Fertilizers!

Keep in mind that we can furnish you with any grade of fertilizers you may wish, or the raw material if you prefer to do your own mixing. Our goods are guaranteed to be just what they are sold for, and can be applied through any drill or planter. The acid goods are dry and easily applied. We have grades especially adapted to the growing of spring crops—oats, barley, corn, potatoes, etc. The quality of goods and the price is the argument.
