"Kill Soldiers With Club."

The way in which the Utes plundered and evaded the troops the other day shows that the red man has not lost his cunning, and recalls an incident of Sherman's career. When the old warrior was on the plains he was one day accosted by a "heap big Injun," who begged the gift of some worn-out guns. "What?" said Sherman. "You want me to give you guns for you to shoot my soldiers with?" "Ugh! no!" was the reply. "Injun no hurt soldier with gun. Want gun to kill buffalo. Kill soldier with club!" Yet in the long run Uncle Sam's boys are too much for even the wildest and most enduring of the tribes.—New York Tribune

Papa Was Wise.

Pretty Daughter—But I'm sure you misjudge Reginald, papa. He is very ambitious.

Her Father—How do you know he is?

Pretty Daughter—Oh, I've often heard him talk of the things he was going to do.

Her Father—Huh! Did he mention my name?—Chicago News.

It will be to learn that the leading medical writers and teachers of all the several schools of practice recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, "liver complaint," torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their results, as bronchitis, throat and lung disease (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherry bark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow of Jefferson Med. College; Prof. Hare of the Univ. of Pa.; Prof. Finley of Howard, M. D. of Bennett Med. College, Chicago; Prof. John King, M. D. of Cincinnati; Prof. John M. Scudder, D. of Cincinnati; Prof. Edwin M. Hink, M. D. of Hahnemann Med. College, Chicago, and scores of other equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes, that has any such professional endorsement—worth more than any number of ordinary testimonials. Open publicity of its merits is the best possible guaranty of its value. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous, harmful or habit-forming drugs and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and besides is a most useful agent in the cure of all stomachs as well as bronchial, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glyceric extract of native medicinal roots and is safe and reliable. A booklet of extracts from eminent medical authorities, endorsing its ingredients mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y.

COMMERCIAL COLUMN.

Weekly Review of Trade and Latest Market Reports.

New York.—R. G. Dun & Co.'s weekly review of trade says: Colder weather has removed one of the drawbacks to seasonable distribution of merchandise, but there is still much complaint of traffic conditions. Congestion on the railways was increased by the destruction of vessels during the recent Gulf storm and a much heavier tonnage of freight is delayed than usual, although there is always a car famine at this season. Retail trade shows improvement in nearly all sections, and mercantile collections are more prompt. Eastern wool sales have attained record proportions, but the late fall has delayed the demand for wools. Primary receipts of wheat are not in keeping with a maximum crop on account of freight delays. Recent vigorous activity in the primary markets for cotton goods has been followed by customary quiet conditions which are necessary for assimilation and adjustment.

New England shoe shops receive liberal orders for spring goods from Eastern wholesalers, but it is still too early to expect results from salesmen at the West and South. Jobbers are seeking many specialties, notably patent leather, calf and kid stock.

After much irregularity, the wheat market shows a substantial advance for the week. Flour output increased somewhat, but it is still far behind the production a year ago, and mills find profits curtailed by the firmness of raw material. Coarse grains are less active and fluctuated within narrow margins.

A PUBLIC DUTY.

Montpelier, O., Man Feels Compelled to Tell His Experience.

Joseph Wilgus, Montpelier, O., says: "I feel it my duty to tell others about Doan's Kidney Pills. Exposure and driving brought kidney trouble on me, and I suffered much from irregular passages of the kidney secretions. Sometimes there was retention and at other times passages were too frequent, especially at night. There was pain and discoloration. Doan's Kidney Pills brought me relief from the first, and soon infused new life. I give them my endorsement."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh of the Bladder. This is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. Cheney & Co., Toledo, O. College Girls' Excuses.

"These are the days when the average college girl finds it hard task to keep constantly at her books," says one of the large staff of women at Wellesley, "and she draws the long bow now and then when she wishes to get a few hours or a day of liberty for a ride, a drive, a football game, an attraction in the theaters or for any of a thousand and one side issues. We had a girl here once who asked permission to go carriage riding one afternoon with a young man who was visiting in town. 'Are you engaged to him?' we asked her in a severe tone. 'Why, no,' she replied very thoughtfully, 'as if struck for the first time by that aspect of the question. Then she brightened up wonderfully and added: 'But maybe if you will allow me to go riding I shall be when I return.'"

"There was another girl who requested leave to go riding with her brother, and the woman of whom she asked permission queried, looking at her with an eye loaded with no twinkle: 'And is your brother any relative of yours?'" —Boston Herald.

IT'S THE FOOD.

The True Way to Correct Nervous Troubles.

Nervous troubles are more often caused by improper food and indigestion than most people imagine. Even doctors sometimes overlook this fact. A man says: "Until two years ago waffles and butter with meat and gravy were the main features of my breakfast. Finally dyspepsia came on and I found myself in a bad condition, worse in the morning than any other time. I would have a full, sick feeling in my stomach, with pains in my heart, sides and head. "At times I would have no appetite for days, then I would feel nervous, never satisfied when I did eat and so nervous I felt like shrieking at the top of my voice. I lost flesh badly and hardly knew which way to turn until one day I bought a box of Grape-Nuts food to see if I could eat that. I tried it without telling the doctor, and liked it fine; made me feel as if I had something to eat that was satisfying and still I didn't have that heaviness that I had felt after eating any other food. "I hadn't drank any coffee then in five weeks. I kept on with the Grape-Nuts and in a month and a half I had gained 15 pounds, could eat almost anything I wanted, didn't feel badly after eating, and my nervousness was all gone. It's a pleasure to be well again."

AWFUL SUFFERING

From Dreadful Pains From Wound on Foot—System All Run Down—Miserable Cure by Cuticura.

"Words cannot speak highly enough for the Cuticura Remedies. I am now seventy-two years of age. My system had been all run down. My blood was so bad that blood poisoning had set in. I had several doctors attending me, so finally I went to the hospital, where I was laid up for two months. My foot and ankle were almost beyond recognition. Dark blood flowed out of wounds in many places and I was so disheartened that I thought surely my last chance was slowly leaving me. As the foot did not improve you can readily imagine how I felt. I was simply disgusted and tired of life. I stood this pain, which was dreadful, for six months, and during this time I was not able to wear a shoe and not able to work. Some one spoke to me about Cuticura. The consequences were I bought a set of the Cuticura Remedies of one of my friends, who was a druggist, and he traces that I gave after the second application is beyond description; it seemed a miracle, for the Cuticura Remedies took effect immediately. I washed the foot with the Cuticura Soap before applying the Ointment, and I took the Resolvent at the same time. After two weeks' treatment my foot was healed completely. People who had seen my foot during my illness and who have seen it since the cure can hardly believe it, their own eyes. Robert Schoenhauer, Newburgh, N. Y., Aug. 21, 1905."

Marion Harland.

The celebrated authoress, so highly esteemed by the women of America, says on pages 103 and 445 of her popular work, "Eve's Daughters; or, Common Sense for Maid, Wife and Mother."

"For the aching back—should it be slow in recovering its normal strength—an Allcock's Plaster is an excellent comforter, combining the sensation of the sustained pressure of a strong warm band with certain tonic qualities developed in the wear. It should be kept over the seat of uneasiness for several days—in obstinate cases, for perhaps a fortnight."

"For pain in the back wear an Allcock's Plaster constantly, renewing as it wears off. This is an invaluable support when the weight on the small of the back becomes heavy and the aching incessant."

FROM GIRLHOOD TO WOMANHOOD

Mothers Should Watch the Development of Their Daughters—Interesting Experiences of Misses Borman and Mills.

Every mother possesses information which is of vital interest to her young daughter.

Too often this is never imparted or is withheld until serious harm has resulted to the growing girl through her ignorance of nature's mysterious and wonderful laws and penalties.

Girls' over-sensitiveness and modesty often puzzle their mothers and baffles physicians, as they so often withhold their confidence from their mothers and conceal the symptoms which ought to be told to their physician at this critical period.

When a girl's thoughts become sluggish, with headache, dizziness or a disposition to sleep, pains in back or lower limbs, eyes dim, desire for solitude; when she is a mystery to herself and friends, her mother should come to her aid, and remember that Lydia E. Pinkham's Vegetable Compound will at this time prepare the system for the coming change, and start this trying period in a young girl's life without pain or irregularities.

Hundreds of letters from young girls and from mothers, expressing their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished for them, have been received by the Lydia E. Pinkham Medicine Co., at Lynn, Mass.

Miss Mills has written the two following letters to Mrs. Pinkham, which will be read with interest:

Dear Mrs. Pinkham:— (First Letter.) "I am but fifteen years of age, am depressed, have dizzy spells, chills, headache and back-ache, and as I have heard that you can give helpful advice to girls in my condition, I am writing you."—Myrtle Mills, Oquawka, Ill.

Dear Mrs. Pinkham:— (Second Letter.) "It is with the feeling of utmost gratitude that I write to you to tell you what your valuable medicine has done for me. When I wrote you in regard to my condition I had consulted several doctors, but they failed to understand my case and I did not receive any benefit from their treatment. I followed your advice, and took Lydia E. Pinkham's Vegetable Compound and am now healthy and well, and all the distressing symptoms which I had at that time have disappeared."—Myrtle Mills, Oquawka, Ill.

Miss Matilda Borman writes Mrs. Pinkham as follows:

Dear Mrs. Pinkham:— "Before taking Lydia E. Pinkham's Vegetable Compound my periods were irregular and painful, and I always had such dreadful headaches. "But since taking the Compound my headaches have entirely left me, my periods are regular, and I am getting strong and well. I am telling all my girl friends what Lydia E. Pinkham's Vegetable Compound has done for me."—Matilda Borman, Farmington, Iowa.

If you know of any young girl who is sick and needs motherly advice, ask her to address Mrs. Pinkham at Lynn, Mass., and tell her every detail of her symptoms, and to keep nothing back. She will receive advice absolutely free, from a source that has no rival in the experience of woman's ills, and it will, if followed, put her on the right road to a strong, healthy and happy womanhood. Lydia E. Pinkham's Vegetable Compound holds the record for the greatest number of cures of female ills of any medicine that the world has ever known. Why don't you try it?
