LOCALS

William Zebby, of neat Spring Mills, was in Centre Hall Saturday and called at the Reporter office.

Miss Rebecca Heckman, daughter of Ex-Commissioner Daniel Heckman, of Bellefonte, recently was the guest of Miss Carrie Spicher, in Centre Hall.

According to the statement of a Philadelphia eye specialist, Charles Koontz, of Bellefonte, who totally lost his sight recently, may again recover his vision.

A State College justice sent one of its citizens to jail to await trial at court, charged with wife-beating, drunkenness, etc. His name was Jacob Jackson.

Misses Kathryn and Margaret Dunlap, of Bellefonte, returned home Monday, after spending several weeks with their aunt, Mrs. J. C. Brown, at Potters Mills.

Daniel Shoop, of Lockport, Illinois, is recovering from the injuries received from a robber who assaulted him near his home. The crime has been fixed on a man in Lockport who has fled to Iowa.

While working on Noll Brothers' saw mill, near Pleasant Gap, a short time ago, Ira Gill got his arm against the saw and ripped a gash in the flesh four inches long and almost into the bone.

Mrs. S. R. King and little daughter, Erma, and Mrs. T. F. Meyer and son Paul, of Millheim, left Tuesday morning for Shickshinny to spend some time with relatives and friends.

Announcement has been made of the engagement of Miss Caroline Orvis, daughter of Judge E. L. Orvis, and William Stoddard, of New York city, which will terminate in an early fall wedding.

Mr. and Mrs. James High, of Lock Haven, recently made a visit to the latter's old home at Tusseyville, and on returning they took with them Mary, the little daughter of James Runkle, Jr., who is Mrs. High's niece.

Looking as chipper as a lark, is the only way the appearance of C. David Runkle, of Pittsburg, can be described on his recent visit to Centre Hall. He was only here for a day, but made a good tour of handshaking in that time.

F. E. Wieland, the Linden Hall general merchant and dealer in grain, coal, hay, etc., advertises the "Pittsburgh Perfect Fence," electric weld.

This fencing can be secured in any height. See his adv., and before buying consult Mr. Wieland.

Mrs. Catharine Gehret, of Bellefonte, who has been quite ill for some weeks, was taken to the Bellefonte hospital for an operation but when the physicians undertook to perform the same they found her condition such that they deemed it inadvisable to do so.

The last Legislature passed a law exacting a license fee of \$50 in every county in which a gypsy band encamps. A convention of gypsies will be held near Flemington, Clinton county, where one band is already encamped, to consider what the wandering fortune-telling fraternity had best do about it.

Constable Graden, of Gregg township, arrested Ammon Rote, R. A. Confer and Irvin Kern, of Greenbriar, for violation of the fish laws. They were arrested by Fish Warden George D. Shannon, of Tyrone. Rote was arrested on two charges, for fishing with a net of too large size and for using wire screens in the dam to catch the fish.

Confer was arrested for using a net of too small mesh, and Kern for fishing with a net of too large size and too small mesh. The fish warden found the men with the fish in their possession. The hearing was held before Squire Keichline, who held them under bail for September term of court.

After a great deal of effort and correspondence J. D. Murray, the popular druggist, has succeeded in getting the Dr. Howard Co. to make a special half price introductory offer on the regular fifty cent size of their celebrated specific for the cure of constipation and dyspepsia.

The medicine is a recent discovery for the cure of all diseases of the stomach and bowels. It not only gives quick relief, but it makes permanent cures.

Dr. Howard's specific has been so remarkably successful in curing constipation, dyspepsia and all liver troubles, that Mr. Murray is willing to return the price paid in every case where it does not give relief.

Headaches, coated tongue, dizziness, gas on stomach, specks before the eyes, constipation, and all forms of liver and stomach trouble are soon cured by this scientific medicine.

So great is the demand for this specific, that Mr. Murray has been able to secure only a limited supply, and every one who is troubled with dyspepsia, constipation or liver trouble should call upon him at once, or send 25 cents, and get sixty doses of the best medicine ever made, on this special half price offer, with his personal guarantee to refund the money if it does not cure.

Edwin Anthony in an article published in the Chess Players' Chronicle computed approximately that the number of ways of playing only the first ten moves on each side is 169,518,829,100,544,000,000,000,000.

The lists of English authors and their works give the titles of over 800 poems and essays on "Solitude."

Hadn't Been Drunk. He evidently wasn't used to the ways of his hotels. He looked as though he might have been from some Kansas farm and was in a large city for the first time.

"Say," he said to C. T. Newton behind the desk at the Shirley hotel about 8 o'clock in the morning. "The other clerk last night told me to ask for things over the little telephone in my room when I wanted 'em."

"Well, this morning, about a half an hour ago, I asked for a glass of ice water. Some girl answered the telephone."

"Well, I don't like to be took for a heavy drinker. I wasn't drunk last night."

"What do you mean?" "Yes, this: I didn't get no glass of ice water. That girl sent me up a whole pitcher. It looked mighty much to me like she thought I was full of liquor last night and would need a whole pitcher. A glass would 'a' been enough." And as he turned and strode away he wore one of those "Guess I didn't call him down, eh?" looks.—Denver Post.

An Old Time Alderman. Several patrons of the restaurant at Broadway and Tenth street were lunching there a few days ago, seated at a table between the corner windows on the second floor which commanded a fine view down Broadway, which makes a sharp turn at Tenth street.

The word madrigal sounds very formidable to a beginner in music. More than once have I heard the question, "What is a madrigal?" Strictly speaking, a madrigal is an elaborate vocal composition in from three to six parts, generally sung in chorus.

A Very Practical Christian. A benevolent old man who lived on his farm in Iowa never refused shelter to any who might ask it of him. His many friends reconstructed with him about this characteristic, knowing that many unscrupulous hoboes would avail themselves of the opportunity and that there was great danger of the old man being robbed. To these remonstrances the old man replied that he believed in "practical Christianity."

Poll Parrot is a Game Bird. While the parrot is a bird of beautiful plumage, as a table delicacy it is not to be recommended, as I know from sad experience. My first essay at eating a parrot was attended with modified success. The bird must have been comparatively young, and after several hours' boiling became soft enough to masticate and finally swallow, leaving behind it an impression that we had lunched on the sole of a rubber boot.—Arthur D. Temple in Field and Stream.

The Tip Randolph Wanted. Can you put me in no way to become a successful rogue to an amount that may throw an air of dignity over the transaction and divert the attention of the gaping public from the enormity of the offense to that of the sum?—From a Letter of John Randolph of Roanoke to Dr. John Brockebrough.

A Fighting State. Whenever you scratch Kansas history you find a fight. No territory of equal size has had so much war over so many different causes. Her story in Indian fighting, gambler fighting, outlaw fighting, town site fighting and political fighting is not approached by any other portion of the west.—Outing Magazine.

Wonders of Chess. Edwin Anthony in an article published in the Chess Players' Chronicle computed approximately that the number of ways of playing only the first ten moves on each side is 169,518,829,100,544,000,000,000,000.

THE MODERN "PITTSBURGH PERFECT" WIRE FENCE, WELDED BY ELECTRICITY.

What a Marvel it would have been to Abraham Lincoln splitter of rails.

Mr. Farmer: Your progressiveness is keeping you in close touch with improvements in farm machinery, in dairy methods, and with all the scientific facts that bring about the greatest possible agricultural production.

You are also informing yourself about fence. We know you are.

First—there was the stone fence of medieval history. Second—pioneer America converted its timber into rails. Third—somebody found a way to weave wire and slats. Fourth—along came barb wire, with its marvelous sale. Fifth—machines were invented to twist or clamp one wire around another: the woven wire fence.

But, most important of all, electricity now welds the wires at the joint, making no longer necessary these wraps and clamps. Stay and strand, wizard-like, become one.

The greatest step forward in fence building is thus accomplished at a single, master stroke.

Of course, you are not using anything else. Surely you are familiarizing yourself with this remarkable improvement, to be found only in "Pittsburgh Perfect."

A large variety of this fence is kept on hand, and any varieties not in stock will promptly be secured from the factory.
