DISFIGURING SKIN HUMOR.
Impossible to Get Employment, as Face and Body Were Covered With Sores—Cured by Cuticura.

"Since the year 1894 I have been troubled with a very bad case of eczema which I have spent hundreds of dollars trying to cure, and I went to the hospital, but they failed to cure me, and it was getting worse all the time. Five weeks ago my wife bought a box of Cuticura Ointment and one cake of Cuticura Soap, and I am pleased to say that I am now completely cured and well. It was impossible for me to get employment, as my face, head and body were covered with it. The eczema first appeared on the top of my head, and it had worked all the way around down the back of my neck and around to my throat, down my body and around the hips. It itched so I would be obliged to scratch it, and the flesh was raw. I am now all well, and I will be pleased to recommend the Cuticura Remedies to all persons who wish a speedy and permanent cure of skin diseases. Thomas M. Rooster, 290 Prospect Street, East Orange, N. J. Mar. 30, 1905."

THE PASSING OF MATRIMONY.

It is woman's refusal to marry, and woman's restiveness in marriage—for the immense majority of our divorces are asked for by the wife—which so alarm us today. For both these facts there is the same explanation; the character of our women is changing faster than the character of matrimony. The women of the past were as children compared with the women of today. Some few great names there always were to show what was possible to the sex; but the majority were ignorant, weak, and absolutely isolated. Today in America our women are as well educated as men in many cases, often even more so; and then wide reading and general acquaintance with facts of life, past and present, together with rapidly increasing organization among them, gives them a character and courage previously unknown.

This change is not, as some thinkers claim, a morbid demand for maculine power and privilege. It has nothing to do with sex. It is the development of the humanness in woman.—Charlotte Perkins Gilman, in Harper's Bazar.

The first million-dollar life insurance policy ever written was bought by Geo. W. Vanderbilt in 1897. He was 35 years old at the time, and agreed to pay \$35,000 a year for 20 years. According to the World's Work, if he had taken out this policy 20 years ago, he would have paid in by this time \$700,000, which, at 4 per cent, compound interest, would have amounted to nearly \$1,100,000.

Doctor Was Fooled by His Own Case For a Time.

It's easy to understand how ordinary people get fooled by coffee when doctors themselves sometimes forget the facts.

A physician speaks of his own experience: "I had used coffee for years and really did not exactly believe it was injuring me, although I had palpitation of the heart every day.

"Finally one day a severe and almost fatal attack of heart trouble frightened me and I gave up both tea and coffee, using Postum instead, and since that time I have had absolutely no heart palpitation except on one or two occasions when I tried a small quantity of coffee which caused severe irritation and proved to me I must let it alone.

"When we began using Postum it seemed weak—that was because we did not make it according to directions—but now we put a little bit of butter in the pot when boiling and allow the Postum to boil full 15 minutes, which gives it the proper rich flavor and the deep brown color.

"I have advised a great many of my friends and patients to leave off coffee and drink Postum, in fact, I daily give this advice." Name given by Postum Co., Battle Creek, Mich.

Many thousands of physicians use Postum in place of tea and coffee in their own homes and prescribe it to patients. "There's a reason."

COMMERCIAL

New York, June 8.—R. G. Dun & Co.'s "Weekly Review of Trade" says: Current distribution of merchandise is largely dependent upon the weather, which varies widely according to locality. On the whole the week's results were encouraging, and monthly reports for May show splendid gains over last year's figures. Prices of commodities rose to the highest point in twenty years, \$106.794 on June 1 compared with \$106.059 a month previous, and \$98,759 a year ago.

In the iron and steel industry there is not only little machinery at the present time, but little prospect of any shut down in the near future, unless repairs necessitate such action.

Official and other indications of a large cotton crop and the further decline in price of that staple produced no definite effect upon the primary markets for manufactured goods. The weakest feature of the cotton goods industry at the present time is the utter absence of export demand. China is out of the market and a heavy accumulation of goods is noted at Shanghai, while the outlook for their absorption is far from promising.

"Bradstreet's" says: Wheat including flour exports from the United States and Canada for the week ended June 7 are 3,301,007 bushels, against 2,526,739 last week, 1,376,819 this week last year; 1,482,032 in 1904, and 4,191,317 in 1903. Corn exports for the week were 573,139 bushels, against 614,815 last week; 1,108,146 a year ago; 57,540 in 1904, and 824,815 in 1903.

LIFE'S LITTLE PLEASANTRIES

THE GREETING.
"Tick, tick," says the clock
Up above me on the wall,
"Time is going, past recall.
Why let old friend Duty knock
And not open up the door?
Or has Duty called before
And been told to call again?
Must she ever knock in vain?"

"Tick, tick." "Yes I hear,
But I'm busy now, you see—
Go away, don't bother me;
Come around again next year
When I have more time to spare.
What? It's Chance that's knocking
there?
Come right in; why, howdy do?
I've been long expecting you!"
—Charles E. Nettleton, in Puck.

WHY SHE HALTED.
"So she isn't going to apply for a divorce from Richley, after all?"
"No; she learned that there were three other girls who were crazy to get him if he were free."—Philadelphia Ledger.

"Well, the first coat of the machine is the least; the running expenses and repairs cut a figure, but it's all right if you can stand the fines."—Baltimore American.

NOT ELIGIBLE.

EVIDENTLY THIN.

"Does it, sah. Dat's our best stock soup, sah."
"Then it must be watered stock. I spilled some on the tablecloth, and it didn't leave the slightest stain."
—Cleveland Plain Dealer.

THERE'S THE RUB.
"Do you think a mathematician is likely to make a good business man?" asked the student.
"Not necessarily," answered Mr. Dustin Stax. "A mathematician can pile up long rows of figures. But the hard part of the trick is to get the dollar mark in front of them."—Washington Star.

EXPLANATION.
"Bridget," said Mrs. Wasterby, who had a couple of prominent people to dinner and was trying to make an impression, "it seems to me the coffee looks a trifle weak."
"It ain't the coffee's fault, ma'am," replied Bridget. "Tis too much crame ye put in it. You ain't used to crame, ma'am."—Philadelphia Press.

THE GORKY SCHOOL.
A man heard a suspicious noise one evening on his porch. He went out and discovered his wife eloping with a stranger.
"Who are you?" he demanded.
"I am a disciple of Gorky," the stranger replied, "and if you had the first instincts of a gentleman you would refrain from meddling with my domestic affairs."—Cleveland Plain Dealer.

ENTERTAINING THE FANS.
"That's a very good natured crowd at the ball game, isn't it, George?"
"I guess it is, my dear—when the umpiring suit is. But why do you think it's good natured?"
"I noticed that whenever I asked any question about the game everybody laughed."—Cleveland Plain Dealer.

AN EMBARRASSING ORDER.

A man entered a well-known restaurant in New York the other day and beckoned to a waiter. "Bring me," he said, "two fried eggs—one fried on one side and one on the other."
The waiter looked slightly puzzled, but answered, "Yes, sir," and disappeared toward the kitchen.
Ten minutes later he returned, looking decidedly worried.

"Would you mind repeating that order, sir?" he asked.
"I want two fried eggs," said the diner; "one fried on one side and one on the other."
The waiter again disappeared in the direction of the kitchen. After a longer wait than before he returned, his clothes disheveled, and his face bruised and scratched.
"I beg your pardon, sir," he said, "but would you mind having boiled eggs? I've had words with the cook."—Harper's Weekly.

GETTING USED TO BILLS.
"Soft" money has been tried in San Francisco since the disaster, and apparently to the surprise of the people, found to answer every purpose of the gold and silver they formerly handled. If the re-constituted one of the radical differences between the old San Francisco and the new. Heretofore paper money in that city has been used only at the banks and hotels. In the ordinary channels of circulation there was no use of it. The wage earner received his pay in coin; with it paid his living expenses, and so seldom saw a bank note that he hardly realized the existence of such a medium; while the small shopkeeper refused paper money when tendered by a stranger on the plea that he was so unfamiliar with it that he could not tell the real from counterfeit.—Philadelphia Public Ledger.

INTERESTING LETTER

WRITTEN BY A NOTABLE WOMAN

Mrs. Sarah Kellogg of Denver, Colorado, writes to the Woman's Relief Corps, sends thanks to Mrs. Pinkham.

The following letter was written by Mrs. Kellogg of 1628 Lincoln Ave., Denver, Col., to Mrs. Pinkham, Lynn, Mass.:
Dear Mrs. Pinkham:
For five years I was troubled with a tumor, which kept growing, causing intense agony and great mental depression. I was unable to attend to my house work, and life became a burden to me. I was confined for days to my bed, lost my appetite, my courage and all hope. I could not bear to think of an operation, and in my distress I tried every remedy which I thought would be of any use to me, and reading of the value of Lydia E. Pinkham's Vegetable Compound to sick women decided to give it a trial. I felt so discouraged that I had little hope of recovery, and when I began to feel better, after the second week, thought it only meant temporary relief, but to my great surprise I found that I kept gaining, while the tumor lessened in size.

"The Compound continued to build up my general health and the tumor seemed to be absorbed, until, in seven months, the tumor was entirely gone and I a well woman. I am so thankful for my recovery that I ask you to publish my letter in newspapers, so other women may know of the wonderful curative powers of Lydia E. Pinkham's Vegetable Compound."

When women are troubled with irregular or painful periods, weakness, displacement or ulceration of the female organs, that bearing-down feeling, inflammation, backache, flatulence, general debility, indigestion or nervous prostration, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles.
No other medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female ills.
Mrs. Pinkham invites all sick women to write her for advice. She is daughter-in-law of Lydia E. Pinkham and for twenty-five years under her direction and since her decease has been advising sick women free of charge. She has guided thousands to health. Address, Lynn, Mass.

Remember that it is Lydia E. Pinkham's Vegetable Compound that is curing women, and don't allow any druggist to sell you anything else in its place.
