

DEATHS.

JACOB NEESE.

One of the best known residents of Gregg township died suddenly Thursday evening of last week. He was returning home from Spring Mills, and on ascending a hill near Farmer Mills, and not far from his home, he fell backward from the road cart in which he was seated. The accident was observed by several men near by, who tenderly picked up Mr. Neese, and placed him into another conveyance, but his injuries from the fall were such that life became extinct before his home was reached. His age was seventy-eight years, one month and twenty-one days. He was a remarkably well-preserved man, and during his life was robust, hardy, jolly. Interment was made at the Union cemetery, near Farmer Mills, Tuesday morning.

CHARMS FOR LUCK.

The Sort of Superstitions Some Wall Street Men Harbor.

Let all the dear readers, feminine gender, take cognizance of what follows, for surely the fairer sex is, after all, the stronger sex. Women know no such abject obedience to superstitious fears and signs as do the men. With a view to eliciting something of interest, the writer had a chance to put a certain question to a captain of industry. "Tut, tut," he replied suspiciously, "you'd be getting me into trouble, would you?" With a promise that no names would be mentioned, he finally agreed to tell a thing or two.

The question was, "Aren't men in Wall street carrying all sorts of queer things to try to change their luck?" In answer to this the writer heard some curious stories. One man of worldwide fame, for example, carries a cane in the center of which there is a slender steel rod. Circling the rod there are rings made of leather and of hard rubber, like the washers that plumbers use. Each seventh ring is made of leather from the soles of the shoes worn by the billionaire during what he considered his luckiest year. Elephants and pigs as lucky charms there are of course in plenty, but the proper paper is to wear the animal pinned inside on the watch fob pocket. Then there is another great financier who carries with him a gold ink well and would never sign a document with fluid from another receptacle. Once upon a time, when he had, say, only a penny million or two, he signed a paper in a deal that doubled, then trebled, his wealth. The ink used that day was emptied into a long gold tube or well that he now carries. The ink was used up, but to the well, so he thinks, the good luck power has been translated. Lucky coins pass from father to son in several of the multimillionaire families, and the man who inherits them would never be without them. We have few secret drawers in desks or doors in houses, as they had in olden times, but there are many secret pockets in the suits made by smart tailors.—Brooklyn Life.

A GRATEFUL GUEST.

The Reward She Bestowed Upon Those Who Entertained Her.

"Human nature is a queer thing," said the philosopher. "Not long ago some friends of mine got badly down on their luck. Times were so hard for them that they scarcely knew which way to turn for the necessities of life.

"At that most inopportune time they received word from a woman friend of theirs that she was coming to visit them for a few days. They were dismayed, but by the exercise of great ingenuity and by depriving themselves to almost the vanishing point they managed to entertain her and really to set before her most excellent meals.

"After she left their affairs continued to grow even worse. If possible, and while they kept up a brave front I was near enough to them so I couldn't help knowing all about it, though they were not aware that I saw the situation.

"I thought it was time some of their friends came to the rescue if a suitable way could be devised, so I wrote the woman who had been their guest—being slightly acquainted with her myself—told her I would head the procession, would like her aid and would be glad of any suggestions she could make as to a practical plan for helping our old friends without hurting their proper pride.

"Her reply gave me something to think about for many a day. She said she didn't care to help them, as they already lived too well and set too expensive a table; that when she had visited them they had a great deal more to eat than was necessary and that they must be very extravagant people; that it was undoubtedly their own fault they were in such trouble and that it would probably teach them to be more economical in future!"—New York Press.

The Missing Window Pane.

"Every kitchen has a window with one pane out in the Brazilian town of Rio Grande do Sul," said a cook. "That town is a servants' paradise. Servants live in their own homes there, as they should everywhere. They come to work at 7 in the morning, and they quit at 7 at night—a twelve hour day. Quite long enough. The paneless window is for the milkman, the baker, the butcher, so that these traders can leave their supplies—they usually come early—in a safe place. The Rio Grande servant is, of course, not there to receive them. She is in bed at her own home."

Monism.

Monism is the doctrine of the oneness of mind and matter, God and the universe. It ignores all that is supernatural. Monism teaches that "all are but parts of one stupendous whole, whose body nature is and God the soul;" hence whatever is only conforms to the cosmic laws of the universal all. Mind can never exist without matter, nor matter without mind. They are but the two sides of the same thing.—New York American.

The Bloodstained Equator.

Human life, I have reason to know, is held cheap at Equatorville, and the place is stained with many crimes. In fact, the whole equator is throughout its 25,000 miles a line of ignorance, savagery and blood. It is a black line which civilization ought to paint white.—Strand Magazine.

The man who is always on time has a big advantage in the struggle for success.—Chicago Record-Herald.

The widow looks blacker than she feels.

AN OPEN LETTER.

BELLEFONTE, PA., March 16, 1908.

I am a candidate for the Democratic nomination for the office of Member of the General Assembly. The condition of the roads and the short time remaining until the date of the primaries renders a canvass of the county impossible.

In answer to numerous inquiries, I beg to say that I concede the fairness of the demand that each candidate declare his attitude upon what it is agreed will be two very important questions for decision in the coming session of the Legislature of Pennsylvania—the election of a United States Senator and the adoption of a Local Option Measure. When certain issues are clearly foreshadowed, I admit the right of the people to be informed in advance on which side of the question the candidate stands. They will not tolerate any dodging or evasion. I do not hesitate, therefore, to say with absolute candor that I nominated and elected—

I will unalterably oppose the re-election of Senator Penrose to the United States Senate.

Believing in the right of the majority to rule, I shall support a bill that will give the people an opportunity to determine for themselves whether or not they want intoxicating liquors sold as a beverage. The spirit of our institutions and the fundamental principles of our government suggests the fairness of the proposition. It is a business that affects their general welfare and they should have a voice in the determination of the question.

If I should become the representative from this county, I should feel it my duty to labor incessantly for such legislation as will best promote the interests of our farmers, merchants, manufacturers, miners, laborers and the public institutions within the confines of our county.

And I should regard it equally my duty to most vigorously oppose all vicious legislation conceived and proposed in the interest of a class that thrives upon vice, immorality and political jobbery.

If, with me, you feel that as citizens we will be benefited by the enactment of Laws calculated to advance the cause of civic decency, to secure the adoption of cleaner methods in politics, and to generally improve the condition of all the people, I now pledge you unreservedly my earnest effort for the accomplishment of such Legislation and I sincerely request your support of my candidacy at the Primaries, April 11, 1908.

Very truly yours,
J. C. MEYER,
