THE NEW AIR LINE ROUTE.

Joseph Ramsey, Jr., Visits This Section to Inspect the Surveys of the Short Line From Chicago to New York.

The Phillipsburg Daily Journal says it is glad to be able to announce that Joseph Ramsey, Jr., who proposes to build an air line from Chicago to New York, making a direct connection with Pittsburg, has just completed a very satisfactory inspection of the route of the contemplated line in this section of the state, having only last week spent several days in this connection.

It is learned that the route as outlined and practically located by Mr. Ramsey will enter the Indiana county limits near South Bend. It will cross Armstrong township, and pass almost midway between West Lebanon and Shillocks, following the banks of small creeks to a point within a few miles of Indiana. An overhead line will be built over the Buffalo, Rochester & Pittsburg railroad. Preliminary surveys show that a tunnel 1,800 long feet long will be constructed just north of Indiana.

Through the southern part of Clearfield and Centre counties, Mr. Ramsey said, the road will pass through Westover, Irvoona and Sandy Ridge, crossing the Pennsylvania railroad near the latter town, and continues eastward through the latter county along the base of the Seven Mountains from Pine Grove Mills to Coburn.

RETIRED BUSINESS MAN FAVORS NEW THEORY

E. H. Lambert, of Everett, Massachusetts, Believes Stomach the Seat of Life.

One of the most interesting statements made recently concerning the much discussed Cooper theory, that has spread over the country during the past year, is made by E. H. Lambert, a retired business man, whose home is at 115 Francis Street, Everett, Mass.

Mr. Lambert has this to say in connection with Cooper and his medicine: "Some time ago I read an article about this man Cooper, in which he claimed that stomach trouble was directly responsible for most ill health. He went on to say that, although his medicine did nothing but get the stomach in sound condition, it would, in many cases, remove kidney and liver trouble and various other ailments. He argued from this that the stomach was the main cause of sickness, and stated that the success he has had with his medicines was due entirely to this fact.

"I am now fully convinced that this theory is correct, and believe Cooper has a really remarkable medicine, judging from my own experience.

"I have been a sick man for five years. Three years ago I was told by a physician that I had Bright's disease of the kidneys. I have treated constantly for this trouble since, without result. After reading the article I have mentioned, I purchased some of this man Cooper's medicine. I have been astounded by what it has done for me. I was relieved to some extent within 24 hours. Today my health is better than for five years, and so far as I can tell, my kidney trouble has disappeared.

"My wife, who had stomach trouble for some time, tried the preparation after noting its action in my case, and her improvement is fully as marked as mine. She now eats heartily three times a day without any distress whatsoever. Her nervousness has also left her. I certainly believe this man's success is fully justified, as he undoubtedly has a wonderful medicine."

We will gladly describe the remarkable record made by the Cooper medicines to all who wish to know of them.

—J. D. Murray.
