Letter to R. D. Foreman.

Dear Sir: Every job Devoe is done with less gallons than ever before with any other paint.

S. J. Field, Indianola, Fla., says: "All houses here are painted Devoe. The hot air is too trying for other paints. One coat Devoe is better than two of any other paint, so far as we know."

Less gallons, less cost.
Yours truly,
F. W. Devoe & Co.,
New York.
Kremer & Son sell our paint.

The Farmer's Opportunity.

The farmer oftentimes complains that he is not given the fullest opportunities to obtain the best markets. The Grange Encampment and Fair offers the farmer an opportunity not presented anywhere else to show the products of the farm to the best advantage, and at the same time is guaranteed a cash premium for each article placed on exhibition. There is no competition, the management preferring to pay a premium on the merits of the article itself without regard to its comparative standing among the exhibits.

The cash premium is open not only to members of the order of Patrons of Husbandry, but to everyone, and should be taken advantage of by every farmer, his wife and the farmer's sons and daughters.

George Clifford Rice, for some forty years prominently connected with the business interests of Reedsville, is seriously ill with no hope of his recovery. His illness dates back to a year ago, at which time he fell from the rear of a wagon. During the past three months he has suffered greatly, and at present is almost totally helpless, his chief ailment being due to uremic poisoning.

Hon. L. Rhone is entertaining his two sisters from the west. The one, Mrs. John Hixon, is a resident of St. Joseph, Missouri, her husband being engaged in the mercantile business. The other sister is Mrs. Lewis Mason, of Grinnell, Iowa, who is making the trip east while her husband is engaged in the sale of vehicles, which are purchased in car loads and resold in various parts of Iowa. Mr. Mason is a native of Potter township, and when a boy made his home with William Durst. It is many years, however, since he left this part of the country.

While driving between Centre Hall station and Old Fort, Miss Anna Mitterling and her brother Henry met with an accident that might have been infinitely more serious than the bruises and cuts sustained. The accident was caused by the shaft breaking from the fastening on the axle, which caused it to fall on the horse's heels. Frightened at the capers of the horse, Miss Mitterling jumped from the buggy, and in so doing sustained injuries that obliged her to remain in bed for a few days. Henry stayed with the vehicle until thrown from it, and on landing he received several slight cuts above the right eye.

Mr. and Mrs. James I. Snyder, of Freeport, Illinois, are guests of the former's parents, Mr. and Mrs. John H. Snyder, east of Centre Hall. Mr. Snyder went to Freeport sixteen years ago, and has been located in that town ever since. Ten years ago he and Mrs. Snyder made their first visit east. Mr. Snyder is a machinist, having been employed for seven or more years with a firm engaged in building various mechanical contrivances. He fitted himself for the work by taking a course in the International Correspondence School, at Scranton, and now is able to do drafting as well as difficult mechanical work, all of which goes to make his services valuable and the contents of the pay envelope larger.

Poultry Exhibit.

The building for the poultry exhibit at Grange Park has been completely remodeled and will be an attractive feature of the Grange Fair. A cash premium will be paid for every meritorious bird placed on exhibition. All engaged in poultry raising should bring some of their best birds and help to fill this department so as to make it valuable.

The way to advertise your poultry is to place it on exhibition, so that people can see what you have.

THE MODERN "PITTSBURGH PERFECT" WIRE FENCE, WELDED BY ELECTRICITY.

What a Marvel it would have been to Abraham Lincoln splitter of rails.

Mr. Farmer: Your progressiveness is keeping you in close touch with improvements in farm machinery, in dairy methods, and with all the scientific facts that bring about the greatest possible agricultural production.

You are also informing yourself about fence. We know you are.

First—there was the stone fence of medieval history.
Second—pioneer America converted its timber into rails.
Third—somebody found a way to weave wire and slats.
Fourth—along came barb wire, with its marvelous sale.
Fifth—machines were invented to twist or clamp one wire around another: the woven wire fence.

But, most important of all, electricity now welds the wires at the joint, making no longer necessary these wraps and clamps. Stay and strand, wizard-like, become one.

The greatest step forward in fence building is thus accomplished at a single, master stroke.

Of course, you are not using anything else. Surely you are familiarizing yourself with this remarkable improvement, to be found only in "Pittsburgh Perfect."

A large variety of this fence is kept on hand, and any varieties not in stock will promptly be secured from the factory.
