CASH ROAD TAX.

The Question to be Considered by Many Townships throughout the State.

A number of townships in this county will vote on the question whether or not road tax shall be paid in cash, the cash tax system to supplant the "work-out" plan. The most progressive townships throughout the state will bring this subject before the people for decision at the February election, and there is little doubt but that the majority of them will vote in favor of the cash tax plan. Rightly conducted, the cash tax pian will not only bring about better roads, but better roads for less dollars. Witt a cash tax, and level-headed supervisors, the tax rate could, and should, be materially reduced.

Good roads, such as are the ideal of the traveler-the agent, the liveryman, the professional man, et. al.-are beyond the financial abilities of rural districts; but better roads for the same dollars expended are in sight under the new road law, and the adoption of the cash tax feature of that law.

The fact that a McKean county judge has decided the law in question unconstitutional should not cause a hesitancy on the part of the voters to support the measure by ballot. The question of constitutionality will be decided by the higher courts in ample districts.

In other words, leave the question of constitutionality with the court. The question for the voter, the tax payer, is to say whether he wants to pay a cash road tax or continue the old workout system. The bulk of the \$1900. objection to the cash tax will come from the non-real estate owners, who, instead of paying a few pennies of tax, must pay one dollar each year. The real estate owner should not lose sight of this fact, nor of the opportunity to secure a rebate of fifteen per cent. from the state.
