Pneumonia Followed La Grippe-- Pe-ru-na the Remedy That Brought Relief

Mr. T. Barnett, West Aylmer, Ontario, writes: "Last winter I was ill with pneumonia after having la grippe. I took Peruna for two months, when I became quite well, and I can say that any one can be cured by it in a reasonable time and at little expense."

Systemic Catarrh, the Result of La Grippe. Pe-ru-na Receives Credit For Present Good Health.

Mrs. Jennie W. Gilmore, Box 44, White Oak, Ind. Ter., writes: "Six years ago I had la grippe, which was followed by systemic catarrh. The only thing I used was Peruna and Manalin, and I have been in better health the last three years than for years before. I give Peruna all the credit for my good health."

Pe-ru-na--A Tonic After La Grippe.

Mrs. Chas. E. Wells, Sr., Delaware, Ohio, writes: "After a severe attack of la grippe I took Peruna and found it a very good tonic."

"Most Effective Medicine Ever Tried For La Grippe"

Robt. L. Madison, A. M., Principal of Culowhee High School, Painter, N. C., is Chairman of the Jackson County Board of Education. Mr. Madison says: "I am hardly ever without Peruna in my home. It is the most effective medicine that I have ever tried for la grippe."

Mrs. Jane Gift, Athens, O., writes: "I had la grippe very bad. My husband bought Peruna for me. In a very short time I saw improvement and was soon able to do my work."

Suffered Twelve Years From After- Effects of La Grippe.

Mr. Victor Patneade, 328 Madison St., Topeka, Kas., member of Knights and Ladies of Security, writes: "Twelve years ago I had a severe attack of la grippe and I never really recovered my health and strength--but grew weaker every year until I was unable to work."

"Two years ago I began using Peruna and it built up my strength so that in a couple of months I was able to go to work again."

"This winter I had another attack of la grippe, but Peruna soon drove it out of my system."

"My wife and I consider Peruna a household remedy."

The United States Agricultural Experiment Station has established an experimental station on our farms to test all kinds of vegetables especially cabbages. The results of these experiments will be pleased to give you at any time--Yours respectfully,--N. H. BLITCH COMPANY, REGO, S. C.

A Rippling Dream.
When my uncle first started in business as a general merchant in a country town it was in partnership with a young fellow of about his own age.

Both boys were very enthusiastic about their work, and after long days behind the counter they would go to their room above the store and continue to "talk shop" far into the night.

My uncle's partner was particularly engrossed in his work, and often his sleep was disturbed by dreams of customers and big sales.

One night his nightmare reached the climax. Evidently the dreamer was just in the act of selling some cotton goods, for my uncle felt his night shirt go "r-r-r-p," straight up the back, while his partner was calmly saying:

"Two yards, madam?"--Lippincott's Magazine.

The Things We Eat.
Gregory E. Owens, a food inspector of Manchester, had an odd experience the other day.

He was examining the meat in a small butcher shop on a back street. The greater part of the meat was fairly good, but there was one lot of pork and beef that was rather questionable.

The butcher stood outside with a customer. The inspector called him in.

"Look here," he said, "what is your opinion of this meat here?"

The butcher looked it over.

"I had forgotten all about that," he said. "It is pretty old stock."

"Well, what is your opinion of it?"

"My opinion," said the butcher slowly, "is that it is unfit for human food; but it might do for sausage."

DOCTOR CURED OF ECZEMA.

Maryland Physician Cures Himself--Dr. Fisher Says: "Cuticura Remedies Possess True Merit."

"My face was afflicted with eczema in the year 1897. I used the Cuticura Remedies and was entirely cured. I am a practicing physician, and very often prescribe Cuticura Resolvent and Cuticura Soap in cases of eczema, and they have cured where other formulas have failed. I am not in the habit of endorsing patent medicines, but when I find remedies possessing true merit, such as the Cuticura Remedies do, I am broad-minded enough to proclaim their virtues to the world. I have been practicing medicine for sixteen years, and must say I find your Remedies A. N. J. You are at liberty to publish this letter. G. M. Fisher, M. D., Big Pool, Md., May 24, 1905."

COMMERCIAL

R. G. Dun & Co.'s Weekly Review of Trade says:--

"Trade reports are more irregular, chiefly because of the vagaries of the weather. At some points results are all that could be desired, the new year starting with much heavier transactions than in 1905, but high temperature and excessive rains in other localities retard retail distribution of winter goods, and it is becoming necessary to reduce stocks by clearance sales. Nothing disturbs the vigorous preparations for spring business, which promises to make a most gratifying exhibit. Open weather is facilitating outdoor work, building operations progressing at an unprecedented pace for the season, and the Construction News reports permits issued in 1905 to a value of \$58,186,412, which is 40 per cent. in excess of the preceding year."

"Closing of large contracts for pig iron by the leading interest provided an element of strength in the iron and steel industry that improves the tone and makes the outlook for the first quarter most satisfactory. Buyers are more numerous in the primary markets for textile fabrics, although the increased interest thus far is confined almost entirely to purchases at second hands."

"Increased supplies have somewhat depressed the tone of country hides, but packer lines are fairly steady, and no division of the market has shown a normal decline in proportion to the seasonal deterioration in quality. Activity of Eastern wholesalers in handling samples indicates that original orders for fall shoes will be placed much earlier than in previous seasons."

"Failures for the week numbered 286 in the United States, against 335 last year."

Lived Within His Shell.
The man who has never heard of the civil war, and who exists only in the comic prints, had a prototype in France. It is related that Napoleon I. a year after becoming emperor, determined to find out whether there was any one in the world who had never heard of him. Within a fortnight the police of Paris had discovered a woodchopper of Montmartre, within Paris, who had never heard of Louis XVI, nor of Emperor Napoleon!
