TIRED BACKS.

The kidneys have a great work to do in keeping the blood pure. When

they get out of order

it causes backache,

headaches, dizziness,

languor and distressing urinary troubles. Keep the kidneys well and all these sufferings will be saved you. Mrs. S. A. Moore, proprietor of a restaurant at Waterville, Mo., says: "Before

using Doan's Kidney Pills I suffered everything from kidney troubles for a year and a half. I had pain in the back and head, and almost continuous in the loins and felt weary all the time. A few doses of Doan's Kidney Pills brought great relief, and I kept on taking them until in a short time I was cured. I think Doan's Kidney Pills are wonderful.

For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

The School Barber.

The latest wrinkle in the school system of Cleveland, says the Springfield Republican, is an arrangement by which the hair of the boys is to buildings, each supplied with two stools. Pupils from the "barber college" will do the work, and bring the scissors and everything else that is needed in the operation of cutting the children's hair.

appearance of well-painted property. The question that the property-owner asks is: "Is the appearance worth the cost?"

Poor paint is for temporary appear. ance only.

Paint made from Pure Linseed Oil and Pure White Lead is for lasting appearance and for protection. It saves repairs and replacements costing many times the paint investment.

The Dutch Boy trade mark is found only on kegs containing Pure White Lead made by the Old Dutch 18 Process.

A Wonderfully Stupid Lad.

The coroner of a certain town in Central Pennsylvania was once called upon to hold an inquest over the remains of a Hungarian laborer. The only witness was a lad of the same nationality, who spoke no Eng-

'Where do you live, boy?" was the irst question of the coroner.

The boy shook his head. "Do you speak English?" next

ame from the coroner. Again the boy shook his head.

'Do you speak German?" Still another negative from the ad.

"Do you speak French?" was the next interrogatory.

For the third time the boy shook his head.

"How old are you?"

No reply from the witness. Then, after a pause, the coroner

asked: "Do you speak Italian?"

The lad remained silent.

"It ain't no use," observed the oroner, turning to those in the room. I've questioned this here witness in four languages and can't get no answer. The court is adjourned .----Harper's Weekly.

Colors Of Vegetation.

The colors of vegetation are intensified by a strong sunlight and a certain degree of coolness, as we see be shorn at the city's expense. The in the redness of Northern apples departure begins with the opening and the deep tints of Alpine plants, of small barber rooms in three school and other conditions-such as the composition of the soil-have an influence. A recent attempt to color flowers artifically by chemicals added to the soil has been recorded by Henry Kraemner. Aluminate sulphate and pottasium sulphate deepened the color of yellow roses and tended to streak the petals of the white carnation with red, and ammonium sulphate, aluminum sulphate, iron citrate and citric acid brought out white streaks on scarlet carnations. The effects were too slight, however, to promise commercial importance.

Supplying The Explanation.

The valet one morning was brushng his master's clothes. He introduced into the procedure a startling nnovation. He made a careful search of all the pockets. In the ocket of a new waistcoat the valet ound a sovereign. Thereupon he took out his pen-

knife, sighed and said: "For the waistcoat's sake its a

thousand pitles but there's nothing else to be done. I must make a hole in this pocket large enough for the sovereign to slip through."---Tit-Bits.

A Squaw Bank Depositor.

A full-blooded squaw, attired in the regular costume of a well-bred society woman in Indian life-brightly colored blanket and skirt, with beaded leggins and moccasins, with the latest approved Cheyenne colffure, which is the same they have been working the last 100 years-was recently seen to walk into the El Reno State Bank and fill out a check in a full round hand, which she presented at the proper window and re-

COMMERCIAL COLUMN.

Weekly Review of Trade and Latest Market Reports.

New York .--- R. G. Dun & Co.'s Weekly Review of Trade says:

Easter retail trade surpassed expectations, favorable weather bringing out a very large volume of business during the last week, while activity was not confined to specialities, but extended to all seasonable lines of staple merchandise. Wholesale and jobbing houses received many supplementary orders, especially for dry goods and millinery, and further improvements in collections was reported.

Announcement by some railways that retrenchment must curtail plans for extensions has had no perceptible influence on the iron and steel industry, owing to the scarcity of stocks in all positions. Prices were held within season during the season of greatest pressure, when big premiums might have been charged, and the conservation of the leading interests is now bearing fruit. A few quota-tions of pig iron are slightly lower, but as a rule deliveries cannot be made before July, and domestic fur-naces are not able to satisfy requirements during the second quarter. This has revived imports, and one shipment from China is under consideration. Structural steel is taking a seasonably prominent position. specifications coming forward freely as open weather faciliates building operations, much business coming from the Central West and Pacific Coast despite the possibility of a strike May 1.

Size Of Hydrogen Corpuscles.

A professor at Lehigh University has made a calculation to show that if a tiny vessel of one cubic centimetre capacity is filled with hydrogen corpuscles there can be placed therein, in round numbers, 525 octillions --- 525,000,000,000,000,000,-000,000,000,000-----------------of them. If these corpuscles are allowed to run out of the vessel at the rate of 1,000 per second it will require 17 quintillions-17,000,000,000,000,000,000 -of years to empty it. We leave if to our readers to calculate how long the filling process will require.

Find fault with your friends and it will make them faultier.

Verdict for Dr. Pierce AGAINST THE

Ladies' Home Journal.

Sending truth after a lie. It is an old maxim that "a lie will travel seven leagues while truth is getting its boots on," and no doubt hundreds of thousands of good people read the unwarranted and malicious attack upon Dr. R. V. Pierce and his "Favorite Prescription " published in the May (1904) number of the Ladies" Home Journal, with its great black display headings, who never saw the hum-ble, groveling retraction, with its inconspicuous heading, published two months later. It was boldly charged in the slanderous and libelous article that Dr. Pierce's Favorite Prescription, for the cure of woman's weaknesses and ailments, contained alcohol and other harmful ingredients. Dr. Pierce promptly brought suit against the publishers of the Ladies' Home Journal, for \$200,000,00 damages. Dr. Pierce alleged that Mr. Bok, the editor, maliciously published the article containing such false and defamatory matter with the intent of injuring his business furthermore, that no alcohol, or other rejurious, or habit-forming, drugs are, or over were, contained in his "Fa-vorite prescription"; that said medicine is made from native medicinal roots and contains no harmful ingredients whatis made to harmful ingredients what ever and that Mr. Bok's malicious state-ments were wholly and absolutely false. In the retraction printed by said lournal they were forced to acknowledge that they and obtained analyses of Favorite Pre-errotion. from eminent chemists, all of whom certified that it did not contain al-condor any of the alleged harmful drugs. These facts were also proven in the trial of the action in the Supreme Court. But the publication of the libelons article with its great display headings, while hundreds of article never saw the humble groveling re-traction, set in small type and made as incom-micuous as possible. The matter was, how were brought before a jury in the Supreme Court of New York State which promptly rendered a verdict in the Doctor's favor. Thus his traducers came to grief and their base alanders were refuted.
