

### A TEMPERANCE WORKER.

Says Peruna is a Valuable Nerve and Blood Remedy.

**MISS BESSIE FARRELL.**

MISS BESSIE FARRELL, 1011 Third Ave., Brooklyn, N. Y., is President of the Young People's Christian Temperance Association. She writes:

"Peruna is certainly a valuable nerve and blood remedy, calculated to build up the broken-down health of worn-out women. I have found by personal experience that it acts as a wonderful restorer of lost strength, assisting the stomach to assimilate and digest the food, and building up worn-out tissues. In my work I have had occasion to recommend it freely, especially to women."

"I know of nothing which is better to build up the strength of a young mother, in fact all the ailments peculiar to women, so I am pleased to give it my hearty endorsement."

Dr. Hartman has prescribed Peruna for many thousand women, and he never fails to receive a multitude of letters like the above, thanking him for the wonderful benefits received.

**Balked on the Combination.**

Senator Foraker balked at the combination of train 23 and track 13. He was on the program of a meeting held in Cleveland recently, of which the Merchant Marine League is in charge. A member of the league arranged for the trip, which was taken by a party of representatives and senators.

This man called up Senator Foraker on the telephone.

"Hello, Senator, are you all ready?" he said. "Our train leaves at 5 o'clock. It's train 23, on track 13."

"What's that?" said the Senator. "Train 23 on track 13? Not for me, my friend. Now that I think it over I don't see how I can make the trip."

Friends of the Cleveland man thought he had been the victim of an electric shock. He recovered himself with a gasp and saw the significance of the combination of numerals.

"Not at all, Senator," he said, "you misunderstood me. Our train will be found on track 17."

"Very well," came the answer, "I will go."

Missouri Preacher First Repays to His Flock the Money He Lost at Poker—Old Passion Seized Him—He Tells Congregation Game 'ing Fever Consumes Its Victims.' Speaking From Experience

Lee's Summit, Mo.—Perhaps the most astounding revelation ever made in a house of worship came from the lips of the Rev. Charles S. S. Brown, pastor of the Christian Church in this town, in a sermon on the evil results of gambling, for the preacher spoke from recent experience.

Brown told his congregation that the passion for gaming utterly consumed its victims, making every man of them forget friends, family, home and God. He did not refer to himself by name, but every one in the church knew what he said was less a sermon than a confession, for he returned to town with a draft for \$300 and repaid to members of his congregation that amount borrowed from several of them. He lost in a poker game in Kansas City a few days ago the loans he got from his flock.

It was when he failed to repay the lenders promptly that they started an investigation resulting in the discovery that the parson had frittered away their money at the gambling table. Brown did not deny the charge. He contented himself with promising to raise the money, asking for a few days of grace. Then he left town and was absent until next morning.

The clergyman, when the elders of the church taxed him with his sin, said he had succumbed to a craze for gambling to which he had been subjected years before. He thought he had conquered the passion forever, he said, but a few days ago, finding himself in Kansas City and hearing men in a hotel remark that there was a poker game in a certain place, he was seized with a desire to handle the cards and chips once more.

Brown dressed himself in clothes as unlike those of his calling as he could get and went to the gambling house. He was admitted readily, and soon he was playing as if he had never entered a pulpit. He explained to the elders that it was the first time he had touched a card since entering the ministry. It was before he became a clergyman that he did his gambling of former years.

To his amazement, the gaming fever was so strong in him that he lost all the money he had in his pocket. It amounted to \$300, which he had borrowed in various amounts from members of his flock for a legitimate purpose.

Brown, when he returned with the money necessary to reimburse his friends, asked the leading men of the

### HER GOOD FORTUNE

After Years Spent in Vain Effort.

Mrs. Mary E. H. Rouse, of Cambridge, N. Y., says: "Five years ago I had a bad fall and it affected my kidneys. Severe pains in my back and hips became constant, and sharp twinges followed my every exertion. The kidney secretions were badly disordered. I lost flesh and grew too weak to work. Though constantly using medicine I despaired of being cured until I began taking Doan's Kidney Pills. Then relief came quickly, and in a short time I was completely cured. I am now in excellent health."

**Tricked of the Time.**

A Philadelphia lawyer, who spends most of his time at his country estate, employs a sturdy Irish gardener whose one desire in life is to live until the banner of freedom is unfurled over Ireland. One evening the lawyer strolled through the grounds of his place and stopped to have a chat with the gardener. "Michael, do you know that while we are here enjoying the beautiful twilight it is dark in night in Ireland?" he asked. "Faith, an' O'f'm not surprised," replied the gardener. "Ireland never got justice yet."—Judge.

**Hog Cholera.**

The greatest drawback to the hog industry which breeders in this country have to contend with is what is known as "hog cholera" and "swine plague"

Hog cholera is a highly contagious disease and unless checked is liable to carry off a great number of hogs in a very short time.

Mr. A. P. Williams of Burnetts Creek, Ind., tells of an experience which he had with some hogs that had the cholera. "Five years ago," says Mr. Williams, "I was in the employ of Mr. J. D. Richardson, Lafayette, Ind., as his barn foreman. Some fine hogs that I was feeding took the cholera. I gave them Sloan's Liniment and did not lose a hog. Some were so bad they would not drink sweet milk and I was compelled to drench them. I have tried it at every opportunity since and always find it O. K."

### BOY COCAINE USERS ON THE INCREASE

Boston, Mass.—An anti-cocaine bill prepared by Dr. Charles Harrington, of the State Board of Health, has been brought before the legislative committee on Public Health by that official, who made a strong appeal in its advocacy.

He declared that hundreds upon hundreds of Boston boys are slaves to the cocaine habit, that the harmful drug can be purchased in saloons, from cheap drug stores and on the street from illegal agents as freely as one can buy fruit from street hawkers, and that the juvenile courts are filling up with youths who have admitted that their downfall can be traced to the vicious drug habit.

Said Dr. Harrington in part: "From judges, from lawyers, from probation officers and others, I have received hundreds of pitiful letters giving me lists of names of Boston boys who have become slaves to cocaine."

"I have heard of saloons where they keep catarrah powder filled with cocaine or its by-products in the toilet rooms for the use of customers. Cheap west end drug stores sell scores of boxes of cocaine a day illegally. The negro race is especially addicted to the drug, and it can be purchased by them in stores and on the streets."

"One of the agents of the Health Board purchased some of this drug at a drug store in Boston, then stood by and saw twenty sales of the same within a half hour, all the purchasers being negroes."

Dr. Harrington said that children were supplied with the drug by agents who went about the streets with their pockets stocked with the powders.

### FARM HORSE GIVING WAY TO ITS RIVAL, THE AUTO

Washington, D. C.—According to investigations made by G. K. Holmes, chief of the Division of Foreign Markets of the Department of Agriculture, the automobile has been responsible for the displacement of but 60,000 horses in this country up to the present time, and farm horses have never been in such great demand as at the present moment. In fact, the demand for horses for farm and other business uses has become stronger and stronger during the past two or three years, the farm horses alone in use on January 1, 1908, numbering no less than 19,982,000 in round numbers. The department figures that 60,000 horses in stock on farms could have replaced the same number that have given way to the automobile, while it is calculated that the 500,000 horses which electricity displaced in urban street car services could have been replaced by 850,000 horses in stock assuming its growth to present proportions with horses.

**Why Paris Employs Imitators of the Canine Voice.**

Paris.—The revenue authorities, with a view to outwitting the dog owners who persistently evade the dog tax by denying possession of animals, have engaged a number of men who are accomplices in imitating the voice of a dog. These artists promenade at night and bark outside. If a dog is within it invariably replies, thus betraying its owner. The next day a collector visits the owner and gathers in the tax. The human barkers receive \$30 a month pay.

Los Angeles.—While serving a sentence of 180 days in the city jail for larceny, William Allen, aged twenty-eight, received word of his mother's death in New York City and that he had been bequeathed an estate valued at \$15,000. After he had failed to secure money from a broker on the strength of his inheritance a telegram was sent to the administrator of the estate asking him to forward money so that Allen could obtain his release from prison.

### Naming the Zones.

The semiannual examinations were held at a well-known upper West Side private school the other day, and while inspecting the papers the teachers found many numerous answers to some of the questions. A class of boys averaging about twelve years of age had been examined in geography, which had been preceded the day before by grammar.

Among the questions in the geography paper was the following:

"Name the zones."

One promising youth of eleven years wrote this answer:

"There are two zones, masculine and feminine. The masculine is either temperate or torrid; the feminine is either torrid or frigid."—New York Sun.

### After suffering for seven years, this woman was restored to health by Lydia E. Pinkham's Vegetable Compound. Read her letter.

Mrs. Sallie French, of Paucanla, Ind. Ter., writes to Mrs. Pinkham:

"I had female troubles for seven years—was all run-down, and so nervous I could not do anything. The doctors treated me for different troubles but did me no good. While in this condition I wrote to Mrs. Pinkham for advice and took Lydia E. Pinkham's Vegetable Compound, and I am now strong and well."

**FACTS FOR SICK WOMEN.**

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?

Don't hesitate to write to Mrs. Pinkham if there is anything about your sickness you do not understand. She will treat your letter in confidence and advise you free. No woman ever regretted writing her, and because of her vast experience she has helped thousands. Address, Lynn, Mass.
