Relief from Rheumatic Pains.
"I suffered with rheumatism for over two years," says Mr. Roland Curry, of Key West, Fla. "Sometimes it settled in my knees and lamed me so I could hardly walk, at other times it would be in my feet and hands so I was incapacitated for duty. One night when I was in severe pain and lame from it my wife went to the drug store here and came back with a bottle of Chamberlain's Pain Balm. I was rubbed with it and found the pain had nearly gone during the night. I kept on using it for a little more than two weeks and found that it drove the rheumatism away. I have not had any trouble from that disease for over three months." For sale by

Over-Work Weakens Your Kidneys.
Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble. If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail Home of Swamp-Root, Inc., also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root and the address, Binghamton, N. Y., on every bottle.

THE BLACK BEAR.
Her Physic and Her Food After Her Five Months' Sleep.

The black bear has her cubs, from one to three, in her den during the months of March and April, and it is an interesting thing to know that she has the power to give birth to her young at least two weeks before the proper time if driven from her den. She will return to her cubs if let alone. In the den she cares for her young until the snows of the north country have sufficiently melted to permit of her getting about, when she "hits the trail" again. She eats nothing during the five months that she hibernates, except that from time to time she will lap the icicle which is made by the freezing of her breath on her paws. She ventures forth as soon as the snow has sufficiently melted to permit of her getting about and for several days will eat nothing but hemlock bark and certain roots, which act as a physic. When in her normal state of health again she is ravenously hungry and will diligently fish the brooks and streams in search of a dinner of trout, will hunt up the carcasses of deer or moose which have been overcome by the severity of the winter or will prey upon porcupines by quickly putting her paw under the stomach and rolling the porcupine on its back, then with a slag tear out the entrails and escape the quills.—Field and Stream.

ANXIOUS MOMENTS.
The Quarter of an Hour Following the Winning of the Derby.

The anxieties of owners of race horses competing in the Derby do not immediately end as the horses pass the judges. The fatal "objection" may snatch the laurels from the victor. The possibility discovered itself over Caractacus' race. The owner had striven in vain to get a jockey of repute. His offer of a life annuity of £100 a year to Gostley in case of success had been declined. A stable boy named Parsons had eventually to be trusted, and to the surprise of the learned, he got the horse home, winning by a neck. Going to scale, the lad could not draw the weight. In breathless silence the bride was sent for, and that just enabled him to balance the scale. But now Lord Stamford appeared to object that only his own horse and two others had gone the full course. The winner and the rest were already past the starting post when the flag fell. Admiral Rous looked at his watch. "Twenty minutes," he said. "An objection to hold good must be lodged within a quarter of an hour." And so the stable boy's win passed into the records, but the owner of Caractacus declared that not for £1,000 a moment would he again endure the agony of that short period following the race.—London Saturday Review.

PILLS AS WEAPONS.
The Curious Duel That Was Arranged by a Doctor.

An extraordinary duel, which at the time created an immense sensation, was one in which the decision was arrived at not by swords or pistols, but by means of a deadly poison. The men—who, it is hardly necessary to say, had fallen out over a lady—had left the arrangement of details to their seconds, and until they faced each other they did not know by what method they were to settle their differences. One of the seconds was a doctor, and he had made up for the occasion four black pellets, all identical in size and shape. "In one of these," he said, "I have placed a sufficient quantity of prussic acid to cause the almost instantaneous death of any one who swallows it. We will decide by the toss of a coin which of you is to have first choice, and you will alternately draw and swallow a pill until the poison shows its effects." Two of the pellets were then taken as the toss had decided, but without effect in either case. "This time," said the doctor, speaking of the two pellets remaining, "you must both swallow the pill at the same instant." The choice was again made, and in a few seconds one of the men lay dead on the grass.—Fall Mall Gazette.

"He Who Keepeth His Tongue."
An old-fashioned minister was visiting his son in New York recently and was taken to a fashionable church for the Sunday morning service. The pastor is a young man of great culture, but evidently his oratorical efforts did not greatly impress the visitor, for when they were walking homeward the son remarked approvingly: "That was a good sermon, an excellent sermon. The congregation like Dr. Blank very much."
"Yes, a good sermon undoubtedly," his father replied. "It could not possibly have touched a sore spot anywhere."—New York Herald.

Nonsense Literature.
I believe it was De Quincey who said, "None but a man of extraordinary talent can write first rate nonsense." He was right. And he might have added that none but a man of extraordinary taste can fully appreciate first rate nonsense.—Japan Times.

Two Failures.
Homely Man—I married for beauty. Sarcastic Man—You remind me of a friend of mine who married for money. Homely Man—How's that? Sarcastic Man—He didn't get it.—Chicago News.

Returned.
"Yes; this tower goes back to William the Conqueror."
"What's the matter? Isn't it satisfactory?"—New Orleans Times-Democrat.

Sore Nipples.
Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with best results.
