When the book was shown to an expert it proved to be beyond a shadow of doubt a modern antique-that is to

say, it was simply a copy of the orig-

the impression that they were getting the originals. Dickens' "Sunday Under Three Heads" has been faked many times and sold as original to collectors who no doubt treasure them as rarities. The Poet and the Beauty.

One of the finest houses in southern England is Penhurst Place, the birthplace of Sir Philip Sidney. Under the trees of its park Edmund Waller paid Dorothea, whom he celebrated as Sacharissa. But the heart of Lady Dorothea Sidney-who was the most beautiful woman of her time-was untouched by Waller's amatory verses, and she re-jected the poet in favor of the Earl of countess met Waller and, reminding him sentimentally of the old days at Penhurst, asked him when he would again write verses about her. "When, madam," said the poet rudely, "you are as young and as handsome as you were then."

Properties of Chlorine.

Chlorine is a greenish yellow gas with a disagreeable smell. It is soluble in cold water, only slightly soluble in hot water. It destroys color in wet fabrics and is also a strong disinfectto be due to its power of decomposing hydrogen compounds, such as water, combining with the hydrogen and liberating oxygen, which in a nascent state oxidizes coloring matter, rendering it colorless. As a disinfectant it oxidizes the germs of disease and is in consequence largely used for this purpose.
