THE STRENUOUS LIFE.

One Day's Work of a Sixteenth Century Law Student.

If law students of the present day are laboring under the delusion that when the world was younger there was less law to study and more relaxation for young men of their class, let them read the following extract that an English contemporary has taken from the "Memoirs of Henri de Mesmes," descriptive of a day's work of a law student at Toulouse in the sixteenth century:

"We used to rise from bed at 4 o'clock, and, having prayed to God, we went at 5 o'clock to our studies, our big books under our arms, our inkhorns and candles in our hands. We heard all the lectures without intermission till 10 o'clock rang. Then we dined after having hastily compared during a half hour our notes of the lectures.

"After dinner we read as a recreation Sophocles or Aristophanes or Euripides and sometimes Demosthenes, Cicero, Virgil or Horace. At 1 o'clock to our studies, at 5 back to our dwelling places, there to go over and verify passages cited in the lectures until 6; then supper, and after supper we read Greek or Latin.

"On holy days we went to high mass and vespers; the rest of the days, a little music and walks."

SKILL OF THE ANCIENTS.

The Old Timers Apparently Did Many

"We are losing all our secrets in this shabby age," an architect said. "If we keep on, the time will come when we'll be able to do nothing well.

"Take, for instance, steel. We claim to make good steel, yet the blades the Saracens turned out hundreds of years ago would cut one of our own blades in two like butter.

"Take ink. Our modern ink fades in five or ten years to rust color, yet the ink of mediaeval manuscripts is as black and bright today as it was 700 years ago.

"Take dyes. The beautiful blues and reds and greens of antique oriental rugs have all been lost, while in Egyptian tombs we find fabrics dyed thou-Bands of years ago that remain today brighter and purer in hue than any of our modern fabrics.

"Take my specialty, buildings. We can't build as the ancients did. The secret of their mortar and cement is lost to us. Their mortar and cement were actually harder and more durable than the stones they bound together, whereas ours-horrors!" - New York

HE WON HIS CASE. Incident That Illustrates the An

Shrewdness of Een Butler.

A number of years ago General Benjamin F. Butler was a guest of friends in Brooklyn. During his visit he noted the rule of the street railway companies compelling conductors to register fares as soon as passengers entered the cars and before the fares were actually collected. Two or three years afterward he represented the plaintiff in a damage suit for \$15,000 in which a Brooklyn street railway company was the defendant. The principal witness for the company was the conductor of the car on which the accident occurred, and his testimony was so strong as to make things look bad for Butler's

client. But Butler recalled the unusual rule he had remarked years before, and on cross examination he said: "Your company requires you to ring up fares as soon as passengers enter

the car, doesn't it?" "Yes." "Suppose a passenger boards your car and then finds he is on the wrong line. Do you state that fact to your superiors, and do they make allowance on your returns for that fare?"

"Do you mean to say the company won't take your word for 5 cents?"

"Yet," said the shrewd veteran, turning to the jury, "the company asks you to take this conductor's word for \$15,-Butler's client received a verdict .--Brooklyn Eagle.

On Memorial Day Mrs. W. H. Kreamer fell the full length of the stairway leading to the second story of her home. She was wearing a new pair of shoes, and in taking the first step to descend her foot slipped. The result was many bruises from head to foot, but fortunately no bones were broken.

A subscriber writes and says he used to see the local time table published in the Reporter, but now he is at a loss to know the schedule on which the trains run. The time tables are omitted simply because the Reporter can not afford to do so without remuneration, and the railroad company thinks itself too poor to pay for the advertising.

T. M. Gramley Thursday returned from Sunbury, where he had been as a

delegate to Lutheran Synod. As nearly everybody had gone to

Millheim or Aaronsburg on Memorial Day, Spring Mills seemed like a deserted town. If it had not been for the patriotism of the little boys, who formed a drum corps, the people would hardly have known that it was Decoration Day, as there were no other demonstrations.

A large delegation from the Spring Mills Lodge, I. O. O. F., went to Millheim and Aaronsburg Thursday, and participated in the Memorial services. The exercises at Aaronsburg being especially attractive, are worthy of notice. The parade was made up of children from the various Sunday schools, the G. A. R. Post, members of the I

The Home of a Genius.

Beethoven was born in a small house in Bonn. His father had inherited the vice of drinking, and often Beethoven and his younger brother were obliged to take their intoxicated father home. He was never known to utter an unkind word about the man who made his youth so unhappy, and he never failed to resent it when a third person spoke uncharitably of his father's frailty. Young Beethoven was thus taught many a severe lesson in the hard school of adversity, but his trials were not without advantage to him. They gave to his character that iron texture which upheld him under his

heaviest burdens.

Books have always a secret influence on the understanding. We cannot at pleasure obliterate ideas. He that reads books of science, though without any desire fixed of improvement, will grow more knowing. He that entertains himself with moral or religious treatises will imperceptibly advance in goodness. The ideas which are often offered to the mind will at last find a lucky moment when it is disposed to receive them .- Samuel Johnson.

Precious Spices.

There are portions of the globe today where spices are worth more than gold or silver. "In the arctic region spices are essential to health and happiness," wrote an explorer. "A dash of pepper, a pinch of ground cinnamon, a little nutmeg or a piece of ginger root revives the jaded appetite wonderfully in the north. I have seen shipwrecked sallors fight over an ounce of spices with more flerceness than they ever did for money."

Indians With Blue Eyes.

One of the mysteries of Mexico is presented by the Maya Indians, who inhabit the Sierra Madre mountains in the lower part of Sonora. They have fair skins, blue eyes and light hair, and students of ethnology have always been puzzied to account for them. There is a tradition, however, that these Indiana are the descendants of the crew and passengers of a Swedish vessel wrecked on the Mexican coast centuries before Columbus discovered the new world, but this tradition is founded on nothing more substantial than a folklore tale current among them that their ancestors came over the big salt water hundreds of moons ago.

An Ancient Prayer.

Old John Ward, who was pilloried by Pope in the "Dunclad" and who actually stood in the pillory in the year 1727, when he was said to have been worth £200,000, was nevertheless a plous man. He had large estates in London and Essex and did not omit to pray for their welfare in the following manner: "O Lord, I beseech thee to preserve the two counties of Middlesex and Essex from fire and earthquake, and as I have a mortgage in Hertfordshire I beg of thee likewise to have an eye of compassion on that

The Vulgar One,

county, and, for the rest of the coun-

ties, deal with them as thou pleaseth."

Cornhill Magazine tells of an Englishwoman of high station who bewalled to a friend the loss by death of a somewhat ill bred but, extremely wealthy neighbor who had been very liberal in his help to her country charities. "Mr. X. is dead," said she. "He was so good and kind and helpful to me in all sorts of ways. He was so vulgar, poor, dear fellow, we could not know him in London, but we shall meet in heaven."

Odd Coincidence.

Not many years since a pastor in New York state read in his pulpit this portion of a hymn: Well, the delightful day will come

When my dear Lord shall take me home, And I shall see his face-Just then he was stricken with paralysis and died in a few moments. Thirty-three years before in the same pulpit another pastor was reading the very same stanza when he, too, was stricken and died .- Scrap Book.
