## Mrs. Emma Stolt, of Appleton, Wisconsin.

"A neighbor advised me to use Peruna.

MRS. EMMA STOLT.

Mrs. Emma Stolt, 1069 Oneida St., Appleton, Wis., writes:

"Peruna has done me a great deal of good since I began taking it, and I am always glad to speak a good word for it.

"Three years ago I was in a wretched condition with backaches, bearing down pains, and at times was so sore and lame that I could not move about. I had in-flammation and irritation, and although I used different remedies they did me no

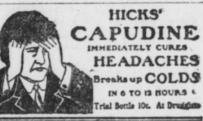

"A neighbor who had been using Peruna advised me to try it, and I am glad that I did. I began to improve as soon as I took it and I felt much better.

"I thank you for your fine remedy. It is certainly a godsend to sick women."

Catarrh of the Internal Organs.

Miss Theresa Bertles, White Church, Mo., writes:
"I suffered with catarrh of the stomach,
Everything I bowels and internal organs. Everything I ate seemed to hurt me. I never had a passage of the bowels without taking medicine. I was so tired mornings, and ached all over. I had a pain in my left side, and the least exertion or excitement made me short of breath.

"Now, after taking Peruna for six months, I am as well as I ever was. Peruna has worked wonders for me. I believe Peruna is the best medicine in the world, and I recommend it to my friends."

The Smallest Of All Fish.

The most diminutive vertebrate creature in the world is said to be a small fish caught in a mountain lake in the Luzon region of the Philippines.

The largest of the species is less than an inch long, but its smallness may be best gauged by the fact that it takes about 6,000 of them to make a pound. Although so tiny, however, the fish, which is named sinarapan, is an important article of diet among the Philippine natives. Obviously It is too small for any net and is caught in course muslin sheets.

The fish are prepared by being mixed with pepper and other spices and then dried in the sun. They are a great native delicacy.

#### Temperature Of Mars.

Hitherto the chief obstacle to the belief that Mars is habitable by any such beings as inhabit the earth has been the extremely low temperature probably obtaining on the Martian surface, but Professor Lowell shows that by taking all the phenomena into consideration this obstacle may be removed. Previous calculations of the temperature have been deduced solely from the relative distance of Mars from the sun, and a recent investigation gave 33 degrees Fahrenheit as mean temperature of the planet. He finally deduces, by taking all known factors into account, that a mean temperature of 47 degrees Fahrenheit is obtained.

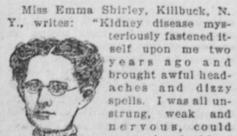

She "Raised" Him.

A young man who had not been married long remarked at the dinner table the other day:

'My dear, I wish you could make bread such as mother used to make." The bride smiled and answered in a voice that did not tremble: "Well, dear, I wish you could make the dough that father used to make."-Watchword (Dayton, Ohio).

COULD HARDLY TOTTER ABOUT.

A Vivid Description of the Most Insidious of Diseases.

years ago and brought awful headaches and dizzy spells. I was all unstrung, weak and nervous, could scarcely totter about. Pains in the side and back com-

pletely unnerved me. My food distressed me, I looked badly and the kidneys were noticeably deranged. I sank lower and lower until given up. and at this critical time began with Dogn's Kidney Pills. Details are unnecessary. Twelve boxes cured me and I weigh six pounds more than ever before. They saved my life." Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Brisk retail trade is accompanied by more prompt collections, and many cities that were slow to respond to the better feeling now send satisfactory reports. Jobbers and wholesalers are receiving railroads, has shut off free passes. liberal orders for fall and winter In years past the Pennsylvania remerchandise, and interior buyers are quired from three to four sections active in the primary markets. Manufacturing returns tell of large for their Atlantic City excursions. orders on hand and heavy produc-

tion during the first half of the year. Lower prices for pig iron were due to the larger output and more prompt deliveries that reduced the premiums paid for early shipments. Consumption has not appreciably diminished, although a few of the steel mills are closed for repairs. Despite some furnaces rendered idle for the same reason, the total number in blast increased six during June.

Quiet conditions prevail in the primary markets for cotton goods. but the mills are fully occupied, and there is no prospect of easier terms, owing to the large amount of business under contract, unless extensive cancellations are received. The strength of the market is due to the statistical position, buyers being compelled to wait longer for deliveries than ever before in the history of the industry. It is also noted that requests are urgent for earlier forwarding than the date under contract, showing the light stock in other than first hands, and there is no prospect of relief during the balance of this year at least.

#### SCALY ERUPTION ON BODY.

Doctors and Remedies Fruitless-Suffered 10 Years-Completely Cured by Three Boxes of Cuticura.

"Small sores appeared on each of my lower limbs and shortly afterwards both of those limbs became so sore that I could scarcely walk. The sores began to heal, but small, scaly eruptions appeared. The itching was so severe that I would scratch the sores until the blood began to flow. 'After I suffered thus about ten years I made a renewed effort to effect a ure. The eruptions by this time had appeared on every part of my body except my face and hands. The best doctor in my native county and many remedies gave no relief. Finally my bair began to fall out and 1 was rapidly becoming bald. A few months after, having used almost everything else, I thought I would try Cuticura Ointment and Cuticura Soap. After using three boxes I was completely cured, and my hair was restored, after fourteen years of suffering and an expenditure of at least \$50 to \$60 in vainly endeavoring to find a cure. B. Hiram Mattingly, Vermillion, S. Dak., Aug. 18, 1906."

There are as many different kinds husbands as there are married men.

"He Vas, But He Ain't." "I was in a German barber shop

up at Stockton," said E. P. Hilborn, general manager of the Central California Traction Company, recently, "when a nervous and excited Ger man fellow dropped in to be barber-He was very nervous indeed. I suspected that he wanted to catch a train. At any rate, he was so nervous that he couldn't keep his seat. He began pacing up and down the floor, waiting his turn, and as this did not seem to calm his nerves he stepped outside and began pacing up and down the sidewalk. He came back in a moment and discovered, much to his horror, that someone had got in ahead of him and had taken the first vacant chair. The nervous man stalked up to the head barber biusteringly and said: "'If a man comes in und goes

oud, has he vent; "The head barber looked at him searchingly and replied with dignity and emphasis

"'He vas, but he ain't." "Whatever that meant, it ended the dispute quite effectively."

A Nevada Verdict.

A Chicago lawyer tells how the most popular man in a Nevada town got into difficulty with a disreputable tough-for a long time the terror of the place-and proceeded to "do him up" in a manner entirely satisfactory to the community at large. It becoming necessary, however, to vindicate the majesty of the law the offender was brought up for trial on the charge of assault with intent to kill. The case soon went to the jury. When they had been out about two minutes they returned. "Well, gentlemen of the jury,

asked the Judge in a familiar, offhand way, "what have you to say? "If it pleases the Court." responded the foreman, "we the Jury find that the prisoner is not guilty of strikin' with intent to kill, but sim-

ply to paralyze, an' he done it." So the prisoner was acquitted amid applause .- Chicago Daily News.

A SMALL SECRET Couldn't Understand the Taste of his Customers.

Two men were discussing the various food products now being supplied in such variety and abundance. One, a grocer, said "I frequently try a package or so of any certain article before offering it to my trade. and in that way sometimes form a different idea than my customers

For instance, I thought I would try Postum Food Coffee, to see what reason there was for such a call for it. At breakfast I didn't like it and supper proved the same, so I naturally concluded that my taste was different from that of the customers who bought it right along.

A day or two after, I waited on a lady who was buying a 25c package and told her I couldn't understand how one could fancy the taste of Pos-'I know just what is the matter'

she said, 'you put the coffee boiler on the stove for just fifteen minutes, and ten minutes of that time it simmered, and perhaps five minutes it boiled, now if you will have it left to boil full fifteen minutes after it commences to boil, you will find a delicious Java-like beverage, rich in food value of gluten and phosphates, so choice that you will never abandon it, particularly when you see the great gain in health.' Well, I took another trial and sure enough I joined the Postum army for good. and life seems worth living since I have gotten rid of my old time stomach and kidney troubles."

Postum is no sort of medicine, but pure liquid food, and this, together with a relief from coffee worked the change. "There's a Reason."
