It is the business of the kidneys to remove from the blood all poisonous materials. They must be active all the time, else the system suffers. There are times when they need a little assistance.

Peruna is exactly this sort of a remedy. Peruna is exactly this sort of a remedy. It has saved many people from disaster by rendering the kidneys service at a time when they were not able to bear their own

Anxiety In The Army.

The commissioned personnel of the United States Army, or, at least, that part of it which is classed among the field officers of the special staff corps, is much disturbed over a discussion which is rife in the War Department. The question has been raised as to the extent of the application of the order issued some months ago by President Roosevelt requiring acrobatic horsemanship of all officers, especially of those of the field grades. This imposed upon colonels, lieutenant colonels and majors an activity in equestrianism which struck the military personnel as a dire visitation. It imposed upon obese as well as indolent officers a celerity and endurance which was nothing short of youthful gymnastics. It has occurred to someone that, perhaps, the order might not be relentlessly imposed upon the field officers of the special staff corpsthat is to say, the surgeons, quartermasters and judges advocate, for instance, whose lives are sedentary and whose duties keep them in the large cities, where they do not have the facilities for horsemanship without patronizing the livery stable.

It must be admitted that military horsemanship under such conditions is distracted by the trolley car gong and the rumbling truck of commerce. and it is hoped by the officers most interested that they will be able to escape this exaction. On the other hand, it must be admitted that even the army commissary or the army quartermaster or the judge advocate of exalted rank is apt in time of war to be required to mount a horse and keep up with the commanding general's staff in the field. If the President's order meant anything, it must have been preparedness for war, and the Army will not be prepared unless these high-ranking staff officers do their uncomfortable turn on horseback .- Washington Herald.

PUTS THE "GINGER" IN.

The Kind of Food Used by Athletes.

A former college athlete, one of the long distance runners, began to lose his power of endurance. His experience with a change in food is interesting.

"While I was in training on the track athletic team my daily 'jogs' became a task, until after I was put on Grape-Nuts food for two meals a day. After using the Food for two weeks I felt like a new man. My digestion was perfect, nerves steady and I was full of energy.

"I trained for the mile and the half-mile runs (those events which require so much endurance) and then the long daily 'jogs,' which before had been such a task, were clipped cul with ease. I won both events.

"The Grape-Nuts food put me in perfect condition and gave me my 'ginger.' Not only was my physical condition made perfect, and my weight increased, but my mind was made clear and vigorous so that I could get out my studies in about half the time formerly required. Now most all of the university men use Grape-Nuts, for they have learned its value. but I think my testimony will not be amiss and may perhaps help some one to learn how the best results can be obtained."

There's a reason for the effect of Grape-Nuts food on the human body and brain. The certain elements in wheat and barley are selected with special reference to their power for rebuilding the brain and nerve centres. The product is then carefully and scientifically prepared so as to make it easy of digestion. The physical and mental results are so apparent after two or three weeks' use as to produce a profound impression. Read "The Road to Wellville," in

FARMERS REBEL ATPURE MILK RULE

Health Department Says Hair on Cow's Tail and Flank Must Be Cut and Lights Put in Troughs--Clean Suits For Milkers.

Florida, N. Y .- Farmers in New / ters setting forth the requirements of the milk they have sent to the marthe department necessary to insure a pure milk supply for the New York City market. The requirements run reason. Already some are deterpanes of the cowpen to cutting the cow's hair

One farmer who had received a list of the department's requirements declares that if some of the rules are carried out there will be a serious shortage of milk in the market, as to obey orders would mean a great expense and require so much time attending to the animals that very little profit would result to theowners. The farmer said:

A NICE YOUNG MAN.

Oklahoma's Constitution is strictly prohibition .- News Item. -Cartoon from the Pittsburg Press. No Paper Money For The Indians.

"There are two traits about the American Indian that civilization and contact with his white brothers cannot overcome," said Frank L. Campbell, who has spent several years as a school teacher among the Sloux and has learned to know them well.

"Those peculiarities are his aversion to paper money and his appetite for dog. An Indian will never take paper money if he can avoid it. He wants it, in the language of the Sioux, 'muzza ska,' which translated means white iron. The red man cannot bring himself to believe that a small piece of printed paper can be worth as much or more than the metal itself. Strange to say, an Indian would also rather have 10 silver dollars than one 10-dollar gold piece. I do not know whether it is because the 10 pieces of money appear to be more or whether it is simply because he likes to jingle the coins .- Washington Post.

He Had Waited A Long Time. Bill Nye, when a young man, once made an engagement with a lady to take her driving. The appointed day came, but at the livery stable all the horses were taken save one old, shaky, exceedingly gaunt beast. Mr. Nye hired it and drove to the friend's residence.

FIFTEEN YEARS OF ECZEMA.

Hands, Arms, and Legs Affected -Cured in 6 Days by Cuticura.

"I had eczema nearly fifteen years. The affected parts were my hands, arms and legs. They were the worst in the winter time and were always itchy, and I could not keep from scratching them. I had to keep both hands bandaged all the time, and at night I would have to scratch through the bandages as the itching was so severe, and at times I would have to tear everything off my hands to scratch the skin. I could not rest or sleep. I had several physicians treat me, but they could not give me a permanent cure, nor even could they stop the itching. After using the Cuticura Soap, one box Cuticura Oint ment and two botties Cuticura Resolvent for about six days the itching had ceased. and now the sores have disappeared, and I never felt better in my hie than I do now.
