Keith's Theatre.

The principal attraction at Keith's Chestnut Street Theatre, Philadelphia, this week is Horace Goldin, the world's foremost illusionist, who performs some of the most marvelous feats of modern times. As an extra attraction there is the great Duffin-Redcay troupe, giving the most sensational casting act in vaudeville. Others on the bill are Willie Eckstein, the boy pianist; Monroe, Mack and Lawrence, in a one-act play ; James J. Morton, the man of infinite jest; the three funny Mitchells, the Schubert quartette, Kitty Stevens, Caprice, Lynn and Fay, Phil and Nettie Peters, Rado and Bertram.

Licenses Refused.

The court granted liquor licenses Monday. Those who were refused

are appended: James Black, Philipsburg, wholesale Charles F. Bechdel, Liberty, tavern H. T. Hamilton, Rush, wholesale Sander Gilfand, Philipsburg, wholesale Jesse B. Cox, Pleasant Gap, tavern George J. Kachik, Snow Shoe, tavera Ed. C. Beezer, Rush, wholesale Charles Moerschbacher, Bellefonte, tavern These applications for tavern license

were held over: LICENSES HELD OVER Dorsey Meyer, Philipsburg Tempest Slinger,

Thomas Barnes, Christ North, Samuel Rodgers. Coburn House, Coburn Milesburg Hotel, Milesburg

The court heard the arguments for and against applicants Saturday, and Tuesday morning the court's decision was handed down.

Letter to J. H. Ross. Linden Hall, Pa.

Dear Sir : The cheap paint to buy is the one that covers more than you think; the cheap one to wear is the one that is young when old.

Mrs. Moore, of Kelsey, N. Y., bought 16 gallons Devoe to paint her house two coats; her painters said it would take that. Had 6 gallons left.

Mr. James Ackley's house in Cairo (Catskill Moutains), N. Y., was painted Devoe; it wore 14 years and the paint was in good condition then. He was going to paint, the last we know, though. That's the way to preserve a house, repaint when there's

no occasion. Yours truly F. W. DEVOE & Co., New York. Kreamer & Son sell our paint.

EARLY USE OF SERUM URGED

Dr. Dixon Points Out the increased Benefit of Using Antitoxin As Soon As Possible After the Onset of the Disease - Use Liberally For Immunizing.

The free distribution of Diphtheria Antitoxin inaugurated by Dr. Samuel G. Dixon, Commissioner of the new State Department of Health, is already showing a splendid saving of precious lives. Out of the total number of cases reported to the Department of Health in January in which the free Antitoxin was administered there were so few deaths as to bring the death rate down to 8.8 per cent. This was a reduction of over 5 per cent. from the December figures. This low death rate as shown ferred by the Millheim degree team, by the January records means that instead of about 42 lives being lost out of Spring Mills. The following of- of every hundred cases of Diphtheria, as would be found where Antitoxin is not used, the disease was able to claim only about nine victims. It means that instead of 420 deaths out of every 1000 cases of Diphtheria, the death rate is brought down by the free distribution of Antitoxin to 88.

Health Commissioner Dixon feels confident that as the custom of free distribution of Antitoxin becomes more thoroughly established and the physicians of the State use the serum more promptly after the onset of the disease and in more liberal doses, the death rate will go far lower.

From city, town and country village all over the big State of Pennsylvania the physicians are sending in their reports that tell the story of little children stricken down by Diphtheria, and then of the arrest of the dread disease by the administering of the wonderful prophylactic-Antitoxin. Dread disease it hardly need be called any longer, or the hand of death that was formerly thought to have the little child Diphtheria was diagonsed, has now lost its power.

At the time that the State Department of Health is supplying Antitoxin for curative purposes, it is also furnishing the serum for immunizing. When the family physician is called into the humble home and reads upon the child's throat the signs that to his practiced eyè mean Diphtheria, he knows also that the little brothers and sisters of the sick child have by this time probably been exposed to the disease and may be stricken down at regular place of meeting of Centre any moment. No need for him to wait and see if any of these other children develop the symptoms of the disease He may immediately secure from the State's free distributing depots sufficient Antitoxin to immunize every one of the little ones, and the older members of the household, too, who have

been exposed to the infection. It is now the aim of the Health Commissioner to impress upon the physicians of the State the great importance of administering the Antitoxin in curative duses as soon as possible afer the onset of the disease, and the immunizing doses as soon as it is known that other children of the household have been in any way exposed to the disease. The importance of this early use is shown very clearly n the clinical reports that the State Department of Health receives in cases where the free Antitoxin has been used. The January records show in more than one case that if the Antitoxin had been administered earlier, and in sor cases more liberally, a

ife might have been saved Dr. Dixon greatly appreciates the cooperation he is getting from his fellow physicians throughout the state in securing to the people the full benefits of the free distribution of Diphtheria Antitoxin, On their part the physicians are daily telling of the benefits experi-

enced by them in their practices. Dr. S. F. McDonald, of Lawrence ounty, writes to the commissioner: I am prelosing clinical report of the correhold of diphtheria treated with the department Antitoxin. The results were very gratifying. I feel that the furnishing of such for the poor is a boon to scientific medicine, a great aid to the physicians of the state, and a very much needed charity to the poor."

"It was a matter of life or death with his patients," writes Distributor Houck, of Shenandoah, in telling of the rush of a physician to his depot for the purpose of securing a package of State's Antitoxin

"I am sure the Antitoxin has saved the life of the patient," writes Dr. N. Ziegenfuss, of South Bethlehem, on the bottom of one of his clinical reports received by the commissioner.

Dr. J. B. Tweedle, of Carbon county, tells of being called into a household diphtheria and adds on his report "the children all recovered and are doing

well." "Let me express my opinion that this is a Godsend for the poor. The parents of my patients send thanks to you and all connected," is the testimony of Dr. George H. Tibbins, of Wyoming county, to the value of the state's free

Antitoxin. At the 500 different points throughout the state where Health Commissioner Dixon has established a depot

of distribution, there is kept a supply of fresh Antitoxin that can be drawn upon immediately by the physician whenever he has a case of diphtheria in a family that cannot afford to bear the expense of the serum. The system that no valuable time may be lost in administering the Antitoxin, has been carefully worked out by the Department of Health. SUBLINA WITH

A Chicago Alderman Owes His Election to Chamberlain's Cough Remedy,

"I can heartily and conscientiously recommend Chamberlain's Cough surely in its grasp, the moment that Remedy for affections of the throat and lungs," says Hon. John Shenick, 220 So. Peoria St., Chicago. "Two years ago during a political campaign, I caught cold after being overheated, which irritated my throat and I was finally compelled to stop, as I could not speak aloud. In my extremity a friend advised me to use Chamberlain's Cough Remedy. I took two doses that afternoon and could not believe my senses when I found the next morning the inflammation had largely subsided. I took several doses that day, kept right on talking through the campaign, and I thank this medicine that I won my seat in the Coun-This remedy is for sale by C. W. Swartz, Tusseyville; F. A. Carson, Potters Mills.
