Suffered Severely With Eczema All Over Body-AThousand Thanks to Cuticura Remedies.

"For over thirty-five years 1 was a severe sufferer from eczema. The eruption was not confined to any one place. It was all over my body, limbs, and even on my head. I am sixty years old and an old soldier, and have been examined by the Government Board over fifteen times. and they said there was no cure for me. 1 have taken all kinds of medicine and have spent large sums of money for doctors, without avail. A short time ago I decided to try the Cuticura Remedies, and after using two cakes of Cuticura Soap, two boxes of Unticura Ointment, and two bottles of Cuticura Resolvent, two treatments in all. I am now well and completely cured. A thousand thanks to Cuticura. I cannot speak too nighly of the Cuticura Kemedies. John T. Rcach, Richmondale, Ross Co., Ohio, July 17, 1905."

R. G. Dun & Co.'s "Weekly Review of Trade" says:

Devastation on the Pacific coast and a widened breach between anthracite coal miners and operators were adverse trade factors of grave significance, but the nation as a whole is responsive to the favorable influence of good weather for spring business, agricultural under-takings and building operations. A special canvass of the Winter wheat situation shows little injury and large acreage, and structural work is not checked by the high prices of building materials. Manufacturing plants are fully occupied, except some dependent upon hard coal, and the chief complaint in most industries pertains to the supply of labor.

Railway earnings thus far available for April exceed last year's by 7.4 per cent.

Better reports are received from leading departments of the iron and steel industry than at any previous time this year.

Further advances in priges of hides are noted, owing to a fair inquiry and limited available supplies of desirable hides

Scientist's Request.

Speaker Cannon was talking about the queer requests he received for appropriations from investigators of various kinds.

"One time a government scientist asked for \$18,000 for the study of astrophysical science. I asked him what he meant by astrophysical. And what do you think he told me?

"'Why,' said he, 'astrophysical is the study of the sun's rays behind the red.

"Think of it! Eighteen thousand of the government's good hard money for the study of the sun's rays behind the red!

"'What are the sun's rays behind the red?' I asked.

"'Why, the colors of the spectrum outside of the red,' the man of science replied.

'Can you see 'em,' I asked. "'No,' he replied, 'but I think I could if I had the \$18,000.'"

IN TOMB OF EGYPTIAN QUEEN.

Objects Found in Royal Sepulchre Thousands of Centuries Old.

Here from M. de Guerville's book is a description of the interior of the tomb of Queen Tia, wife of Amenhotep III., who lived 1500 B. C .:

"On the brick wall, which had until to-day separated it from the world, we could still see the marks of muddy hands-hands of men now for centuries dead, who had sealed it up as they thought for elernity. The dead centuries rose up before us as though alive.

"On the middle of the coffin a pink cushion lay carelessly thrown; at the side was a chair of modern appearance, rather in the empire style, yet with I know not what of Egyptian. Farther away was a gilded armchair with straight legs, which recalled the style of Louis XVL, and, facing it, yet another quite Egyptian. Here, too, was a charlot covered with leaf gold. complete with its wheels, pole and yoke.

"Here also a complete suite of furniture, large chests of black wood and seventy-two jars containing offerings and provisions, ducks, haunches of venison, meat-dried or mummifiedbread, wheat, and in others traces o the wine and perfume which they had contained.

Sultan's Big War Drum.

An interesting and unique war curio recently arrived at Khartum in the shape of the late Sultan Iambio's great war drum.

It is cut from a solid block of wood, and is intended to represent a buffalo. though, perhaps, the execution leaves something to the imagination. The whole thing is over 10 feet long, 41/4 feet high and 4 feet wide, and requires eight or ten men to carry it .--Wide World Magazine

"One large vase was overturned by accident and from it came a thick. yellowish matter-honey-and strange to say, at that very moment, we saw alighting on it a bee which had entered from without! At the side were objects of gold, ivory, silver, not to mention an enormous bunch of onions!"

What She Grasped.

The man on the street car with a newspaper happened to observe that the old lady next to him on the right seemed interested and he laid the paper aside and said:

"Madam, you have, of course, heard of the Panama canal enterprise?"

"I-I think I have, sir," she replied. "Think of it, madam-think of digging a great ship canal eighty miles long, and some of the way through hills fifty miles high!"

"Yes, sir."

"Think of the largest ships afloat passing through that canal!" "Yes, sir.'

"Think of the \$200,000,000 it will cost to complete the canal. Think of the stupendousness of the whole enterprise! Can you grasp it, madamcan you grasp it?"

"Well, no, sir," she replied, as she hitched around some more. "No, I can't say that I can, but I've got half a dollar and am on my way to market. and if you'll please tell me whether 'taters have gone up since yesterday I shall be a thousand times obliged to you."-Washington Post.

A Trained Nurse Discovered Its Effect

No one is in better position to know the value of food and drink than a trained nurse

Speaking of coffee a nurse of Wilkes Barre, Pa., writes: "I used to drink strong coffee myself and suffered greatly from headaches and indigestion. While on a visit to my brothers I had a good chance to try Postum Food Coffee, for they drank it altogether in place of ordinary coffee. In two weeks. after using Postum. I found I was much benefited and finally my headaches disappeared and also the indigestion.

"Naturally I have since used Postum among my patients, and have noticed a marked benefit where coffee has been left off and Postum used.

"I observe a curious fact about l'os tum used among mothers. It greatly helps the flow of milk in cases where coffee is inclined to dry it up, and where tea causes pervousness.

"I find trouble in getting servants to make Postum properly. They most al ways serve it before it has been bolled long enough. It should be boiled 15 or 20 minutes and served with cream. when it is certainly a delicious bever nge.'
