Centre county Democratic politicians will have something to be thankful for when gathering around the board on Thanksgiving day. If it wasn't a Democratic victory the party gets the fruits.

Possibly there is no valid reason why a citizen of the United States should not attend every election and show his preference for candidates, but if the election day came in December jugate the poor and needy. it might take away from the rural voters the excuse of being "too busy."

For the best interests of the party it might be well to refrain from making faces at south side Democrats even if a couple hundred of them did remain away from the polls because they preferred to give the time to their personal needs rather than put themselves on record as opposed to the capitol grafters, because if you want to find a voter saturated with the unadulterated Democratic principles, you'll have to come here to find him. What is more, when he goes to the polls he votes straight. No more need be said.

Theodore Roosevelt is the first Presidebar him from wearing the title of dent of the United States whose taste Colonel. That would have been a and sense of official propriety have led him to issue a proclamation expressing his "extreme delight" over the results The next time President Roosevelt of an election of the people. There tests at various epochs, but no former President has so lowered the dignity of his position as to convert the Chief Magistracy of the nation into the mere headship of party. He has made himself the organ not even of the Republican party, but of a faction of the party. From his party is excluded that large conservative Republican element (the "reactionaries") that make little concealment of its hostility to his policy of imperial centralization and to his scheme to tax the value out of the incomes of the "malefactors of great wealth," the better to seduce and sub-

> What was the electoral occasion for President Roosevelt's descent into the lowest rank of a partisan? In one State the people have voted for liquor pronibition and in another against this system of sumptuary legislation. Philadelphia and, through Philadelphia, the State of Pennsylvania, has given an overwhelming majority in favor of what a distinguished member of Roosevelt's cabinet has denounced as a "corrupt and criminal combination masquerading in the name of Repubican." San Francisco, on the other hand, has gloriously overthrown a tike combination of spoilsmen, while the people of the foremost city of Ohio bave signally repulsed the attempt of this President to interfere with their choice of a Mayor. In this confusion of popular tones at the ballot-box it is rather difficult to conceive the cause of his "extreme delight" over the result.
