

BACKACHE IS KIDNEYACHE.

Get at the Cause—Cure the Kidneys.

Don't neglect backache. It warns you of trouble in the kidneys. Avert the danger by curing the kidneys with Doan's Kidney Pills.

"I wrenched my back working in a sawmill, was laid up six weeks, and from that time had pain in my back whenever I stooped or lifted. The urine was badly disordered and for a long time I had attacks of gravel. After I began using Doan's Kidney Pills the gravel passed out, and my back got well. I haven't had backache or bladder trouble since."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Bull In Journalism.

Of a well-known reporter of a past generation many curiosities of style are still repeated with zest by Dublin journalists. It was this man who explained, describing a case of drowning of Dalkey: "The body was washed ashore by a receding wave."

The Highest Clouds.

During the past year a committee appointed by the Carnegie Institution at Washington has been engaged in measuring the height of clouds with the aid of photography. Simultaneous pictures of a cloud are made by two cameras placed 600 feet apart and connected by telegraph wires.

Origin Of Poodle.

Why is a poodle so called? Some one says: "Probably the natural answer would recall the old lady who said that no credit could be given to Adam for naming the pig, since anybody would have known what to call it. 'Poodle' seems so obvious a name for this dog. And in fact, this is not far from the truth about the origin of the word. It is quite recent in English, not being found before 1864, apparently. It is the German 'puddel,' which comes from the low German 'puddeln,' to waddle, and the dog must have been so called, as Skeat says, either because he waddles after his master or because he looks fat and clumsy on account of his thick hair."—Chicago News.

As Well As Their Clans.

It is given out that Mr. Sullivan "will fight Mr. Bryan to a finish." Whose?—Chicago Tribune.

What difference does it make?—Indianapolis News.

Sort of Kilkenny cat affair, it may prove to be. "More power to their respective elbows."—Brooklyn Standard Union.

GOOD NIGHT'S SLEEP.

No Medicine So Beneficial to Brain and Nerves.

Lying awake nights makes it hard to keep awake and do things in day time. To take "tonics and stimulants" under such circumstances is like setting the house on fire to see if you can put it out.

The right kind of food promotes refreshing sleep at night and a wide-awake individual during the day.

A lady changed from her old way of eating to Grape-Nuts and says: "For about three years I had been a great sufferer from indigestion. After trying several kinds of medicine the doctor would ask me to drop off potatoes, then meat, and so on, but in a few days that craving, gnawing feeling would start up and I would vomit everything I ate and drank."

"When I started on Grape-Nuts, vomiting stopped, and the bloating feeling which was so distressing disappeared entirely."

"My mother was very much bothered with diarrhea before commencing the Grape-Nuts, because her stomach was so weak she could not digest her food. Since using Grape-Nuts she is well, and says she doesn't think she could live without it."

"It is a great brain restorer and nerve builder, for I can sleep as sound and undisturbed after a supper of Grape-Nuts as in the old days when I could not realize what they meant by a 'bad stomach.'" There is no medicine so beneficial to nerves and brain as a good night's sleep, such as you can enjoy after eating Grape-Nuts."

Name given by Postum Co., Battle Creek, Mich.

"There's a reason."

NEW YORK DAY BY DAY.

Some of the Things Done Daily in the Metropolis.

Orders Caps For Police.

Rhinelanders Waldo, First Deputy Police Commissioner, issued an order that when approaching winter retires the summer helmets, caps shall be substituted. A policeman in a cap will be a novel sight for New Yorkers. At present caps are to a certain extent insignia of rank, being worn by sergeants, captains and inspectors. The traffic squad and mounted police, the bicycle squad and the motor cycle squads wear caps, but they are of a distinct design, and are not to be confused with those of the officers.

Head Crushed In Elevator.

Miss Sarah A. Fletcher, a public stenographer, was instantly killed in the Townsend Building in an elevator. Miss Fletcher tried to leave the car before the floor had been reached, and the elevator boy placed his arm across the door to prevent her egress. The woman pressed against his arm and he involuntarily pulled the lever. The car shot up and Miss Fletcher's head was crushed against the top of the doorway and the floor of the car.

Tried To Burn Babies.

The most cruel attempt at revenge or the strangest manifestation of insanity probably ever dealt with by the Police Department was brought to public notice here, when it was learned that twice in four days efforts have been made to burn infants in their carriages on the block known as "Baby Carriage Row," where, every day, 250 helpless infants are seen. Because of the work of the maniac mothers will not let their smaller children out of their sight.

Died In Undertaking Shop.

Walking into the rear room of an undertaker's shop where bodies are prepared for burial, Henry Krekel, a ticket speculator, who was known as "Handsome Harry" before his dismissal from the police force, committed suicide by shooting himself in the mouth. Krekel was one of the best known ticket speculators in the city and was conspicuous along Broadway, where he conducted a handbook on the races.

Child Hit By Car Unhurt.

Five-year-old Grace Kaufman, while crossing Madison Avenue, was knocked down by a swiftly moving northbound car. She fell under the front of the car and was dragged along for several feet. The end of the car had to be lifted up to get her out, and everybody in the crowd thought she must have been killed, for she made no noise. The girl was, however, only slightly bruised.

"Pat" Crowe Arrested.

"Pat" Crowe, of Omaha, who became notorious through his connection with the Cudaly kidnaping case, and who recently came to this city, was arrested Tuesday. Crowe was charged with being a suspicious person. The police were unable to find a record of a case against him in which he was wanted, however. After being at headquarters about an hour he was released.

Many Illegal Divorces.

In compiling the statistics of the divorces granted in the county of York, William N. Jarvis, of the Washington Census Bureau found that in many cases the judgments have not been entered upon the records and duly filed. The result is that no decision has been placed upon record and the parties have not been legally divorced. If made public, this would make bigamists of many couples married in good faith.

Accused Motorman Gone.

Notwithstanding its promise that it would have Motorman De Moss Cosmicos on hand when Coroner Brewer opened the inquest into the death of Fannie Rodinsky, the B. R. T. officials failed to produce the man. They said that they had searched everywhere, but could not find him. This statement angered the Coroner, who declared he would no longer rely on the pledge of the Railroad Company, but would undertake to find the motorman himself.

Sculptor Weds At 70.

J. Q. A. Ward, the veteran sculptor, married his landlady on July 19, and succeeded in keeping the wedding a secret until Thursday. He is 76 years old, and this is his third marriage. The new Mrs. Ward was a widow, Mrs. R. M. Ostrander Smith. The sculptor is well known because of his statue of Washington in Wall Street.

Woman Smashes Tramp.

As Miss B. Sheldon and Mrs. B. Rogers of Newark were cycling through woods, a tramp jumped into the road and grabbed the handle-bar of Miss Sheldon's machine. Mrs. Rogers ran her wheel into the couple, knocking them both down. The man then seized Mrs. Rogers whom he attempted to drag off the road. Miss Sheldon picked up a large stone, and, smashed him in the face with it. The man, with his face bleeding, disappeared in the woods.

Killed By Locomotive.

Syracuse, N. Y., (Special).—A peculiar accident occurred here, resulting in the death of George Carberry, 30 years old, while asleep in his bed. A shifting engine on the West Shore siding went over a tie crosswise of the tracks, tore down a telegraph pole and flag shanty and crashed into the Carberry house. The second story fell in on the first, pinning Carberry in his bed. Three of the family on the second floor escaped serious injury.

STATE OF PENNSYLVANIA.

Latest News Gleaned From Various Parts.

J. R. Mosteller, a bee raiser, of Royersford, is besieged by numerous persons for the use of his bees for the cure of rheumatism. Councilman Howard Buchanan was the first to try the new remedy, and the results were so satisfactory that other persons have taken the remedy. John Anthony has been given such great relief that he has dispensed with his crutches. Lewis Deegan, another convert, has been given relief. A prominent business man of Pottstown, who has suffered for years, was stung eight different times by Pratt's golden-all-over bees, which are the kind exclusively used for the rheumatic cure. Mr. Mosteller will now begin to charge a fee, the same as regular doctors, for his service. He says it is more profitable than raising honey.

William Laffert, a Lehigh Valley electrician in charge of signals along the Mountain Cut-off branch, near Pittstown, was held up with a revolver by a tramp and relieved of his money. He was then allowed to depart, but had only gone 100 feet when the tramp remembered he had forgotten to ask for Laffert's watch. He yelled to him to halt and come back. Laffert refused and the highwayman fired two shots, one of which passed through Laffert's coat and the other his trousers, both grazing the skin. Laffert ran and escaped.

Coming in contact with a heavily charged electric light wire while he was working to clear a telegraph wire, John Hascher, a lineman, of Allentown, was shocked into insensibility while on top of a forty-foot pole, and, but for the merest chance would have plunged to the ground, probably to be killed. Hascher's foot caught in several other wires, however, and the man hung suspended in midair several minutes before his plight was noticed by passersby and he was lowered to the ground by ropes, still insensible.

From Seigersville, comes perhaps the most remarkable potato story of the season, and, in connection, just as remarkable a chicken story. Several days ago, it is stated, a farmer of that vicinity, while working in a field, discovered a hen which was setting on several eggs. Investigation showed that the nest was nothing more nor less than a large potato which the fowl had pecked hollow, laid four eggs in, and then began to hatch the eggs.

E. J. Rosenberry, a blind man, Altoona, was the possessor of two well-trained and faithful dogs, which acted not only as his protectors, but as his guides on the street. A day or two ago Walter Foutz shot the dogs, killing one outright and so badly maiming the other that it had to be put to death. Foutz was arrested and held for examination. It is not known what reason he had for killing Rosenberry's faithful friends.

By the collapse of a pillar in the Indian Ridge mine, Shenandoah, two miners, Joseph Cresavage and John Guber, were closed in a breast for five hours and there was great excitement, as the men made known the fact that they were living by tapping with mine drills upon the remaining pillar. Their families were greatly relieved when the men were released unhurt, but almost dead from bad air and shock.

William Putnavek, Charles Sukalockie and Joseph Yorks were committed to jail by a Shamokin Justice, charged with having caused the death of Stanislaus Velitsky. The men were arrested on the aforementioned statement of the man, who died in the Miners' Hospital. He alleged that while on his way to Springfield he was held up by the men and beaten senseless with clubs, his skull being fractured. He stated he did not know why he was molested.

Lynn Hill, aged 18 years, the son of Marvin Hill, of Gresham, was drowned in Oil Creek, Titusville, while bathing. Young Hill was one of a picnic party. Several companions were with him when the young man got in deep water and was taken with cramps. He sank in sight of the other boys. The body was recovered.

The Haytock Silk Throwing Company which has applied for a charter has purchased the unoccupied plant formerly operated by the Lawrence Organ Works in Easton. The incorporators are W. T. Haytock, Benjamin Haytock, Jr., C. Cronemeyer and John Haytock. The same interests operate the plant of the Easton Silk Company which is near the Lawrence plant.

J. W. Criswell, of Steelton, has been appointed Chief Fish Warden by the State Board of Fisheries at \$80 a month. Mr. Criswell will have his office in the State Fisheries Department, and will be in charge of all the Fish Wardens in Pennsylvania.

While attempting to remove the poison fangs from a rattlesnake, David Myers, of Hughesville, was bitten on the hand by the snake and may die, as his body is swollen and mottled in appearance, much like that of a snake.

Twenty-seven clergymen of different denominations attended the funeral of Rev. L. W. Royer, of Terre Hill, which was held at Millersville. The services were conducted by Presiding Elder A. M. Samsel and Rev. C. S. Harman, of Reading, a half dozen other clergymen assisting.

The McCall's Ferry Power Company has purchased a tract of woodland from P. A. & S. Small Land Company, of York, amounting to about four hundred acres. The land is heavily wooded. The timber will be used for erecting the large power plant.

Shortly after eating canned salmon Mr. and Mrs. Robert Wisely and Mr. and Mrs. Robert Measures and daughter, of Nesquehoning, became violently ill and two physicians worked several hours before they were pronounced out of danger.

COMMERCIAL.

New York.—R. G. Dun & Co.'s Weekly Review of Trade says:

Abundant crops and an oversold steel industry engender sentiments of confidence that make the outlook bright for a continuance of present prosperous business conditions. Each week brings a new high water mark in some department, and the net result is uniformly better than for the corresponding week in any previous year. The weather has favored both crops and the distribution of merchandise, while the latter is increased by seasonable bargain sales. Despite unprecedented preparations for business by liberal purchase of rolling stock, the railways are facing a serious traffic blockade that cannot be avoided when the crops begin to move freely.

No relief appears as to the supply of labor, production being reduced in some cases where consumers are most urgent. Fall dry goods jobbing trade broadens, clothing manufacturers make heavy shipments and the leading industries are usually supplied with orders assuring active machinery well into next year.

Failures this week numbered 176 in the United States, against 218 last year, and 16 in Canada, compared with 28 a year ago.

Wheat, including flour, exports from the United States and Canada for the week are 2,877,954 bushels, against 2,262,961 last week, 1,068,519 this week last year, 1,793,047 in 1904 and 6,665,898 in 1901.

Corn exports for the week are 525,773 bushels, against 1,292,638 last week, 1,177,939 a year ago and 520,362 in 1904.

WHOLESALE MARKETS.

Baltimore.—FLOUR—Dull and unchanged; receipts, 13,580 barrels; exports, 284 barrels.

WHEAT—Weak; spot, contract, 71 1/2 @ 71 3/4; spot No. 2 red Western, 74 1/2 @ 74 3/4; August, 71 1/2 @ 71 3/4; September, 71 1/2 @ 71 3/4; December, 70 1/4 @ 70 3/4; No. 2 red, 66 1/2 @ 66 3/4; receipts, 69,964 bushels; Southern by sample, 30 @ 62; Southern on grade, 68 1/2 @ 71 1/2.

CORN—Easier; spot, 54 1/2; August, 54 1/2; September, 54 1/2 @ 54 3/4; year, 48 1/2 @ 48 3/4; steamer, mixed, 53 1/4; receipts, 1,666 bushels; Southern white corn, 58 1/2 @ 59 1/2; Southern yellow corn, 56 @ 58.

OATS—Steady; new No. 2 white, 37 @ 37 1/2; No. 3 white, 36 @ 36 1/2; No. 2 mixed, 35 bid; receipts, 16,731 bushels.

RYE—Firm; No. 2 Western export, 58; No. 2 Western domestic, 60 @ 61.

BUTTER—Steady and unchanged; fancy imitation, 19 @ 20; fancy creamery, 23 @ 24; fancy lard, 17 @ 18; store-packed, 15 @ 16.

EGG—Firm; 20.

CHEESE—Active and unchanged; large, 12; medium, 12 1/2; small, 12 1/2.

SUGAR—Steady and unchanged; coarse granulated, 5 1/2 @ 5 1/4; fine, 5 1/2.

New York.—WHEAT—Receipts, 112,000 bushels; exports, 69,008 bushels; spot firm; No. 2 red, 77 @ 77 1/2; No. 2 red, 78 1/2 @ 79; No. 1 Northern Du-luth, 85 1/2 @ 86; No. 1, 86 @ 87; No. 2 hard winter, 79 @ 80; No. 1, 80 @ 81.

CORN—Receipts, 59,000 bushels; exports, 394 bushels; spot easy; No. 2, 55 1/2 @ 56; No. 2 yellow, 61; No. 2 white, 62.

HOGS—Market 5c to 10c higher; choice to prime, heavy, 6.25 @ 6.30; medium to good heavy, 6.00 @ 6.15; butcher weights, 6.00 @ 6.35; good to choice, heavy, mixed, 6.00 @ 6.15; packing, 5.60 @ 5.95; pigs, 5.60 @ 6.30.

SHEEP—Market steady; sheep, 4.25 @ 5.75; yearlings, 5.00 @ 6.35; lambs, 6.00 @ 7.85.

ODDS AND ENDS.

The carat used in estimating the weight of gems is a grain of Indian wheat. Scenery was first introduced into theaters by the famous Inigo Jones, in January, 1605. The first top buggies that appeared frightened horses far more than automobiles do now. The French company constructing the port of Rosario, Argentina, has opened to the service of shipping 1,004 yards of wharfage.

Errors About the White House.

To the Editor: I noticed somewhere recently—I would not say positively that it was in your columns—an article on the White House which contained several mis-statements.

In the first place it was stated the White House was first occupied in 1809, and that its first occupant was President Madison. The fact is, its first occupant was President Adams, who took up his residence there in 1800.

The original mansion was begun in 1792. In 1814 it was burned by the British and rebuilt in 1815.

Another of the errors in the article referred to was the statement that ready-prepared paint is used on the White House to make it beautifully white.

I noticed this especially because I have used considerable paint myself, and wondered that "canned" paint should be used on such an important building, when all painters know that pure white lead and linseed oil make the best paint.

It so happened also that I knew white lead and linseed oil—not ready-mixed paint—were used on the White House, because I had just read a booklet published by a firm of ready-mixed paint manufacturers, who also manufacture pure white lead. In that book the manufacturers admitted that for the White House nothing but "the best and purest of paint could be used," and said that their pure white lead had been selected.

Above all people those who attempt to write on historical subjects should give us facts, even if it is only a date or a statement about wood, or brick, or paint, or other building material. Yours for truth, L.

His Real Care.

"Doctor, isn't it a good deal of trouble to get up a sermon in such depressing wet weather as this?"

"No, young man; the only trouble I have is getting up a congregation."—Chicago Tribune.

WILD WITH ITCHING HUMOR.

Eruption Broke Out in Spots All Over Body—Cured at Expense of Only \$1.25—Thanks Cuticura Remedies.

"The Cuticura Remedies cured me of my skin disease, and I am very thankful to you. My trouble was eruption of the skin, which broke out in spots all over my body, and caused a continual itching, which nearly drove me wild at times. I got medicine of a doctor, but it did not cure me, and when I saw in a paper your ad, I sent you for the Cuticura book and I studied my case in it. I then went to the drug store and bought one cake of Cuticura Soap, one box of Cuticura Ointment and one vial of Cuticura Pills. From the first application I received relief. I used the first set and two extra cakes of Cuticura Soap, and was completely cured. I had suffered for two years, and I again thank Cuticura for my cure. Claude N. Johnson, Maple Grove Farm, R. F. D. 2, Walnut, Mass., June 1, 1905."

TUMORS CONQUERED.

SERIOUS OPERATIONS AVOIDED.

Unqualified Success of Lydia E. Pinkham's Vegetable Compound in the Case of Mrs. Fannie D. Fox.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, Tumor. The growth of a tumor is so sly that frequently its presence is not suspected until it is far advanced.

So-called "wandering pains" may come from its early stages, or the presence of danger may be made manifest by profuse monthly periods, accompanied by unusual pain, from the abdomen through the groin and thighs. If you have mysterious pains, if there are indications of inflammation or displacement, secure a bottle of Lydia E. Pinkham's Vegetable Compound right away and begin its use.

Mrs. Pinkham, of Lynn, Mass., will give you her advice if you will write her about yourself. She is the daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge.

Dear Mrs. Pinkham—

"I take the liberty to congratulate you on the success I have had with your wonderful medicine. Eighteen months ago my period stopped. Shortly after I felt so badly that I submitted to a thorough examination by a physician and was told that I had a tumor and would have to undergo an operation. Soon after I read one of your advertisements and decided to give Lydia E. Pinkham's Vegetable Compound a trial. After taking five bottles as directed the tumor is entirely gone. I have been examined by a physician and he says I have no signs of a tumor now. It has also brought my periods around once more, and I am entirely well."—Fannie D. Fox, 7 Chestnut Street, Bradford, Pa.

SUMMER RASHES

Soothed by Baths with Cuticura SOAP

And gentle applications of Cuticura, the great Skin Cure, and purest and sweetest of emollients.
