Purchased Half Interest.

Many unsatisfactory conditions in the tenant system as applies to the renting of farms has been solved by Capt. G. M. Boal who is the originator of a plan whereby the owner and tenant share like and like in all business transactions connected with farming, each owning an equal share in stock, poultry, implements, etc. The stock and farm products of all kinds are owned in common, sold when and where the best market can be procured, and at the close of the year the proceeds are divided. With Mr. Boal and his tenant Richard Brooks the plan has been entirely successful. The same results are being obtained by Prof. H. F. Bitner and Cloyd Brooks, under a similar lease. Several other owners in Penns Valley have adopted the plan within the past few years, the last to do so were E. M. Huyett and Perry Luse, who just signed the papers recently whereby M. Luse becomes half owner in the stock, etc., on the Huyett farm, west of Centre Hall.

Owners will find it to their interest to investigate the Boal farm lease plan; and so with tenants having business tact and honesty as an asset—cash on hand being a secondary matter.

The deceased with his brother, the late Hon. C. T. Alexander, in 1870, erected lime kilns near Bellefonte, the same being the foundation of the American Lime and Stone Company's works.

Mr. Alexander is survived by one daughter, Mrs. Alice A. Straub, who was his housekeeper since the death of Mrs. Alexander, seventeen years ago. One sister, Mrs. Elizabeth Brown, of Millroy, aged eighty-two years, also survives.

To Hear From Cooper

L. T. COOPER.

We wish to call the attention of the public to a series of "short talks" by L. T. Cooper that are to be published in this paper.

The Cooper medicines have made a remarkable record in the leading cities of the United States during the past two years and young Mr. Cooper has been the subject of much newspaper comment.

Mr. Cooper has met and talked with thousands of sick people in his visits to almost every large city in the country.

He is noted as a man of very few words and tells briefly in these articles what his preparations are doing for sick people and why they have been successful wherever introduced.

Mr. Cooper's theory is that one half of all human ills is caused by stomach trouble, and the wonderful success of his preparations in the treatment of stomach disorders, kidney and liver complaints, rheumatism, etc., seems to have proven this claim.

Some time ago we secured the agency for these celebrated medicines. We have been gratified by the extreme satisfaction of those who have purchased them from us and advise every one to read these "short talks" as they are full of terse, common sense.
