

Nothing I Ate Agreed With Me.

MRS. LENORA BODENHAMER.

Mrs. Lenora Bodenhamer, R. F. D. 1, Box 99, Kernersville, N. C., writes: "I suffered with stomach trouble and indigestion for some time, and nothing that I ate agreed with me. I was very nervous and experienced a continual feeling of uneasiness and fear. I took medicine from the doctor, but it did me no good. "I found in one of your Peruna books a description of my symptoms. I then wrote to Dr. Hartman for advice. He said I had catarrh of the stomach. I took Peruna and Manalin and followed his directions and can now say that I feel as well as I ever did. "I hope that all who are afflicted with the same symptoms will take Peruna, as it has certainly cured me."

ECZEMA COVERED BABY.

Worst Case Doctors Ever Saw—Suffered Untold Misery—Perfect Cure by Cuticura Remedies.

"My son, who is now twenty-two years of age, when four months old began to have eczema on his face, spreading quite rapidly until he was nearly covered. The eczema was something terrible, and the doctors said it was the worst case they ever saw. At times his whole body and face were covered, all but his feet. I used many kinds of patent medicines to no avail. At last I decided to try Cuticura, when my boy was three years and four months old, having had eczema all that time and suffering untold misery. I began to use all three of the Cuticura Remedies. He was better in two months; in six months he was well. Mrs. R. L. Risley, Piermont, N. H., Oct. 24, 1905."

A Lazy Liver

May be only a tired liver, or a starved liver. It would be a stupid and as well as a waste of time to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with over work. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleanses the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

If you have bitter or bad taste in the morning, poor or variable appetite, coated tongue, foul breath, constipated or irregular bowels, feel weak, easily tired, irritable, frequent headaches, pain or distress "small of back," gnawing or distressed feeling in stomach, perhaps nausea, or "rises" in throat after eating, and kindred symptoms of weak stomach and torpid liver, no medicine will relieve you more promptly or cure you more thoroughly than Dr. Pierce's Golden Medical Discovery. Perhaps only a part of the above symptoms will be present at one time and yet point to torpid liver or biliousness and weak stomach. Avoid all hot breads and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery" regularly and stick to its use until you are vigorous and strong.

The "Discovery" is non-secret, non-alcoholic, is a glyceric extract of native medicinal roots with a full list of its ingredients printed on each bottle-wrappers and attested under oath. Its ingredients are endorsed and extolled by the most eminent medical writers of the age and are recommended to cure the diseases for which it is advised.

Don't accept a substitute of unknown composition for this non-secret MEDICINE OF KNOWN COMPOSITION.

Some of the Things Done Daily in the Metropolis.

What Jerome Has Done.

A summary of 106 pages of what has been done in the last five years in the office of the District Attorney, Jerome's chief clerk. Since the election of Mr. Jerome, five years ago, there have been 23,111 complaints received from magistrates' courts or the Grand Jury, and 4850 from the complaint bureau of the office.

From 1901 to 1906 there were 19 appeals in cases of murder in the first degree. Of these the sentence of the lower court was affirmed 13 times and only twice reversed. There were four appeals still pending on December 31, 1906. The average length of delay caused in these cases in which a definite decision was reached was 17 1/2 months. From 1902 to 1906 there were 320 appeals in less serious cases. In only 27 cases was the decision of the lower court reversed. In 114 instances it was affirmed and in 140 the appeals were either abandoned or withdrawn.

The crimes which show the greatest increase in 1906 over 1905 are assault and homicide. In 1906 there were 748 cases of the former and 297 convictions against 661 cases in 1905 and 234 convictions. The homicides of 1906 numbered 144 and there were 53 convictions, but in 1905 there were only 110 cases and 32 convictions.

Five Months for Murder.

Mrs. Anisia Louise de Massy, who claims the title of baroness, was sentenced by Justice Blanchard to seven years and five months' imprisonment for the murder of Gustav Simon, shirtwaist manufacturer. The prosecuting officer established by circumstantial evidence that Mme. de Massy had visited the office of Gustav Simon and demanded payment of money due her; that this was refused; that within five minutes three pistol shots were heard, and that the defendant walked down six flights of stairs instead of descending by the elevator; that she was arrested and confronted with the fatally wounded man, who, in the presence of witnesses, accused her of having shot him, and that this declaration was repeated in St. Vincent's Hospital.

Sinless Sundays For Staten Island. Staten Island ministers have organized and they announced that there will be no more Sunday baseball and no more sacred concerts; that Staten Island will be as tight as a drumhead on Sundays and as dry as Sahara. Staten Island has been above all the home of the chowder party. "No more chowder parties," say the ministers, unless the celebrants observe the Sabbath scrupulously. The big steel plant of the Millikens, at Mariner's Harbor; the Proctor & Gamble Soap Works; and other big factories will be closed if the ministers win their fight.

Apprentice Boy Garrotted.

Edward Benson, a machinist's apprentice, 17 years old, of 1575 Avenue A, was killed while at his work turning automobile bolts on a lathe at 614 East Eighty-third Street. In stooping to pick up a fallen bolt Benson brushed against a rapidly revolving shaft which had a screw on the end. This screw caught his shirt at the neckband so as to hold the boy as in a vise while the screw went cracking through a vertebra at the base of the brain.

Little Tim Will Bet \$20,000.

Little "Tim" Sullivan wants to bet \$20,000 that Mayor McClelland has nothing to fear from the passage of the recount bill. "A recount won't put McClelland out," he says. No matter what the Hearst crowd say, the election was a straight one, and I will bet \$20,000 in cash, even, that a recount will not show a variation of 500 votes from the official returns.

Dr. Darlington Was Stricken.

At a banquet of the Episcopal Laidy Club at Sunbury, Pa., on Wednesday night Dr. Thomas H. Darlington, president of the New York Board of Health and a brother of Bishop Darlington of the Harrisburg diocese, was suddenly stricken with heart failure. Stimulants were applied and he revived. Dr. Darlington said that this attack was only a fainting spell, due to exhaustion from making speeches. He said he had entirely recovered.

Silver Spoon In Eel's Midst.

An eel caught alive at Bloomfield. Laborers were cleaning the accumulated mud of ages from a stream, and there they found and killed the gigantic eel. The most interesting article in its midst was a silver spoon; the initials "G. W." were not engraved on it, but the spoon is of purest Colonial pattern. Besides the eel contained several large old copper cents and a lead bullet, which seems to have been used as a fishing sinker and which never fitted anything but a musket of '76.

THIS AND THAT.

Three good washes are received by an Abyssinian during his career—at his birth, on his marriage morn and at his death. At all other times he shuns soap and water.

Germany is the leading producer of beer, with 1,691,000,000 gallons in 1905. The United Kingdom, which brewed 1,219,000,000 gallons, has lately resigned the second place to the United States, which manufactured 1,413,000,000 gallons.

BORAX IS NATURE'S MINE OF PURITY FOR DAIRY UTENSILS.

Borax is first, a cleanser that removes dirt and grease with surprising ease; second, it is a sweetener that makes fragrant any surface that has grown musty or stale from neglect; third, it is an antiseptic or destroyer of germs. It prevents the development of bacteria or mouldy growths. With all this it is perfectly free from harm in its resulting effects.

The farm churn is kept free from that stale odor if it is washed with borax in the following proportions—one tablespoonful of borax to a quart of water.

The dairy room has nothing about it but the pleasant aroma of fresh milk and cream and sweet butter if it is kept clean with borax. There will be no soapy smell and no lurking hint of something gone wrong.

The cream crocks take on an extra freshness when washed with borax and water in the following proportions—one tablespoonful of borax to a quart of water. This preserves the fresh flavor of the cream.

The farm cream separator can be kept thoroughly sweet and clean by a wash of borax and water in the following proportions—one tablespoonful of borax to a quart of water.

Be sure that you get pure borax. To be sure, you must get "20 Mule Team Borax." If you are unable to get "20 Mule Team" brand send us your dealer's name and we will arrange to supply you. Booklet free.

BACKACHE IS KIDNEYACHE.

Cure the Kidneys and the Pain Will Never Return.

Only one way to cure an aching back. Cure the cause the kidneys.

Thousands tell of cures made by Doan's Kidney Pills. John C. Coleman, a prominent merchant of Swainsboro, Ga., says: "For several years my kidneys were affected, and my back ached day and night. I was languid, nervous and lame in the morning. Doan's Kidney Pills helped me right away, and the great relief that followed has been permanent."

Rabbits Came To Town.

Wild rabbits have become so common about the streets of the city that an investigation was set on foot by local hunters, who have come to the conclusion that the bunnies are deserting the fields and dells and talking up their homes in the corporate limits.

It is no uncommon sight to see rabbits in pairs playing about the streets, and instead of running away at sight of persons approaching, they simply scamper through a fence or take refuge behind a tree, where they seem as much at home and as secure as if they were in the burrows. Another feature of the case is that many are nesting on lawns and vacant lots, where the young are caught by cats and destroyed by dogs.—Indianapolis News.

Sunken Funds Recovered.

Some idea of the work done by submarine divers in recovering treasure from sunken ships can be gotten from the following figures, just published:

From the steamship Malabar was recovered more than \$1,250,000; from the steamship Alphonso XII, \$450,000; from the steamship Hamilla Mitchell, \$250,000, and from the steamship Carnatic, \$200,000.

The complete list is long, but these figures from Popular Mechanics give an idea of the enormous value of the treasures which the greedy waves have swallowed and the inducement to invest large capital, construct ingenious and expensive machinery and run great risks in raising "watered" stock.

DR. TALKS OF FOOD Pres. of Board of Health.

"What shall I eat?" is the daily inquiry the physician is met with. I do not hesitate to say that in my judgment, a large percentage of disease is caused by poorly selected and improperly prepared food. My personal experience with the fully-cooked food, known as Grape-Nuts, enables me to speak freely of its merits.

"From overwork, I suffered several years with malnutrition, palpitation of the heart, and loss of sleep. Last summer I was led to experiment personally with the new food, which I used in conjunction with good rich cow's milk. In a short time after I commenced its use, the disagreeable symptoms disappeared, my heart's action became steady and normal, the functions of the stomach were properly carried out and I again slept as soundly and as well as in my youth.

"I look upon Grape-Nuts as a perfect food, and no one can gainsay but that it has a most prominent place in a rational, scientific system of feeding. Any one who uses this food will soon be convinced of the soundness of the principle upon which it is manufactured and may thereby know the facts as to its true worth." COMMERCIAL COLUMN.

Weekly Review of Trade and Latest Market Reports.

R. G. Dun & Co.'s weekly review of trade says:

Improvement in retail trade followed the advent of seasonable weather at many points, and payments were more prompt as spring merchandise was distributed, but conditions are still irregular. Sensational advance in prices of farm products, especially wheat, followed reports of extensive damage to the crops, but frequent reactions emphasized the speculative nature of the rise in quotations and tended to restore confidence. Wholesale trade in fall goods is brisk from all points except where the crops have been seriously injured, and the net result of this forward business makes the outlook for the future fairly satisfactory. Manufacturing plants are kept busy, a further increase in the rate of pig iron production failing to keep pace with consumption, and more imports were arranged. Freight movement is almost prompt, the supply of rolling stock more nearly equaling requirements, and there are fewer complaints of delays.

Higher prices for pipe supplied the only change of importance in the iron and steel industry, the leading producer advancing quotations \$4 per ton on most sizes.

Quiet conditions in primary markets for dry goods are largely due to the fact that manufacturers of cottons are sold so far ahead that they cannot accept the attractive offers constantly made for early delivery.

MISS JULIE FLORENCE WALSH

WOMEN SUFFER

Many women suffer in silence and drift along from bad to worse. Knowing well that they ought to have immediate assistance.

How many women do you know who are perfectly well and strong? The cause may be easily traced to some feminine derangement which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, dizzying sensations, flatulency, nervousness, and sleeplessness.

These symptoms are but warnings that there is danger ahead, and unless heeded, a life of suffering or a serious operation is the inevitable result. The best remedy for all these symptoms is

Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs. No other medicine in the country has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female ills.

Miss J. F. Walsh, of 328 W. 36th St., New York City, writes:—"Lydia E. Pinkham's Vegetable Compound has been of inestimable value in restoring my health. I suffered from female illness which caused dreadful headaches, dizziness, and dull pains in my back, but your medicine soon brought about a change in my general condition, built me up and made me perfectly well."

Lydia E. Pinkham's Vegetable Compound cures Female Complaints, such as Backache, Falling and Displacements, Inflammation and Irritation, and organic diseases. It is invaluable in preparing for child-birth and during the Change of Life. It cures Nervous Prostration, Headache, General Debility, and invigorates the whole system.
