

CENTRE HALL HIGH SCHOOL.

The High School Course Indorsed by State Superintendent Schaeffer—Benefit to Township scholars.

The course mapped out by Prof. C. R. Neff, principal of the Centre Hall High School, has received the endorsement of State Superintendent of Public Instruction N. C. Schaeffer, and if the course is adhered to and the work actually done, the borough school district will be entitled to its quota of an extra appropriation from the state school funds. This sum will be due as soon as a report of the actual work can be filed after the close of the present school term, or in other words, this extra appropriation will be paid next year some time between June and September.

The citizens of the borough, and especially those having children of school age, have a part to perform in this work. It is up to these to see that the scholars attend school regularly, and devote sufficient time to study to cover the required work.

By having the High School course approved by the State School authorities, making the Centre Hall High School a legally constituted high school, residents of the adjoining townships may send their children to this school and oblige the township school board to pay the tuition, instead of paying it themselves.

LOCALS.

Miss Anna Sweeney, of Boalsburg, was the guest of Mrs. Lizzie Jacobs, in Centre Hall, beginning of this week.

Miss Florence Rhone, of Centre Hall, is spending this week with her sister Miss May, at Harrisburg, and with friends at Lancaster and Sunbury.

James H. Smeizler, of Centre Hall, the railroad section foreman, has been unable to perform his duties during the past week, although not confined to bed.

W. P. Shubertaupt, of Harrisburg, is introducing a horse and cattle powder compounded by himself. He is canvassing Potter township with W. H. Lee, of Colyer.

May be next year, or the next, or the year after, the Reporter will be able to tell who the murderer of Mr. Dale was. It is quite an easy matter to form an opinion in such matters, but an insurmountable proposition to substantiate opinions by positive evidence.

Many of the Reporter readers, when forwarding subscriptions by mail or paying personally, make kind references to the paper, but the little note received from Mrs. Susan Hetrick, of Milroy, has the ring to it that makes the editor feel as though his paper was worth the money. The note read: "You will find enclosed two dollars for which please send the Reporter for two years."

After suffering from a bruise on his cheek for some months, James Harshbarger, of Potters Mills, went to Philadelphia recently and had an operation performed by Dr. Martin. Last spring Mr. Harshbarger was handling a coil, and the animal threw his head around and struck him on the cheek, dividing into shreds the tissue over the molar or cheek bone. Dr. Martin laid open the flesh and scraped the portion of the affected bone.

Among the visitors from the west is Jacob Stuffer, of Red Oak, Illinois, who is making his headquarters with his sister, Mrs. Mary Colyer, in Centre Hall. Mr. Stuffer has been in Illinois for thirty years, and during that time engaged in railroading and farming. He is at present on a 200-acre farm, and keeps a large number of cattle and hogs. During the past ten and one-half months the twenty-two cows he keeps have earned him \$1132, or \$51.50 per cow. This does not include the value of the skimmed milk which is fed to hogs at a good profit. Like in the east, farm products took a tumble in Illinois, and oats, which sold at fifty cents is now being marketed at thirty-six cents; old corn, 60 cents; new corn, 46 cents; hay about \$13.00. Mr. Stuffer is married to an Ohio lady, who with her sons are taking care of the farm during his absence.

Mr. and Mrs. James I. Lytle moved into their new residence at State College a few days ago. It is a large brick structure with all the modern conveniences, and one of the handsomest homes in that borough.

Farmers just got a "wee bit" of the prosperity wave that was going over the states during the past few years, and now what a kick there is coming. The farmer has been obliged to pay the advanced prices for every article he bought, but if he makes the attempt to put up his own product the consumer begins to pull his hair in desperation. These are strange conditions, but facts. Hang out for top prices, Mr. Farmer, as long as you must pay top prices for the goods you buy.

Spring Mills.

Mrs. Wilbur Else, of Williamsport, spent a few days with her aunt, Mrs. M. B. Herring.

Mrs. Robert Mensch, of Aaronsburg, was a guest at the C. E. Royer home over Sunday.

Misses Mable Finkle and Ruth McCool are on the sick list.

Doner Emrick returned home from Altoona.

Charles Campbell is on a visit to Williamsport.

To Good to Miss.

"Theater audiences have improved in recent years," said a manager. "Why, with provincial touring companies in the past maltreatment was regularly expected. In fact, the companies profited by it in more ways than one."

"I know of a company that was playing 'The Broken Vow' in Paint Rock, a one night stand. The audience didn't like 'The Broken Vow,' and eggs, cabbage and potatoes rained upon the stage."

"Still the play went on. The hero raved through his endless speeches, dodging an onion or a baseball every other minute and pretty sore from those missiles that he hadn't been able to dodge."

"But finally a gallery auditor in a paroxysm of rage and scorn hurled a heavy boot, and the actor, thoroughly alarmed, started to retreat."

"Keep on playing, you fool," hissed the manager from the wings as he looked in the boot with an umbrella. "Keep on till we get the other one."

How a Tree Grows.

Both earth and air are required for the growth of a plant or tree. The roots absorb moisture from the soil, which, in the form of a watery fluid called common sap, rises through the fibers of the last deposited annular ring, traversing all the branches and leaf stalks until it reaches the leaves; there it undergoes a change by the absorption of carbonic acid from the air. It then travels downward again in the form of proper sap, just underneath the bark, which is expanded by the accession of moisture and in the cavity so formed a new layer of material is deposited which gradually hardens and forms a new annular ring. And so, from absorbing the moisture and minerals of the soil and the carbonic acid of the air the tree goes on until it finishes its cycle and dies.—New York American.

Jack Tar at a Christening.

A sailor went up to the font to have his baby baptized. Sailors as a class claim little stock in babies, and naturally enough this one presented the infant feet foremost.

"The other way," said the minister, and accordingly Jack turned the infant upside down.

"Excuse me," said the clergyman, "I mean the other way." So back came the embryo foretopman to the first position, to the discouragement of everybody.

"Wind it, Jack," said the nautical assistant, and with an "Aye, aye, sir," Jack promptly turned the baby end for end, and it was duly christened head first—"On a Man-of-war."

The Alternative.

The Count-Doctor. I have such a fearfully bad cough. What can I do for it? Doctor-Well, sir, you must remember that you are no longer in your first youth and you must take care of your general health. So you had better leave off smoking; take no alcohol in any form and do not excite yourself in any way; do not—The Count—The mischief, doctor; what am I to do then? Nothing but cough?—Lustige Blätter.

The Virginia Plover.

The most wonderful bird flight noted is the migratory achievement of the Virginia plover, which leaves its haunts in North America and, taking a course down the Atlantic, reaches the coast of Brazil in one unbroken flight of fifteen hours, covering a distance of over 3,000 miles at the rate of four miles a minute.

GREAT BARGAINS IN CAMERAS—NEW & SECOND HAND.

If you are interested, get in touch with Headquarters Prices. We are agent for the best cameras on the market to-day, viz: The Century Grand, the Premo, Eastman Kodak, the Graflex, the Blair Hawk Eye, etc. We can easily show that the Century Grand is superior to any plate camera on the field to-day. The Eastman Kodak for roll film has a world-wide reputation. The Premo film pack and plate camera is highly endorsed by the U. S. Government. Uncle Sam says it's good enough for him. The Graflex camera is unique, in that it shows the picture on the ground glass full sized and non-reversed. It's the camera for the most rapid motion pictures and Press Reporters use it almost exclusively.

All these firms are controlled by the Eastman Kodak Co., and the name of Eastman stands as a synonym for all things good in Photography. We are sole agent for all their goods at State College and you will find the goods right and prices ditto.

We are prepared with a first-class equipment for copying and enlarging interior and outside work. Do you want a family group at your home? Do you want your residence photographed? Have you any blooded stock of which you would like a picture? Just call us up by phone, and we can make you anything you want in this line.
