While carrying lumber from one part of his yard to the other, Jacob Sharer had the misfortune to step on a nail that extended through a board, and the result was that his foot was pierced to the depth of an inch or more. The proprietors of Kerlin's Grand View Poultry Farm advertise that they are ready to take orders for eggs for hatching and one day old chicks, either Single-Comb White Leghorns or Brown Plymouth Rocks. They just received two new incubators having a capacity of 1000 eggs each. This move was necessitated owing to the many unsolicited orders booked by them, and now since they have added the two incubators they will be equipped to supply a large trade. Mr. Kerlin gives his whole attention to poultry—the production of the fowls and eggs—and has met with marked success. He has made it a point to keep his pens free from disease and always in a thrifty condition, which points should be taken into consideration when either eggs or chicks are purchased.

The rooms were beautifully decorated, the most furnishing was the famous little hatchet. Choice selections of music were rendered and M. B. Herring read several Dutch pieces. One of the most interesting events of the evening was the search for four little hatchets that were concealed. The finders were Miss Bertha Duck, Miss Lizzie Stover, Mrs. Chas.
