed) MARCUS R. MAYER. Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

For a Girl to Know.

Some one has suggested a few things that every girl can learn before she is 12. Not every one can learn to play or sing or paint well enough to give pleasure to her friends, but the following "accomplishments" are within everybody's reach:

Shut the door and shut it softly. Keep your own room in tasteful order.

Have an hour for rising, and rise. Never let a button stay off twenty-four hours.

Always know where your things are. Never let a day pass without doing something to make somebody comfortable.

Learn to make bread as well as cake.

Never go about with your shoes unbuttoned.

Snuff Boxes Again in Use.

After having been on the semi-retired list for many years, the snuff box is once again in evidence in the shops. Even cigar stores had not been showing sneeze-producer holders in recent seasons. The consumption of snuff is considerably greater in winter than in summer.

Uses a Gold Pen.

The pope does his private writing with a gold pen, but his pontifical signature is always given with a white-feathered quill, which is believed to come from the wing of a dove. The same quill has been in use for many years.

"GOLD GOLD"

"Good," He Says, "But Comfort Better."

"Food that fits is better than a gold mine," says a grateful man.

"Before I commenced to use Grape-Nuts food no man on earth ever had a worse inflection from catarrh of the stomach than I had for years.

"I could eat nothing but the very lightest food and even that gave me great distress.

"I went through the catalogue of prepared foods but found them all (except Grape-Nuts) more or less indigestible, generating gas in the stomach (which in turn produced headache and various other pains and aches), and otherwise unavailable for my use.

"Grape-Nuts food I have found easily digested and assimilated, and it has renewed my health and vigor and made me a well man again. The catarrh of the stomach has disappeared entirely with all its attendant ills, thanks to Grape-Nuts, which now is my almost sole food. I want no other." Name given by Postum Co., Battle Creek, Mich.

Ten days' trial tells the story. There's a reason.

OVERLAND TRAIN HELD UP

Robbers Got Away With Some Valuable Booty.

OFFICIAL STATEMENT OF ROBBERY.

While the Bandits Were Busy With the Engineer and Express Messenger, a Couple of Youths Took Advantage of the Panic Among the Passengers and Began Making Them Give Up.

Seattle, Wash. (Special).—The Great Northern overland train leaving Seattle at night was held up and the baggage and express car dynamited about five miles from Ballard. Three men are known to have done the work. Two boys who got on the blind baggage here as soon as the holdup began entered the passenger coaches and began holding up the passengers. They were captured. They say two of the men were on the blind baggage when they got on, and the third got on at Ballard. All were well dressed, with raincoats and slouch hats. So far as reported no one was killed, but Charles Anderson, an express messenger, was slightly injured.

The train was flagged near the brickyard, and as the engineer slowed up two men with raincoats, climbed over the tender and presented revolvers to his head. When the train stopped, the engineer was instructed to pull ahead, which he did for several hundred yards, when he was again commanded to stop. Two of the robbers then jumped off, making the engineer and fireman do the same, and all marched to the baggage-car door. The messenger was commanded to open the door, and, refusing, an extra heavy charge of dynamite was placed against it and exploded. The explosion tore the car almost to pieces. The safe was then dynamited. The train was delayed two hours and a half, and then pulled into Edmonds, making a brief report before proceeding to Everett. The two boys claim they never met the hold-ups until they got on the train, and are in no way connected with their work. The idea to hold up the passengers occurred to them after the explosion. Sheriff Smith has started out with a posse.

Conductor Grant's report of the hold-up shows that at least seven men were engaged in the robbery. The conductor believes there were other men further down the track, but they did not take any part, possibly because the train had stopped too soon.

When once inside the car the robbers began dynamiting, the first explosion being of six sticks, the second of 12 and the third of 18.

While the robbers were engaged on the safe the two boys who had been riding on the blind baggage slipped off and went through the train, attempting to hold up the passengers. They had no guns, but took advantage of the timidity of the passengers while the shooting was going on outside.

The boys, who gave their names as Frank Alfred and Roland Gibbs, are now in jail at Everett. A passenger on the train says that their method while going through the coaches consisted of more of a begging character than a holdup.

No one was injured seriously, although a continual fire of revolvers was kept up. Stories differ as to the number of robbers engaged in the job. There were at least three. There may have been four, or even more.

The express messenger says he does not know how much was obtained by the holdups. The local safe was not molested.

A reward of \$5,000 was offered by the Great Northern Express Company for the capture and identification of the robbers.

Deputy Sheriff Scott said that, so far as known, only \$346 in cash was taken from the safe. No statement has been made regarding express matter.

EXCHANGE OF RATIFICATIONS.

Takahira Calls on Rosen and They Go to the State Department.

Washington, D. C. (Special).—Ratifications of the treaty of Portsmouth will be exchanged at Washington between Baron Rosen, the Russian ambassador, and Mr. Takahira, the Japanese minister, as soon as these important documents are received from St. Petersburg and Tokio. The ratifications will contain the French and English texts of the treaty. This was decided at a conference between Baron Rosen and Mr. Takahira, which began in the Russian ambassador's apartments and was concluded at the State Department. Mr. Takahira called on Baron Rosen to find out from him the usual form of the Russian ratification. In order that the minister might inspect a copy, they went to the State Department, where Mr. Ade, the third assistant secretary of state, received them and showed them the ratification of the Russian-American extradition treaty.

Mr. Takahira will inform his government fully on the subject, so that the ratifications may conform. The special plenipotentiaries, enabling them to exchange ratifications, will be identical in scope.

The approval of the treaty by the Privy Council at Tokio in effect ratifies the convention, and it is expected the formality of the Emperor's signature will follow shortly. As the treaty becomes effective as soon as ratified, the exchange of ratification is only a formality. Japan will be ready to exchange as soon as the Emperor's signature is affixed, as the formal ratification can be prepared and delivered at the legation here. It is not believed that the Russian ratification will be long delayed.

The Hunger Strike.

St. Petersburg (By Cable).—The "hunger strike" which began October 2 in the women's department of one of the large prisons here devoted to the detention of political offenders has become general. For three days all the inmates of the prison have been refusing to eat as a protest against the rough treatment of a female prisoner and the general administrative conditions in the prison. The prisoners are mainly socialists, many of whom were arrested last week.

COMMERCIAL REVIEW.

R. G. Dun & Co.'s Weekly Review says:

"Lower temperature stimulates retail trade, and fall openings are largely attended, but the weather is not cold enough to menace late crops that are maturing most satisfactorily.

"Certainty of a successful season on the farms contributes more than any other single factor to the confidence that is felt in all sections of the country. Comparatively little new grain has been marketed thus far, which is largely due to the planting of winter wheat and other preparations for next year that are unusually extensive.

"Manufacturing activity is fully maintained, the leading industries having contracts assuring little idle machinery during the balance of the year, and it is probable that more business will be carried over into 1906 than at the opening of any previous year.

"The growing disposition to place orders for distant delivery testify to the well-nigh universal faith that no setback will be experienced.

"Railway traffic reports suggest that more rolling stock and motive power could be used if obtainable, as is customary at this season, and gross earnings thus far reached for September surpass last year's by 1.1 per cent., which in turn were 6.5 per cent. greater than those of 1903.

"Money is a little firmer, but there is no stringency and gold imports were checked by higher rates of foreign exchange."

Bradstreet's says: "Wheat (including flour) exports for the week are 2,064,932 bushels, against 2,178,428 last week, 1,182,253 this week last year, 4,082,681 in 1903 and 6,870,578 in 1902. Corn exports for the week are 1,212,992 bushels, against 1,272,495 last week, 700,862 a year ago, 1,123,871 in 1903 and 141,423 in 1902.

WHOLESALE MARKETS.

Baltimore.—FLOUR—Steady and unchanged; receipts, 10,478 barrels; exports, 4,454 barrels.

WHEAT—Quiet and lower. Spot contract, 82 1/2 @ 82 1/4; spot No. 2 red Western, 84; September, 82 1/2 @ 82 1/4; October, 82 1/2 @ 82 1/4; December, 85 @ 85 1/4; steamer No. 2 red, 75 @ 75 1/4; receipts, 3,382 bushels; exports, 48,000 bushels; Southern, by sample, 68 @ 80; Southern, on grade, 78 1/2 @ 84.

CORN—Steady at decline. Spot, 58 1/4 @ 58 1/2; September, 58 1/2 @ 58 1/2; year, 50 1/4 @ 50 1/4; January, 49 1/4 @ 49 1/4; February, 49 @ 49 1/4; March, 49 @ 49 1/4; May, 49 1/4 @ 49 1/2; steamer mixed, 56 1/4 @ 56 1/4; receipts, 18,930 bushels; Southern white corn, 57 @ 60; Southern yellow corn, 58 @ 60.

OATS—Quiet. No. 2 white, 33 1/2 @ 34; No. 3 white, 32 1/2 @ 33; No. 2 mixed, 32 @ 32 1/4; receipts, 122,375 bushels; exports, 40,000 bushels.

RYE—Firm. No. 2 Western, 68 export; 71 @ 72 domestic; receipts, 1,687 bushels.

HAY—Steady and unchanged. BUTTER—Steady and unchanged. Fancy imitation, 19 @ 20; fancy creamery, 22 @ 22 1/2; fancy ladle, 18 @ 19; store-packed, 15 @ 16.

EGGS—Steady and unchanged, 21. CHEESE—Steady and unchanged. Large, 12 1/4; medium, 12 3/4; small, 13. SUGAR—Steady and unchanged. Coarse granulated, 5.20; fine, 5.20.

New York.—WHEAT—No. 2 red, 88 1/4 elevator; No. 2 red, f. o. b. afloat; No. 1 Northern Duluth, 91 1/4 f. o. b. afloat; No. 1 Northern Manitoba, 91 1/4 f. o. b. afloat.

CORN—No. 2, 58 1/2 elevator and 59 1/4 f. o. b. afloat; No. 2 yellow, 60 1/4; No. 2 white, 60 1/4. Option market was quiet and easier, closing partly 1/4c. net lower. May closed 49 1/2.

UNSEEN IN A SAW

There are unseen things about this Saw. You cannot see the fine texture of the steel; takes a sharp, cutting edge and holds it longer than any other saw. You cannot see the toughness of the fiber; lends without a break or a kick. SILVER STEEL, the finest crucible steel in the world, is made on the Atkins formula, tempered and hardened by the Atkins secret process, and used only in Atkins saws. You cannot see the perfectly graduated taper of the blade; runs easily, without juddering. But you can see the Atkins trade-mark and it is your protection when you buy a saw. We are saw-makers and our trade-mark on a Saw means that it is our own make and that we are justly proud of it. It makes all types and sizes of saws for all purposes. Atkins Saws, Corn Knives, Perfection Floor Scrapers, etc., are sold by all good hardware dealers. Catalogue on request.

E. C. ATKINS & CO., Inc.
Largest Saw Manufacturers in the World.
Factory and Executive Office, Indianapolis, Indiana.
BRANCHES: New York, Chicago, Minneapolis, Portland, Oregon, Seattle, San Francisco, Memphis, Atlanta and Toronto, Canada.
