Where They Feared the Eclipse.

The effect on uneducated people of the recent eclipse described in the following letter which a correspondent has just received from a non-commissioned officer of the Royal Engineers stationed at Malta: "Did you see much of the eclipse on the 30th? We had a splendid view of it here. The Maltese nearly went mad with fright, thinking the world was coming to an end. All the people where I am living ran into the church, while some rang the church bells, and some even fired off large squibs (something of the fireworks tribe, I mean), but it was all over in about a quarter of an hour, and then the Maltese left the church and made their way back to their houses, looking very much scared."—London Chronicle.

Students to Hear Famous German.

Dr. Wilhelm Ostwald of Leipzig, who under the new management by which Harvard and Germany will exchange professors is to lecture at Cambridge for half the coming academic year, is essentially a leader of men. He has the personal magnetism which attracts and inspires people; he is always a little in advance of the majority and he has the power of expressing himself in such a way as to interest and convince others. His influence is not confined to his pupils. There is probably no man living whose opinions have so much immediate weight in the world of chemists as does that of Ostwald.

PASSING OF PORRIDGE.

Makes Way For the Better Food of a Better Day.

"Porridge is no longer used for breakfast in my home," writes a loyal Briton from Huntsville, Ont. This was an admission of no small significance to one "brought up" on the time-honored stand-by.

"One month ago," she continues, "I bought a package of Grape-Nuts food for my husband, who had been invalid for over a year. He had passed through a severe attack of pneumonia and a gripe combined, and was left in a very bad condition when they passed away."

"I tried everything for his benefit, but nothing seemed to do him any good. Month followed month and he still remained as weak as ever. I was almost discouraged about him when I got the Grape-Nuts, but the result has compensated me for my anxiety."

"In the one month that he has eaten Grape-Nuts he has gained 10 pounds in weight, his strength is rapidly returning to him, and he feels like a new man. Now we all eat Grape-Nuts food and are the better for it. Our little 5-year-old boy, who used to suffer from pains in the stomach after eating the old-fashioned porridge, has no more trouble since he began to use Grape-Nuts, and I have no more doctor's bills to pay for him."

"We use Grape-Nuts with only sweet cream, and find it the most tasty dish in our bill of fare."

"Last Monday I ate 4 teaspoonfuls of Grape-Nuts and cream for breakfast. Nothing else, then set to work and got my morning's work done by 9 o'clock, and felt less tired, much stronger, than if I had had my breakfast on meat, potatoes, etc., as I used to. I wouldn't be without Grape-Nuts in the house for any money." Name given by Postum Co., Battle Creek, Mich. There's a reason.

High Liquor Licenses.

The highest per capita receipts from liquor licenses are reported by the cities of Utah, Colorado, Minnesota, Illinois, Washington and Nebraska.

By state law Minnesota cities containing over 10,000 inhabitants can not license a saloon for less than \$1,000 per annum, but may increase this amount at their discretion.

In Illinois the general dram-shop license for cities is \$500 or more per annum, at the discretion of the local authorities.

Licenses in Washington must be between \$200 and \$1,000 per annum. In Nebraska cities a license can not be granted for less than \$1,000.

The laws for other states mentioned either require or permit the collection of large amounts by cities for liquor licenses.
