

CURED OF GRAVEL.

Not a Single Stone Has Formed Since Using Doan's Kidney Pills.

J. D. Daughtrey, music publisher, of Suffolk, Va., says: "During two or three years that I had kidney trouble I passed about 2 1/2 pounds of gravel and sandy sediment in the urine. I haven't passed a stone since using Doan's Kidney Pills, however, and that was three years ago. I used to suffer the most acute agony during a gravel attack, and had the other usual symptoms of kidney trouble—lassitude, headache, pain in the back, urinary disorders, rheumatic pain, etc. I have a box containing 14 gravel stones that I passed, but that is not 1/4 of the whole number. I consider Doan's Kidney Pills a fine kidney tonic."

Should Know His Own Mind. "I like a man with a mind of his own," said Mr. Stigley. "Right or wrong, I like a man who knows what he thinks and who is not afraid to speak it. I hate a man who doesn't know what he thinks, or who is afraid to say what he does think."

"Now, there's Jones. I say to Jones, on a lowly morning: 'What do you think, Jonesy. Think I'd better take an umbrella?' 'And Jones says: 'Take an umbrella? Why, within twenty-two minutes it will be raining blue, green, and purple pitch-forks; and if you haven't got a boller-iron umbrella with I-beam ribs you'll be speared to death and then drowned. Sure, you want an umbrella!'"

"Or suppose it had happened to be Robinson I asked; another man who knows what he thinks, and Robinson says: 'Umbrella? Foolish! In twenty minutes it'll be clear as a bell. All-blue sky.'"

"Now, of course, Jones and Robinson couldn't both be right, but I would rather lug an umbrella uselessly, following Jones, or get drenched following Robinson,—be led by a man who had a mind of his own and wasn't afraid to speak it—than to hear what I would get from Snibbly if I asked him: 'Better take an umbrella, hadn't I?' I say to Snibbly, to hear him saying: 'Ye-es, I suppose it would be safer.'"

"Snibbly doesn't know what he thinks about the weather or about anything else; and if he does know what he thinks, he doesn't say it. He sides in with me; he thinks it would be safer!"

"I like the man with a mind of his own, and he is everywhere the man that makes the wheel go round."

Two Wishes. "My husband," said Mrs. House-keep, "has been complaining a good deal lately because his dinner hasn't been served on time."

"Gracious!" exclaimed Mrs. Clubb, "I wish my husband would."

"Yes, because he'd have to come earlier to do it."—Philadelphia Press

Doubtful Compliment. Dick—Last season I was in the mountains and I tell you among the girls I was a lion. This year I am a lion here at the beach.

Dolly—Ah, I see. Last year you were a mountain lion and this year you are a sea lion.—Chicago News.

Sunday School Teacher—Why, Willie Wilson, Fighting again! Didn't last Sunday's lesson teach you that when you are struck on the cheek you ought to turn the other to the striker? Willie—Yes'm; but he hit me on the nose, and I've only got one.

An Oklahoma girl advertised for a husband and got him. The total expense for advertising, wedding outfit, etc., was \$11. He died within a year, leaving her an insurance policy of \$10,000. And yet some people claim that it doesn't pay to advertise.—Michigan National.

RIGHT HOME Doctor Recommends Postum From Personal Test. No one is better able to realize the injurious action of caffeine—the drug in coffee—on the heart, than the doctor.

When the doctor himself has been relieved by simply leaving off coffee and using Postum, he can refer with full conviction to his own case. A Mo. physician prescribes Postum for many of his patients because he was benefited by it. He says: "I wish to add my testimony in regard to that excellent preparation—Postum. I have had functional or nervous heart trouble for over 15 years, and part of the time was unable to attend to my business. "I was a moderate user of coffee and did not think drinking it hurt me. But on stopping it and using Postum instead, my heart has got all right, and I ascribe it to the change from coffee to Postum. "I am prescribing it now in cases of sickness, especially when coffee does not agree, or affects the heart, nerves or stomach. "When made right it has a much better flavor than coffee, and is a vital sustainer of the system. I shall continue to recommend it to our people, and I have my own case to refer to." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkgs. "There's a reason."

COMMERCIAL COLUMN.

Weekly Review of Trade and Latest Market Reports.

New York.—R. G. Dun's weekly review of trade says:

Unseasonably high temperature in some sections of the country retarded distribution of special sales reduced stocks of Summer merchandise to a most satisfactory position. High rates for money have delayed mercantile collections somewhat, and there is still complaint regarding the scarcity of labor, but confidence in the future remains unshaken. Preparations for Winter and Spring keeps machinery well employed, large crops are being secured and building operations are very heavy. The volume of domestic trade is beyond all records, and foreign commerce exhibited some striking comparisons. Total merchandise exports in August were valued at about \$12,000,000 more than the same month in any previous year, and imports rose \$10,000,000 above the preceding record for August.

Textile conditions have not materially altered, the mills operating a large percentage of machinery without having much new forward business.

Bradstreet's says: Wheat, including flour exports from the United States and Canada for the week aggregated 4,677,522 bushels, against 4,952,216 last week, 2,178,428 this week last year, \$64,373 in 1904 and 4,470,352 in 1901.

Corn exports for the week are 545,751, against 985,393 last week, 1,272,495 a year ago and 657,399 in 1904.

NEW YORK DAY BY DAY.

Some of the Things Done Daily in the Metropolis.

Rejects Spuyten Duyvil Bridge. It came out Thursday that the plans for the Hudson-Fulton memorial bridge over Spuyten Duyvil Creek had been disapproved by the Municipal Art Commission. There is every indication that the tercentenary celebration in 1909 will be a celebration with the bridge left out. The Bridge Department had presented plans for a steel bridge costing \$3,000,000. The Art Commission wants a stone bridge, and it does not care much what it costs.

"The Castle" Destroyed. Hatch Castle, one of the oldest and best-known girls' schools along the Hudson, was destroyed by fire. More than 150 pupils were expected at the Castle as it was generally called, by October 1. The Misses Mason, who conducted the school, are on their way home from Europe. The cause of the fire is unknown.

A Pure Food Crusade. Following recent revisions and additions to the sanitary code, Commissioner Burlington of the Department of Health commenced a crusade throughout the city against the sale of adulterated, misbranded, poisonous or deleterious foods, drugs, medicines and liquors. This action was determined upon at a meeting of the Board of Health.

Spanked Big Girl On Street. A sound spanking in the presence of a crowd of theatre-goers at Payton's in Brooklyn, on Monday night was the punishment given by her mother to 16-year-old Susie Fisher, who had run away from home. The girl was placed across her mother's bended knee, and the spansks were of the kind that hurt and are heard a long distance.

Policeman Kills His Assailant. Policeman John McSherry shot and instantly killed Charles Connor, McSherry arrested John McCarren for fighting, and on the way to the station house was attacked by Connor and Martin Casey. Connor threw a cobble-stone which hit the officer on the breast. McSherry drew his revolver and fired as Connor fell fly another stone. The latter fell dead. McSherry was arrested and charged with homicide.

Saw Fleas And Volcanoes. Saying he was Walter Finnegan, a man went to Flower Hospital and said he had an eruption of volcanoes in his ears every morning. The surgeons ordered him away. He returned later and told them myriads of fleas had taken possession of First Avenue. Finnegan was taken before Magistrate Whitman, who sent him to jail for 48 hours.

Tore Up Dresses For Bandages. Three young women proved themselves seriously hurt in a trolley collision. While a crowd of panicky men and women crushed around the brave trio they tore up their skirts to bandage the wounds of the injured. The crash occurred at Adams and High Streets, and four persons were injured when two cars smashed together during the rush hour.

Thaw Pejects Alienists. Harry K. Thaw showed again Friday that he has no intention of being guided by his counsel any farther than he thinks fit. Clifford W. Hartidge took with him to the Tombs three alienists. When Thaw found out who they were, he blurted out, "What is all this foolishness?" and, despite Mr. Hartidge's entreaties, he flatly refused to submit to an examination.

An Author Accused. Charles M. Pope, who said he was a writer, was locked up on a charge of grand larceny. Pope is alleged to have entered a jewelry store on September 11. He got a diamond crown brooch, a diamond bangle, a ruby bangle and a ring set with diamonds and pearls. All of this was valued at \$1900.

From Death Back To Life. Edward McElwain, of Yonkers, came back to life after lying apparently dead in a hospital for half an hour with stilled respiration, a heart that had ceased beating and a body that already had grown cold. The case is one of the most remarkable in the medical annals of the world.

STATE OF PENNSYLVANIA.

Latest News Gleaned From Various Parts.

Edgar G. Toner, recently defeated by a majority of one vote for the office of Chief Burgess of Tyrone, was made defendant in a \$25,000 breach promise suit in the Blair County Court. The plaintiff, Miss Elizabeth Gummo, avers that she has been cast aside by Toner, after a twelve years' courtship. The engagement, it is alleged, was made in Atlantic City, where both Mr. Toner and Miss Gummo have spent the past three summers. Miss Gummo avers that Mr. Toner broke the engagement recently and began courting a young woman in Philadelphia. The institution of the suit has created quite a sensation in the county, due to the social prominence of the parties.

Prospectors in the employ of the Philadelphia & Reading Coal and Iron Company & Gilberton and Draper Collieries have struck the Lykens vein, which runs over a mile in length and averages about twelve feet in thickness. The seam is said to be practically inexhaustible and will last for at least fifty years. In developing it, employment will be provided for several thousand men and boys. One of the richest beds of anthracite, its value is estimated at from \$50,000,000 to \$75,000,000. The discovery of the vein means much to the towns in the Mahanoy Valley and will tend to increase real estate values.

John Hart, a foreman for the Gaston Transit Company went into the house of Thomas Jones, at Alpha, it is claimed, and told Mrs. Jones of his ardent admiration for her. She slapped his face, pushed him out of the house and complained to the company engineer, Jenkins, who was in charge of the trackmen, and Hart identified by Mrs. Jones and then discharged him on the spot.

The management of the Centennial Agricultural Exhibiting Company has about completed arrangements for holding the fifth annual fair in Bellefonte October 9-12, and promise one of the biggest exhibitions ever held in the county. All ready applications for space in the exhibition building are so numerous that it has been decided to confine the fruit and grain exhibit to a separate department and a huge tent will be erected near the main building for this purpose.

Four Italians, who were friendly to Peter Muntiffo, who was twice murderously assaulted, and who left West Berwick upon receipt of a Black Hand notice, have notified Chief of Police Wetkik that they have received Black Hand notices to leave town and avoid injury or worse. The men are taking all possible precautions and remain indoors at night. They declare that they will not obey the warning, but begged Chief Wetkik to keep their names secret.

John Siltzer, of Shamokin, is recovering from a broken back. He is an inmate of the Miners' Hospital. Several weeks ago he fell from a building. He was paralyzed from the waist down. Since being admitted to the hospital he has lain on his back continuously. He has recovered the use of his limbs and control of the abdominal region. The physicians say his will be one of the most remarkable natural cures ever resulting.

Eber James, a Chester merchant, was convicted in court, at Media, of the charge of selling adulterated food. He is one of nine merchants of that city who were indicted on the same charge. The arrests were made as a result of facts discovered by the Pure Food Commission of the State Department of Agriculture, represented by A. H. Woodward, of Clearfield County. Witnesses for the Pure Food Commission were Special Agent H. L. Handcroft, West Chester; Prof. C. C. Cochran, of West Chester; Prof. Koenig, of Pittsburgh; and Mr. Bigelow, assistant chief under the Department of Agriculture at Washington. Agent Handcroft testified to buying a box of shredded codfish from James, which, on analysis, proved to contain about 1 per cent. boracic acid. There was no Jefferies. James admitted having sold the same brand of fish for fifteen years, and said he purchased it from a Philadelphia firm. He denied any knowledge that it contained poison, but his aid was not excused him under the act. Judgment was arrested pending the decision of the Supreme Court in some pure food cases before them. George Dunlay, L. E. Cooper, James Park, H. L. Powers and P. J. Scanlon, who conducted stores in Chester, were indicted on practically the same charge. They pleaded guilty and paid fines of \$50 each and costs.

The charter of the Columbia & Manor Street Railway was recorded, the line being capitalized at \$102,000. William Morns, of Columbia, is president. The line will join the network of the Conestoga Traction Company and it opens up a hitherto untouched region.

J. O. Loomis, aged 50, of Union City, president of the Union City Traction Company, and one of the wealthiest men in that part of Pennsylvania, was instantly killed, when his automobile was hit by a fast flying car on the trolley line at White's Corner. Fred Bendure, of Conneaut, O., who was in the automobile with Mr. Loomis, sustained injuries from which it is thought he cannot recover.

Jos. Bianga, of Hazleton, convicted of murder in the second degree of Dominick Mariscano, father of his child wife, who objected to their elopement, was sentenced to serve seventeen years. The court paid little attention to the jury's recommendation for mercy.

Harry Roop, one of the best known gamblers in Philadelphia, was convicted in court at Media of running a sweat game in Essington Township. Judge Johnson imposed a fine of \$500 and sentenced Roop to jail for a term of six months.

Too Truthful.

Norman Haggood, the journalist and essayist, is discussing American newspapers. "It is not enough that our papers shall tell the truth," he said. "Truth-telling in itself is not particularly wise nor praiseworthy. Indeed, it is sometimes the reverse."

"Thus a young man called on the young lady one spring morning very early. He had his big automobile along. He wanted to give the young lady a morning spin through the country."

"A little girl, the young lady's niece, answered the bell. 'Is your auntie in?' said the young man. 'Yes, sir,' said the little girl. 'That's good. Where is she?' he went on. 'She's upstairs,' said the little girl, 'in her nightgown, looking over the balustrade.'—Buffalo Enquirer.

NO REST NIGHT OR DAY.

With Irritating Skin Humor—Hair Began to Fall Out—Wonderful Result From Cuticura Remedies.

"About the latter part of July my whole body began to itch. I did not take much notice of it at first, but it began to get worse all the time, and then I began to get uneasy and tried all kinds of baths and other remedies that were recommended for skin humors, but I became worse all the time. My hair began to fall out and my scalp itched all the time. Especially at night, just as soon as I would get in bed and get warm, my whole body would begin to itch, and it was not long before I could not rest night or day. A friend asked me to try the Cuticura Remedies, and I did, and the first application helped me wonderfully. For about four weeks I would take a hot bath every night and then apply the Cuticura Ointment to my whole body, and - kept getting better, and by the time I used four boxes of Cuticura I was entirely cured and my hair stopped falling out. Cure For The Blues

ONE MEDICINE THAT HAS NEVER FAILED Health Fully Restored and the Joy of Life Regained.

When a cheerful, brave, light-hearted woman is suddenly plunged into that perfection of misery, the BLUES, it is a sad picture. It is usually this way: "She has been feeling 'out of sorts' for some time; head has ached and back aches; has slept poorly, been quite nervous, and nearly fainted once or twice; then that bearing-down feeling, fast; then that bearing-down feeling, and during her periods she is exceedingly despondent. Nothing pleases her. Her doctor says: 'Cheer up; you have dyspepsia; you will be all right soon.'"

But she doesn't get "all right," and hope vanishes; then come the brooding, morbid, melancholy, everlasting BLUES.

Don't wait until your sufferings have driven you to despair, with your nerves all shattered and your courage gone, but take Lydia E. Pinkham's Vegetable Compound. See what it did for Mrs. Rosa Adams, of 819 12th Street, Louisville, Ky., niece of the late General Roger Hanson, C.S.A. She writes:

Dear Mrs. Pinkham: "I cannot tell you with pen and ink what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered with female troubles, extreme lassitude, 'the blues,' nervousness and that all-gone feeling. I was advised to try Lydia E. Pinkham's Vegetable Compound, and it not only cured my female derangement, but it has restored me to perfect health and strength. The buoyancy of my younger days has returned, and I do not suffer any longer with despondency, as I did before. I consider Lydia E. Pinkham's Vegetable Compound a boon to sick and suffering women."

If you have some derangement of the female organism write Mrs. Pinkham, Lynn, Mass., for advice.

A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. Each bottle is sealed with a cork and is tamper-proof. The medicinal principles used in them are the same as those found in the medicinal plants of the world. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour eructations, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver, and bowels. Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal Passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy. It is a most efficient remedy for coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for the obstinate, chronic coughs, which, if neglected or badly treated, lead up to consumption. It is the best medicine that can be taken.
