

**TORTURED WITH GRAVEL.**

Since Using Doan's Kidney Pills Not a Single Stone Has Formed.

Capt. S. L. Crute, Adj. Wm. Watts Camp, U. C. V., Roanoke, Va., says:

"I suffered a long, long time with my back, and felt draggy and listless and tired all the time. I lost from my usual weight, 225, to 170. Urinary passages were too frequent and I have had to get up often at night. I had headaches and dizzy spells also, but my worst suffering was from renal colic. After I began using Doan's Kidney Pills I passed a gravel stone as big as a bean. Since then I have never had an attack of gravel, and have picked up to my former health and weight. I am a well man, and give Doan's Kidney Pills credit for it."

**NOT DISQUALIFIED.**

The judge had his patience sorely tried by lawyers who wished to talk and by men who tried to evade jury service. Between hypothetical questions and excuses it seems as if they never would get to the actual trial of the case. So when the puzzled little German who had been accepted by both sides, jumped up, the judge was exasperated.

"Shodge!" cried the German.  
 "What is it?" demanded the Judge.  
 "I think I like to go home to my wife," said the German.  
 "You can't," retorted the Judge. "Sit down."  
 "But Shodge," persisted the German. "I don't think I make a good shour."  
 "You're the best in the box," said the Judge. "Sit down."  
 "What box?" said the German.  
 "Jury box," said the Judge.  
 "Oh, I thought it was a bad box that people get in sometimes."  
 "No," said the Judge, "the bad box is the prisoners' box."  
 "But Shodge," persisted the little German, "I don't speak good English."  
 "You don't have to speak any at all," said the Judge. "Sit down."  
 The little German pointed at the lawyers to make his last desperate plea.  
 "Shodge," he said, "I can't make no-dings of what these fellers say."  
 It was the Judge's chance to get even for the many annoyances.  
 "Neither can anyone else," he said. "Sit down."  
 With a sigh, the little German sat down.—The Green Bag.

**WHEN TO STOP KISSING.**

A delicate question is about to be settled in the divorce courts of Chicago—namely: How soon after marriage may a man come home and neglect to kiss his wife, contenting himself with the general observation that "it is a fine evening?" Mrs. Lange bases her right of divorce on the fact that Mr. Lange adopted these tactics the day after marriage, and that, too, when she had her mouth puckered for a chaste conjugal salute. Undoubtedly Mr. Lange was too hasty. For 30, 60 or even 90 days after marriage a true lover is supposed to take no account of whether conditions; at the end of a year he is presumably sufficiently seasoned to make such comments on atmospheric disturbances or the serenity of the evening as may pass the time harmoniously until dinner is served. But even then the conjugal kiss should be administered, if only as a measure of practice or domestic discipline. Fear the man, even bearing gifts, who neglects the family kiss the day after marriage. He is headed toward the divorce court.—Roswell Field, in Chicago Evening Post.

**FAD OF GERMAN KAISER.**

The Kaiser's latest fad is photography in three colors. He has a studio erected at his palace of Monbijon, and either works there himself or poses to others. It is the latter case he changes his costume up to 60 times—green coat, red coat, of the Order of the Garter, field marshal's uniform, with the baton in his hand, etc. These imperial photos are not private, and they will soon be exposed in the shop windows of Berlin.—London Tit-Bits.

**CLEVER DOCTOR**

Cured a 20 Years' Trouble Without Any Medicine.

A wise Indiana physician cured 20 years' stomach disease without any medicine, as his patient tells:  
 "I had stomach trouble for 20 years, tried allopathic medicines, patent medicines and all the simple remedies suggested by my friends, but grew worse all the time.  
 "Finally a doctor who is the most prominent physician in this part of the State told me medicine would do me no good only irritating my stomach and making it worse—that I must look to diet and quit drinking coffee.  
 "I cried out in alarm, 'Quit drinking coffee!' why, 'What will I drink?'"  
 "Try Postum," said the doctor; "I drink it and you will like it when it is made according to directions, with cream, for it is delicious and has none of the bad effects coffee has."  
 "Well, that was two years ago, and I am still drinking Postum. My stomach is right again and I know Doctor hit the nail on the head when he decided coffee was the cause of all my trouble. I only wish I had quit it years ago and drank Postum in its place." Name given by Postum Co., Battle Creek, Mich.  
 Never too late to mend. Ten days' trial of Postum in place of coffee works wonders. There's a reason.

**COMMERCIAL**

New York.—R. G. Dun & Co.'s "Weekly Review of Trade" says:

Relief from draught in many important farming sections restored prospects of bountiful harvests, and the business of the nation has maintained a volume that is exceptionally heavy for the season. Some evidences of conservatism regarding production beyond assured demands are noted, but in many of the leading industries contracts have been placed for the entire output during the balance of the year, while steel mills are booked well into 1907. One of the best features of the week was the settlement of coal mining troubles in Ohio, concessions being made by both contestants that resulted in resumption of work by 35,000 miners.

Winter wheat harvesting has begun, the usual complaint regarding the scarcity of labor being frequently heard. Railway earnings thus far available for June show a gain of 10.55 per cent. over last year's figures.

"Bradstreet's" says: Business failures in the United States for the week number 173, against 170 last week, 170 in the like week of 1905, 157 in 1904, 215 in 1903 and 171 in 1902.

Wheat, including flour, exports from the United States and Canada for the week are 1,760,669 bushels, against 3,329,242 last week, 975,832 this week last year, 1,271,437 in 1904 and 3,518,152 in 1903.

Corn exports for the week are 552,667 bushels, against 320,486 last week, 1,119,356 a year ago, 387,662 in 1904 and 1,285,724 in 1903.

**IN THE FIELD OF LABOR.**

A ladies' auxiliary to the Machinists' Union has been organized at Decatur, Ill. Carpenters at Portland, Me., have been granted an increase of 25 cents a day. There are 71,445 "factory hands" employed in the cotton mills in Japan and their average pay is 14 cents a day. The Miners' Federation of Great Britain, at a conference held in London, decided to remodel the miners' eight-hour bill.

**HOUSEHOLD TALKS**

**ENAMEL FINISH FOR SHELVES.**  
 An excellent idea for pantry shelves is to give them two coats of ordinary white paint and then a third finishing coat of white enamel. As soon as the enamel dries wash it over with cold water, and then it will harden quickly.

Do not cover these shelves with oil-cloth or paper, but leave them bare, and notice the improvement. As there are no covers under which crumbs, etc., can collect, there is nothing to encourage mice, and the enamel is easily cleaned with a damp cloth. With enamel shelves it is never necessary to clean out the whole pantry at once, for it keeps clean all the time.

**HANGINGS AND COVERINGS.**  
 Various causes have led to the marked improvement of the taste shown in the furniture, decorations and hangings of our houses during the last 20 years, but perhaps none have been stronger or had greater results than the attitude that has been taken by various large and influential firms in this matter.

These firms, having in stock the most exclusive designs from the models, have been a great factor in the education of the public taste.

Appreciating the fact that furniture of bygone ages—when the cabinet-maker's art was one of very high order—has been much sought after and used by nearly everyone for some years, said great firms have had so forth reproduced after the fine old originals, so that if a room should be Tudor, Jacobean, Queen Anne, Chipendale, Adam or Sheraton in style, the hangings, chair covers, etc., can be perfectly in harmony and of the same date as that style.

At this time of year most of us are thinking of renewing curtains, chair and other furniture covers, bedspreads, etc., and our great desire is to find something pretty and that will harmonize with our rooms both in coloring and style. We may have gone to great expense to get a room decorated and furnished according to a celebrated period or perhaps are trying by degrees, to collect furniture of a certain style; we do not want to spoil everything by a hanging or covering that is an anachronism, and there's no necessity of doing so.—Philadelphia Record.

**THINGS BANISHED BY GOOD TASTE.**

The House Beautiful once published a list of things nobody ought to buy for the house. It is good enough to reprint. "What we do not want: Parlor furniture, carpets, lace curtains, ready-made curtains, hat racks, umbrella holder, made draperies, gilt picture frames, small gilt chairs, grillwork, ornaments, colored lamps, ready-made china cupboards, slide-boards, bookcases, gas-log, sofas, upholstered chairs, jardiniers of glazed china." Built-in china closets and china shelves were preferred to ready-made pieces, and a piano was wanted only if the family was musically inclined.

**CHILD'S AWFUL SKIN HUMOR.**  
 Screamed With Pain—Suffering Nearly Broke Parent's Heart—Speedily Cured by Cuticura.

"I wish to inform you that the Cuticura Remedies have put a stop to twelve years of misery I passed with my son. As an infant I noticed on his body a red spot, and treated same with different remedies for about five years, but when the spot began to get larger I put him under the care of doctors. Under their treatment the disease spread to four different parts of his body. The longer the doctors treated him the worse it grew. During the day it would get rough and form like scales. At night it would be cracked, inflamed and badly swollen, with terrible burning and itching. When I think of his suffering it nearly breaks my heart. His screams could be heard down stairs. The suffering of my son made me full of misery. I had no ambition to work, to eat, or to sleep. One doctor told me that my son's eczema was incurable, and gave it up for a bad job. One evening I saw an article in the paper about the wonderful Cuticura and decided to give it a trial. I tell you the Cuticura Ointment is worth its weight in gold, and when I had used the first box of Ointment there was a great improvement, and by the time I had used the second set of Cuticura Soap, Ointment and Resolvent my child was cured. He is now twelve years old, and his skin is as fine and smooth as silk. Michael Steinman, 7 Sumner Avenue, Brooklyn, N. Y., April 16, 1905."

**ONE THING THEY HAD ESCAPED.**

A young disciple of Blackstone, who had worked his way through college and taken a full course in the study of law besides, was making a trip through the Southwest in search of an eligible location for the practice of his profession. A thrifty young city, with a considerable body of water on one side of it and a forest on the other, attracted his attention, and he decided to make a few days' stay there and investigate.

"Putting up" at what seemed to be the best hotel, he ate his dinner, then strolled into the office and proceeded in a careless way to interrogate the clerk. "There is a good deal of business done in this town, isn't there?" he asked. "Yes, sir," answered the young man. "In one way and another there's a good jag of business going on here."

"Healthy place, isn't it?" "Middling."

"Is there much litigation here?" "No; I haven't heard of any cases of that; but there's a lot of chills and fever, and occasionally a pretty bad case of the grip."—Youth's Companion.
